Now the spurge is apparently ended. For the first time our national blundering is being felt.

Madmen Run at Large on Campus During "Hell Week"

'Hell Week' Makes Campus an Asylum for Maniacs

Idiotic Actions of Students Are Done at Command of Greek Letter Actives as Greeks Go Wild

Contrary to popular opinion, the strange actions of men and women students of the University during the past two weeks have not been due to mental derangements or queer pathological twists, but are the natural reactions of a pledge to the commands of the actives. It is Hell Week on the campus.

Pledges of both fraternities and sororities have been forced to all sorts of buffoonery, from milking strange and indignant cows, to carrying dolls to the classroom.

One fraternity hit upon the novel idea of making it a practical Hell Week, which found the pledges hard at work beautifying the lawn and giving the fraternity house a general overhauling.

Sororities forced their pledges to speak at whippers to the actives, wear colored glasses on the campus, and carry with them one of their baby pictures.

Discipline awaited the disobedient, so the pledges had no alternative other than obedience.

Most of them took it good-naturedly, looking forward to the time when they would be able to think up ways and means to make next year's pledges look more foolish than they.

George Washington could do this, and a few men like him could place the life of this country on a firm basis.

Take a Trip Around the World - in Your Own State

"A prophet is never without honor save in his own country." Kansas, as a state, has claims to fame that many of its greatest boosters never considered.

Perhaps there are no walls to tear down, you say. Well, Jericho had no walls either finally, and you really can't ask for too much, such as demanding to see the walls fall.

You say you crave excitement, night life, and hilarity? Why not try Antioch? Or you feel that some old world culture would be nice?

Perhaps you do not like the Latin cities. Well, are you interested in a bit of Russia? Moscow, the home of the czar in the past should hold glamor for a traveler.

Disatisfied with any of these, there are innumerable other well known places you can visit.

But Kansas' greatest claim to fame lies in the fact that within its borders is contained that ideal place which all thinkers along certain lines believe to be the utmost as to advancement, Utopia.

Few Out of State Cops on Campus

Out of the several hundred cars on the campus, only 50 of them are adorned with the new 1933 license tags.

The check of the license plates on the campus also revealed that the great majority of cars are from some place in Sedgewick county.

Only eight cars were found that were from out of the state. Of this number four were from the state of Oklahoma.

At the will of the magician she leaps twenty feet into the air to reach her trapeze. She uses no ropes, no ladder! A phenomenal leap for a woman... or a man!' and 'EXPLANATION: Josie didn't jump... she was sprung! The twenty-foot leap is not dependent on Josie's ability, but on a powerful spring mechanism hidden beneath the stage which propels the artist upward through the air.'
