

Mitchell Signs 10-year Contract

Coach Jack Mitchell

Jack Mitchell, now in his second year as head football coach at the University of Wichita, has been awarded a 10-year contract by the University which insures his job through 1965.

This action was taken as a result of a recommendation by Norvall Neve, athletic director, and received the unanimous approval of the Athletic Policy Committee and the Board of Regents.

Legal counsel for the University has given an opinion which enables the University to make a long-term contract.

Given 5-Year Option

Under terms of the contract Mitchell is given a five year option to renew his contract at the end of the 10-year period. He also will be eligible to receive faculty tenure on July 1, 1956.

The contract provides that Mitchell's cur-

rent salary of \$9,000 annually shall be increased according to an established schedule until it reaches a maximum of \$12,500.

Signs Tuesday Morning

Mitchell has signed the contract with Harry F. Corbin, University president, and James T. Klepper, vice chairman of the Board of Regents. Neve witnessed the signing Tuesday morning.

President Corbin said, "It is with extreme satisfaction that we have concluded this long-term agreement with Jack Mitchell.

"We feel that such action not only expresses our confidence in Jack as a coach, but it also serves as a positive step toward establishing security and permanency in our football program.

"The National Collegiate Athletic Association and our accrediting agency, the North

Central Association, have advocated policies which bring stability into the athletic programs of the nation's colleges and universities. We believe that such an agreement with our football coach enhances the security of his position.

Pact Extends to 1965

"We look forward to having Jack with us in the seasons that lie ahead, and we extend our very best wish for his success and happiness."

The terms of the agreement call for a 10-year contract, effective July 1, 1955, and extending through June 30, 1965.

The contract stipulates that Mitchell shall not engage in any other outside business while employed as head football coach at the University of Wichita.

Workshop Held Today

The annual Leadership Workshop presented by the Women's Honor Group is being held today in the Commons Lounge. Representatives of women's social organizations will attend the Workshop along with other persons interested in leadership.

The Workshop serves the purpose of acquainting officers with problems which may face them throughout the year.

The Workshop will close this evening with a dinner in the Pine Room from 6 until 8. Lynn W. Whiteside, general supervisor of training at Boeing Airplane Company will be guest speaker.

Pres. Harry F. Corbin opened the conference this morning at 8 a. m. with general remarks on responsibility of campus leaders. Following his introductory talk, group discussions will be held until 11:40.

Dean L. Hekhuis, head of the college of Liberal Arts, will lead the discussion concerning leadership duties of presidents and vice presidents.

Francis D. Jabara, associate professor of accounting, is scheduled to lead a discussion for treasurers.

Social chairmen and their work will be discussed by Dr. James K. Gours, director of Student Services. This year's senior Honor Women are Jane Burr, Celia Carter, Joan Godson, Darlene Dugan, Joyce Hill, Jacque La Porte and Delores McKay.

U.S. Attitude Seen Causing Asian Ill Will

Deeply aware of current public opinion gathered on his recent world tour, Pres. Harry F. Corbin blamed anti-American attitudes in Asia on what he called "an overwhelming sense of power and wealth" prevalent in the United States in regard to Asian countries.

During a special convocation yesterday morning, President Corbin turned from southeast Asia to enter his talk on conditions in India.

He compared the United States' view of India to that of a youngster in school who sits behind a larger student and is unable to see the blackboard. The nation's views of India's friendliness toward Russia are distorted, he said, because we see India through Russia.

"Our fears are showing, and they are unbecoming."

President Corbin praised India's community development projects describing them as "essentially a fast self-help program."

Under the program, the Indians plan in 10 years to have a sound political and economic foundation capable of defeating communism internally.

The president pointed out that the Indian people are proud of their democracy and want to learn Western sciences but not Western attitudes.

"They want to retain their own customs," he explained.

Caught off Guard

One of the jobs of a campus traffic control officer at Utah State College is to see that cars parked on campus are not molested. The other week, the Utah State Student Life says, he returned to his own car after making two rounds of the parking lots to find his own windshield wipers missing.

40 Give Blood First Day In Army ROTC Drive Here

Forty University students donated blood yesterday in the first day of the blood donation drive program on the campus.

Sgt. Gerald F. Ansley, instructor in military science, said a greater number of students are expected to donate blood today.

