Faculty Development Calendar 2015-2016

The **Pre-Tenure Club** is an informal gathering of faculty for social support, information exchange, and accountability. The group is dedicated to improve the experiences of probationary faculty and facilitate their path to tenure. The group meets twice a month and provides opportunities for tenure-track faculty from across the university to meet each other, to discuss issues of special concern to this group, and to learn how to maximize their own success as teachers, researchers and university citizens.

The **Mid-Career Club** invites faculty who have achieved tenure and are looking to reach the rank of full professor, to re-invigorate their teaching or research, or simply to connect with others at the university.

The purpose of the monthly meetings is to discuss opportunities and challenges as faculty advance in the post-tenure years.
