## Assessment

The Office of Assessment is in place to communicate University assessment policy, methods and best practices; evaluate assessment data; make recommendations based on assessment data for improvement and accountability purposes; and to keep the dialogue of assessment alive across campus.

The office accomplishes this by:

- Coordinating and supporting university-wide assessment activities, such as program review, performance agreements and university accreditation.
- Managing university assessment measures and exit and alumni surveys.
- Reporting on university assessment activities to the Kansas Board of Regents and national accreditation groups.
- Providing support to departmental faculty and staff in their assessment activities.
- Serving as a resource on assessment issues.