The blood drive, sponsored on the campus by the Pershing Rifles of the Army ROTC in conjunction with the American Red Cross, will continue until 2 p. m. today. This program is a part of the activities being extended by local military groups for Veteran's Day.

Persons filling-out pledge cards may make donations until Dec. 31 at the Sedgwick County American Red Cross Headquarters at 321 N. Topeka. After the final donations are made, Pershing Rifles will award a trophy to the social organization having the highest percentage of members who donated blood.

Col. Louis R. Delmonico, professor of military science and tactics, in a last minute plea for blood donors, said "Blood collected here will be distributed by the American Red Cross to local hospitals and military installations in this region as needed, to meet the requirements of the Department of Defense Blood Depot, located at Fort Worth, Texas.

Colonel Delmonico also said that students desiring to donate blood

were being excused from class to do so.

This program is open to the entire student body, faculty, their families and friends.

Alumni Fund Drive Begins

The fifth annual Alumni Fund drive is now underway to raise money for scholarships, maintenance of the Job Placement Bureau, and special departmental gifts.

Donations will be received from former graduates of the University until Nov. 20, according to Beulah Mullen, alumni secretary.

One hundred students who have shown scholastic ability and need have received alumni scholarships to date.

E. K. Edmiston, former president of the Alumni Association, is general chairman of the drive, which is organized in three divisions. The Wichita general division is headed by Mrs. Charles Kinsey, and the advanced gifts division is headed by Robert Tyler. Edmiston is in charge of the out-of-Wichita division.

200 Seats Added For Cage Tilts

The Athletic Policy committee has plans for a new system of seating students which will make 200 additional seats available at basketball games this year.

The extra seats are located on the stage of the Forum. This will bring the number of reserved seats for students to 937.

Jim Mann, reporting to Student Council for the committee, said that students will have to pick up tickets for games on the campus several days prior to the game. Identification cards will be necessary, and students will be able to obtain a maximum of two tickets in order to sit together.

Tickets will be divided so they can be equally distributed for two days. One fourth of the good seats will be released at 8 a. m. the first day, one fourth at 1 p. m. the first day, one fourth at 8 a. m. the second day, and one fourth at 1 p. m. the second day.

Identification cards will also be necessary for admittance to the game, as well as for tickets obtained earlier.

Mann explained that this system will keep non-students out of the student section.

Tulsa Ducats On Sale

Tickets for the Wichita-Tulsa game are on sale now in the Office of Student Services for \$1.02, according to Jeanette Farha, pep-coordinator.

The sale will continue until Friday.

Student ID cards must be presented at the time of purchase and the tickets will be stamped "for students only."

The World This Week

(Compiled from Associated Press Reports)

International

UNITED NATIONS—The Western Powers have decided to invite Russia and India to help plan the first international Scientific Congress on President Eisenhower's Atomic Peace Bank proposal.

WASHINGTON—Secretary of State Dulles told news men this week he does not think the Russians intend to start a war, so long as the west maintains such strength that the Russians can see it would not be in their interests to start a conflict.

Dulles declared the Communists in Indochina have been violating the spirit if not the letter of the Armistice Agreement. He said there appeared to have been considerable evasion of provisions for the Reds to withdraw from Indochina areas outside Northern Vietnam.

LONDON—Prime Minister Churchill has refused a suggestion by a labor member of the British Parliament that he used his influence to get the U. S. and Russia to stop testing atomic and hydrogen weapons.

NEW DELHI—Prime Minister Nehru described his aim for India as development primarily along Socialist lines. Nehru said there is plenty of room for private enterprise in his country, provided the main aim is kept clear.

DUSSELDORF—The West German Government has announced its budget for its fiscal year beginning next April 1. The defense item, translated into American money, amounts to 2 billion, 186 million dollars.

The deputy chairman of West German's space research society says the United States and Russia have begun a race to the moon. He says German researchers believe the first nation to get a space station able to watch all the earth's activities will be master of the globe.

TOKYO—Japanese geiger counters, clicking at a furious rate indicate that the Russians may have tried out another Atomic bomb early this week.

National

WASHINGTON—Two Republican senate leaders criticized the U. S. ambassador in Moscow, Charles Bohlen, for going to a party in the Kremlin Sunday after Red fighters shot down an American plane over northern Japan.

Dulles explained Bohlen had to make a quick decision on whether to attend on the basis of incomplete information, and without the benefit of instructions from Washington.

Senator Knowland says the Russians deliberately shot down the American B-29 in an attempt to make the United States lose face in Asia.

Wichita Chemical Society To Meet Here Tomorrow

Chemists from the Wichita area will convene on the campus tomorrow to celebrate the 25th anniversary of the founding of the Wichita Section of the American Chemical Society.

The society, with 75,000 members, is the largest scientific organization in the world. The Wichita section includes approximately 10 professional chemists within a 50 mile radius.

Nearly 80 professional chemists are expected to attend the all day meeting in the Science Building and the banquet for members and their guests at the Lassen Hotel at 6:30 p. m.

Otto Eisenschiml, president of the Scientific Oil Compounding Company at Chicago will be principal speaker of the evening. His topic will be "Solving a Chemical Murder." He is expected to relate his part in solving a "baffling" murder case by the use of chemistry.

Dr. Worth A. Fletcher, registrar and professor of chemistry; Dr. Lloyd McKinley, head of the chemistry department, and other charter members of the Wichita section of the society, will be honored at the banquet.

W. Mack Barlow, chief chemist of the University of Wichita Foundation for Industrial Research, and president of the society, said, "The day session will consist of numerous lectures by university and professional chemists.

"One of the most outstanding lectures of the day will be by Dr. Norman Hackerman, chairman of the department of chemistry at the University of Texas. He will discuss the most recent developments in the corrosion field."

Chemistry classes and some physics classes will be dismissed to enable students to attend the lectures which begin at 10 a. m.

Corbin Busy Today

Pres. Harry F. Corbin has delivered several speeches since he returned from his round-the-world tour, Oct. 9, but today probably will be one of his busiest speech-making days.

President Corbin is scheduled to deliver the welcoming address at 8 a. m. to the Leadership Conference being held on the campus today. At 9:45 a. m. he is to speak at Wichita High School West on comparative school systems of the countries he visited on his tour.

OPERA SCENES—The University Opera Theater will present three one-act operas next Thursday, Friday, and Saturday nights. Members of the cast of "Marriage of Figaro," one of the outstanding presentations of the Theater last year, are, left to right, Alene Tibbitts, Janice Seward, and Phyllis Danielson. Miss Tibbitts and Miss Seward have roles in the Theater presentations next week.

Opera, Recital, Concert Head Week's Activities

A concert, a studio recital, and an opera presentation have been announced by the University School of Music for the coming week.

November 14, the Wichita Symphony Orchestra will give an all orchestra concert in the East High Auditorium, at 3 p. m. Admission to the concert will be by student ID cards only.

A studio recital, an event free to the public, will be given Nov. 15 at 2 p. m. in the University Auditorium.

The University Opera Theatre presentation, Nov. 18, 19 and 20, will be given in the University Auditorium, at 8:30 p. m. Admission for the opera theatre's production, will be by ticket only.

Included in the opera theatre's production will be Menotti's "The Telephone," Vaughan Williams' "Riders to the Sea," and Martinu's "Comedy on the Bridge." All three operas are each one act in length. Singing in "The Telephone" are Janice Seward as Lucy, and Lloyd Clark as Ben. The comedy, which was once a Broadway hit, has recently been released for nationwide use.

In "Riders to the Sea" by Vaughan Williams, Maribeth Sheltonberger is cast as Maurya, Alene Tibbitts as Kathleen, Betty Binter as Nora, and Eugene Bales as Bartley. It is taken word for word from John Synge's great tragedy.

Law, Draft Examinations To be Given

Examinations for law students and Selective Service tests will be given Feb. 19, and Dec. 9, respectively.

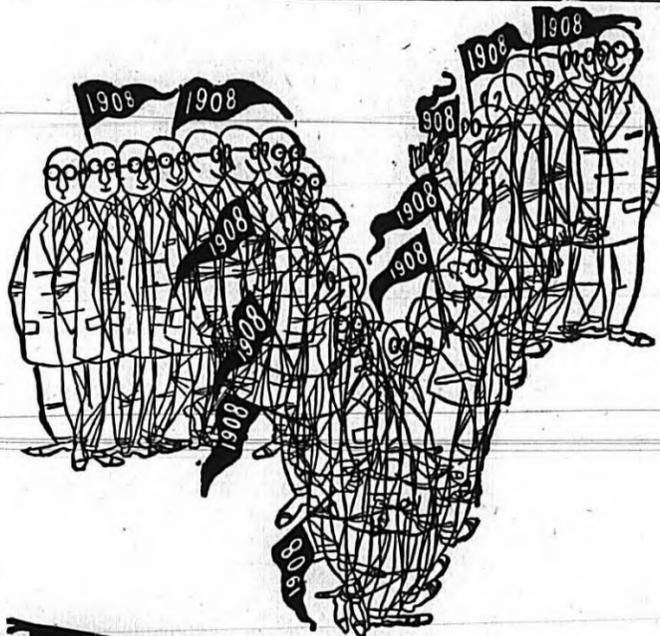

Students who plan to major in law can apply for admission to take the next law test which will be given on Feb. 19, according to Dr. L. Hekhuis, dean of the college of Liberal Arts and Sciences.

Application blanks for the Selective Service College Qualification Test can be obtained in Dean Hekhuis' office, Room 120 Administration Building. The test is scheduled to be given in Room 201, Morrison Library.

Any Selective Service registrant who is a full-time college student is qualified to take the three-hour written examination.

Purpose of the test is to provide evidence for the local draft boards in considering deferment of a registrant from military service as long as the student keeps his grades up to a "C" average or better.

"Comedy on the Bridge," a satirical farce by Martinu, will present Mary Jane Linnebur as Josephine, James Hershberger as Johnny, Edward Rude as the Brewer, Rita Bowen as the Brewer's wife, Lary Kiefer as the schoolmaster, Leonard Van Camp and Marvin Grandstaff as sentries, and Gordon Corwin as Col. Ladinsky.

(Author of "Barefoot Boy With Cheek," etc.)

STUDYING MADE SIMPLE

I have passed my thirty-fifth birthday, and my dewlaps droop and my transmission needs oil. More and more my eyes turn inward, reminiscing, sifting the past, browsing lovingly among my souvenirs, for at my time of life memories are all a man has.

And most precious are the memories of college. It still makes my pulses quicken and my old glands leap to life just to think of it. Ah, I was something then! "Swiftly" my friends used to call me, or "Rakehell" or "Candle-at-both-Ends" or "Devil Take the Hindmost." My phone was ringing all the time. "Come on, Devil-Take-the-Hindmost," a cohort would say, "let's pile into the old convertible and live up a storm. I know a place that serves all-bran after hours."

So it went—night after mad night, kicks upon kicks, sport that wrinkled care derides, laughter holding both his sides. "Come on, "Candle-at-Both-Ends," my companions would plead, "sing us another two hundred verses of *Sweet Violets*."

"No, my companions," I would reply with a gentle but firm smile, "we must turn homeward, for the cock has long since crowed."

"'Twas not the cock," they would answer, laughing merrily.

"'Twas Sam Leghorn doing his imitation of a chicken!"

And, sure enough, 'twas. Crazy, madcap Sam Leghorn. How I miss his gaiety and wit! I never tired of hearing his imitation of a chicken, nor he of giving it. I wonder what's become of him. Last I heard he was working as a weathervane in Tacoma.

Oh, we were a wild and jolly gang in those days. There was Sam Leghorn with his poultry imitations. There was Mazda Watts who always wore a lampshade on her head. There was Freddie Como who stole a dean. There was Cap Queeg who always carried two steel marbles in his hand. There was Emily Hamp who gilded her house mother.

Yes, we were wild and jolly, and the wildest and jolliest was I... But not right away. I blush to admit that in my freshman year I was dull, stodgy, and normal. I finally corrected this loathesome condition, but for a while it was tough and go. And, dear reader—especially dear freshman reader—be warned: it can happen to you.

The makers of Philip Morris have bought this space so I can bring you a message each week. There is no more important message I can give you than the following: College can be beautiful. Don't louse it up with studying.

That was my mistake. At first, cowed by college, I studied so much that I turned into a dreary, blinking creature, subject to dry-mouth and fainting fits. For a year this dismal condition prevailed—but then I learned the real function of college. And what is that? I'll tell you what: to prepare you to face the realities of the world. And what do you need to face the realities of the world? I'll tell you what—poise, that's what you need. And how do you get poise? I'll tell you how: not by keeping your nose in a book, you may be sure!

Relax! Live! Enjoy!... That's how you get poise. Of course you have to study, but be poised about it. Don't be like some clods who spend every single night buried in a book. Not only are they not learning poise; they are also eroding their eyeballs. The truly poised student knows better than to make the whole semester hideous with studying. He knows that the night before the exam is plenty of time to study.

Yes, I've heard that lots of people have condemned cramming. But have you heard who these people are? They are the electric light and power interests, that's who! They want you to sit up late and study every night so you'll use more electricity and enrich their bulging coffers. Don't be a sucker!

Clearly, cramming is the only sensible way to study. But beware! Even cramming can be overdone. Take it easy. On the night before your exam, eat a hearty dinner. Then get a date and go out and eat another hearty dinner. Then go park someplace and light up a Philip Morris. Enjoy the peaceful pleasure it offers. Don't go home until you're good and relaxed.

Once at home, relax. Do not, however, fall asleep. This is too relaxed. To insure wakefulness, choose a chair that is not too comfortable. For example, take a chair with nails pointing up through the seat—or a chair in which somebody is already sitting.

Place several packs of Philip Morris within easy reach. Good mild tobacco helps you to relax, and that's what Philip Morris is—good mild tobacco. But Philip Morris is more than just good mild tobacco; it is also cigarette paper to keep the good mild tobacco from spilling all over the place.

Now you've got the uncomfortable chair and the Philip Morris. Now you need light. Use the lit end of your Philip Morris. Do not enrich the electric power interests.

Read your textbook in a slow, poised manner. Do not underline. It reduces the re-sale value of your book. Always keep your books in prime re-sale condition; you never know when you'll need getaway money.

As you read you will no doubt come across many things you don't understand. But don't panic. Relax. Play some records. Remove a callus. Go out and catch some night crawlers.

Relax. Be poised. Stay loose. And remember—if things really close in, you can always take up teaching.

This column is brought to you by the makers of PHILIP MORRIS who think you would enjoy their cigarette.

© Max Shulman, 1954

Traffic Supervision Needed

The expansion program of the University is underway with the building of the Field House and Fine Arts Building, both of which the school can be proud.

But the construction of these buildings has caused quite a tie up of traffic after football games. Before kickoff there are attendants in the stadium parking lots to see that the cars are parked correctly, but after the game, when they are most needed, they have disappeared.

After each game the traffic tie up is dismaying and without the help of some kind of direction, it is almost impossible for cars to get out of the lots for at least 45 minutes. After the Houston game there were officers directing traffic on Seventeenth Street and at the Hillside intersection but there is also a need after each game for some kind of supervision at the parking lot entrances.

It would be to the University's advantage if it would employ some help after the game, as well as before, to direct the heavy traffic and to prevent damage to parts of the campus where cars run over the lawns in order to leave.

Let's Use the Sidewalks

Cigarette butts, old Sunflowers, candy wrappers and discarded exam papers clutter the buildings here. This is a situation that is not condoned, merely tolerated.

Mud is added to the litter when the weather gets sloppy. The litter of tobacco and papers can be swept up, but mud on the floors, seat-desks and in some cases even on the walls is more difficult to remove.

Sidewalks lead to and from every building on this campus. These were designed for use by pedestrians. University lawns were planted to add to campus beauty. They cannot possibly bear the abuse sidewalks were meant for.

Appeals to let the grass grow have become so numerous in recent years as to lose value. Signs have been placed directly in mud paths worn across University lawns pleading with students to let the grass grow. Why not stay out of the mud and help the custodians keep the buildings clean?

Dean's Notes and Quotes

Man Changes His Environment

EDITOR'S NOTE: This article by Dean Kenneth Razak represents the third in a series written by deans and department heads at the University. No dominant theme will prevail since the authors were asked simply to write upon topics of their own choosing for publication in The Sunflower and to try their hand at writing a newspaper column. The authors were selected because of their experiences in teaching and their acquaintance with human nature.

By PROF. KENNETH RAZAK
Dean of the School of Engineering

The ability of man to change his environment was graphically illustrated recently when I had the opportunity to fly in a private plane over the city of Los Angeles.

Flights were made on two separate days which covered the heavily populated sections of this most widely dispersed city in the world. On both days, visibility and ceiling were severely restricted as a result of fog, smoke, and their combination, smog. Indeed on one flight navigation within the populated areas had to be performed by radio beacon since land marks over one mile away could not be distinguished. The city council of one of these areas has attempted to dramatize the seriousness of the problem by wearing gas masks to meetings.

Smog Results From Industries and Geography
The city of Los Angeles, and its immediate suburbs, cover an area of almost 2000 square miles. The gray smog covered the city to a depth of about 4500 feet. Above this level the sky was brilliantly blue and clear. Even the mountains which rise from the coastal plains were nearly obscured. In such fashion man has contaminated almost 2000 cubic miles of his atmosphere.

The causes of this phenomena are a combination of local geography and human occupation. The Los Angeles plain is surrounded by mountains on three sides and the ocean on the fourth. The ocean breezes are not sufficiently strong to create a movement of the air and any local contamination, therefore, remains in the area.

5,000 Tons Dispersed to Air
The industrial development and increase in population of the Los Angeles area has been phenomenal. Over two million motor vehicles operate daily in the area. Four million people through their outdoor incinerators, contribute to the pollution. Heavy industry completes the picture with a total contamination ranging up to 5000 tons of foreign material and gasses per day.

This situation, resulting from the economic, social, and technical status of the American population, furnishes a most vivid example of the results of unrestrained physical development and poses a severe problem for the technicians and engineers who are being called upon to relieve the situation. It is here that the best abilities in the fields of geography, meteorology, chemistry, sociology, and political science will be required before a solution will be found. No greater example could be found to demonstrate the need for higher education in all fields than this result of modern and complex life.

The Sunflower
Volume LIX November 11, 1954 Number 9

The Sunflower is one of the oldest student publications in the state of Kansas, having been founded in 1898.

Subscription by mail in the United States is \$2.70 per school year. Advertising rates furnished upon request. Address The Sunflower, University of Wichita, Wichita, Kansas, Telephone 62-6221.

Represented by National Advertising Service, Inc., College Publishers Representative, 420 Madison Ave., New York, N. Y., Chicago, Boston, Los Angeles, San Francisco.

Published each Thursday morning during the school year by students in the department of journalism of the University of Wichita except on holidays, during vacations and examination periods. Entered as second class matter, September 24, 1916, at the Post Office at Wichita, Kansas, under the Act of March 2, 1879.

Deans' Ideas Of Education Range in Scope

By ED ANDREPOULOS
Sunflower Managing Editor
While Education Week was one of a survey of the problems of education throughout the nation, to some University students it was only a week when "down cards" were issued.

As to the reasons for receiving a "down card" a student usually seeks justification by using two familiar excuses like—"I flunked because I was always under emotional strain." or "I feel I'm being penalized everytime I take a test."

Some students will attempt to prove to their satisfaction that "grades don't count anyway" by recalling the familiar story of the college failure who later becomes an outstanding figure in the business world.

Such statements by students are in opposition to some theories of education brought up during the course of an interview with Dr. L. Hekhuis, dean of College of Liberal Arts and Sciences, and Dr. Jackson Powell, dean of College of Education.

More 'Downs' Among Fresh
Noting that "down" grades are more prevalent among freshmen, Dean Hekhuis said these are often freshmen who fail to adjust themselves to college life and procedures. Based on common students' complaints, failure to adjustment should be attributed to differences in teaching methods among high school and university level, the dean said.

"In the university level students are expected to expand a lecture by obtaining additional information through research and not merely rehearse it."

Asked about the different kinds of tests that are given in classes, the dean said, any of several types will indicate how much a student is able to express of the material he has mastered in his class. but he added, "I personally agree with the British type of examination, where the student begins his course with an F and he is graded according to the knowledge he acquires from that point on."

Blame May Be in Schools
A slightly different view on the subject of downs was expressed by Dean Powell who said, "I think it is an indication of a job being done poorly by a school when it becomes a matter of hundreds of students receiving failure notices each semester. The school should then renegotiate its contract with those students by reevaluating the services it purports to offer to the society or by a frank exclusion of those it has proved itself unready to serve."

Although, to Dean Powell, the down card has a good intention, to warn, to caution, and to help the student to an early chance to mend his ways, he said he does not think that this intention is accomplished in enough cases.

As to examinations and what they accomplish, the dean said, "Examinations are primarily a measure of knowledge of a fact where instructors intend to develop appreciation of facts and ability to think critically with the facts as their disciplines."

Browsing Time

Library Adds Books

EDITOR'S NOTE: Each week, new books are added to the Harry S. Helms Memorial Browsing room. Before being placed in the browsing room these books are displayed on the table at the north end of the main floor lobby of the Library.

To aid those students who are interested in new books, The Sunflower will publish, each week, announcements about the new books which are added.

"The Road to Mecca" by Asad Muhammad is an account of a journey from the interior of Arabia to Mecca in 1932. But it is also a description of a longer journey of the human spirit in which the author replaces the tenets of Judaism with those of Islam.

"The Benchley Roundup" by Robert Benchley is a selection of Nathaniel Benchley favorites. It was published last year.

"Apple on a Pear Tree" is written by John Burrell. The author, a native of Tennessee, talks about the countryside of his home state. The book contains both humor and pathos.

"Minorities and the American Promise" by Stewart G. Cole and Mildred Wiese Cole, deals with intergroup and interpersonal relations in America.

"If You Marry Outside your Faith" by James Pike. The Dean of the Cathedral of St. John the Divine, New York City, gives valuable counsel on mixed marriages.

Don't Quote Me . . .

By D. L. W.

Some drink it as a bracer and others use it to chase away pastel elephants, snakes and other apparitions sometimes created by other beverages.

Whether it's consumed black or with cream (there's four acceptable tempered ways), coffee is the No. 1 drink on the campus.

The daily brew of the Alibi, which drips between 30 and 36 gallons every school day, added to some 25 gallons perked by the two restaurants adjoining the campus would bring the total daily coffee consumption by University students and faculty to more than 45 gallons.

No other beverage can make that statement. A school year consumption could be figured roughly at 8,000 gallons or enough coffee to cover the Forum basketball court to a depth of nearly a foot. (Some basketball players say they're sure some one slipped something on the floor to warp the boards the way they are.)

But a steaming-hot cup of coffee is more than that. Countless lessons and classes have been bypassed by students for a cup of coffee. But, the mental stimulating power of coffee is amazing. The entire human race and the world have been destroyed and then reborn five minutes later over a cup of "Joe."

Even with the gradual disappearance of the 5 cent cup, coffee can still be called the national drink in America. In France they have a problem in their national drink.

In Marlon Brando's girl friend's home land, Premiere Mendes-France has asked his countrymen to switch from wine to milk in an attempt to speed industrial production.

Apparently they don't like the idea and the Associated Press tells of one "Jacque", who said:

"Some men like blondes, some like brunettes. Some like wine. Some like milk. I like blondes, brunettes and wine."

Library Circulation Increases By 25 Per Cent Over Last Year

"The University Library, officially named Morrison Library from the first president, J. N. Morrison, is being used by greater numbers of students than ever before."

Last year, the circulation of books jumped 25 per cent over the previous year, according to Prof. Downing P. O'Harra, librarian, and this year has shown an increase over that. More than \$30,000 has been spent on books to add to the 115,000 volumes owned by the library.

"In spite of this showing there are still many students who seldom use the wealth of material offered. If one tenth of the student body would appear at the same time in the library, practically every available seat upstairs, down would be occupied," Professor O'Harra said.

The library staff has just completed explaining some of the high points in the use of the library to 36 sections of English 111 students.

For the benefit of those students who want to become better acquainted with the library, there are 200 copies available of a printed pamphlet called "How to use the Library."

"Those students who never get beyond the reserve room, where required readings are housed, are missing a great opportunity," Professor O'Harra added.

Why Exert Yourself

Sleep-learning Is Successful

It's possible to sleep your way through college, according to the Varsity News, the University of Detroit paper.

A. W. Turnbow, a 1954 Nebraska college graduate, boasts that he "slept his way through." This admission stunned professors who once predicted Turnbow's college career would end in failure.

His secret? He had been "sleep-learning."

"I'd read many articles on the theory of sleep-learning," he said, "but none told me how to go about it. So I made my own sleep-learning device and experimented. I was working full time and trying to carry 19 credit hours at college. I was told I was failing, so I figured I couldn't lose anything."

Turnbow first read 2,000 Russian vocabulary words into a machine, then gave the English meaning to each. "Results were so successful that I started reading notes from all my courses into the device."

LITTLE MAN ON CAMPUS by Dick Bibler

Homemaking Economics Courses Offered for the Home Planners

For the coed who is dreaming of her own home in the near future Miss Vivian V. Rockwood, head of Home Economics, has some helpful suggestions.

By taking a course such as home decoration, the coed can get acquainted with the color schemes and latest decorations for the modern home as well as learn the role that color and decoration play in the serenity and stability of family life.

Home decoration is offered to men and women in morning and evening classes and taught by Emily Williams, owner of Creative Ideas Unlimited, a local interior decorating shop.

Home nursing, a very practical course for both men and women, is taught by Mrs. Myrtle Rainey of the American Red Cross. It may prove to be a money saver during the time of family illness as it is a thorough study of home care of the sick. It is offered now and again next fall. There are no prerequisites required.

Color, Harmony Course Offered
For the co-ed who is interested in the application of color, harmony, and dress design, costume design is an excellent course. Another course which is closely related is elementary clothing. Both courses are taught by Miss Van Keuren and offered to men and women alike.

Home management is another practical course that will be taught by Miss Rockwood next semester; however, it is open only to upperclassmen. In this course the serious minded coed will learn the ways of managing her time in order to enjoy the fun of living after homemaking duties are done.

Money management, the stumbling block of many marriages, will also be discussed. In fact, women will find a wealth of ideas that will simplify her future homemaking.

Since we all live in homes and meet the problems of modern living, home economics might be a grand elective field for the coed to consider before enrollment next year, Miss Rockwood said.

Chatter Box

By Bettie Lou Magruder
Sunflower Society Editor

The Navy has come and gone, and by now the coeds affected have regained their equilibrium, or so the professors hope.

Last Friday after the Naval Choir sang here during convo, some of the members of Kappa Rho, Delta Omega, and Sorosis arranged dates for the cadets for Friday and Saturday nights. They toured the city Friday evening on a chartered bus.

At the game Saturday night, the cadets were special guests of WU. They "stopped the show" when they arrived and seated themselves with the Wheaties. All during the second half, the Wheaties' section blossomed forth with about five yellow sweaters and eleven white hats per row.

The departure of the cadets brought strange results at the Delta Omega house Monday evening. Sharon Foster treated her sorority sisters to gum drops to announce her going steady with Dave Payne. Joan Worline and Helen Rizer passed suckers 'round "because we feel left out," they explained jokingly.

Back to more men, which seems to be the up-and-coming campus fad; tomorrow at 5 a. m. member of Wheaties and all interested students will meet at Grace Wilkie Hall and at 5:15, they will go to the Men's Residence Hall to pick up the football team.

They will proceed through town to the airport where a pep rally will be held to send the team off to Cincinnati. Afterwards, Wheaties will sponsor a breakfast at the Delta Omega house for all those wishing to attend.

Maybe it's a woman's world, but this week at least, men seem to be very much involved.

Seven Attend ISA Conclave

Seven University students attended the ISA regional convention at Kansas State Teachers College in Pittsburg, Friday and Saturday.

Friday noon, during a luncheon, Kay Richmeier, a former University student, entertained the group with a vocal solo. Speakers at the convention were Carl Sillwell, National ISA executive secretary, and Konrad Gierl, a German exchange student who spoke on the comparisons of American and German schools.

The states represented at the convention were Wyoming, Montana, Kansas, Colorado, Nebraska, Utah, and Nevada. Missouri, Oklahoma and Iowa were visitors.

It was decided that the site for next year's regional convention will be the University of Wyoming.

DO Pledges To Fete Actives

"Gay Paris" will be the scene of the traditional date night dance given by the pledges of Delta Omega in honor of the actives. The dance will be held at the Delta Omega sorority house Friday from 8 until midnight.

According to Myrna Harper, entertainment chairman, "several pledges will do an authentic Moulin Rouge can-can." The French backdrops will be provided by Brownie Fisk and the decoration committee.

"Cookies and punch will be served," Jackie Renfro, refreshment chairman, said.

Those attending the dance will be Anita Peare, Ray Markley, Pat Warner, Doug Gray, Sallie Talbot, Harvey Fankhouser, Helen Rizer, Forrest Wills.

Nancy Hanks, Bob Meeker, Myrna Harper, Larry Bensch, Arlene Workman, Bill Dando, Delores Phillips, Gene Richardson, Marilyn Siefkes, Mark Welch, Cathy Burright, Don Mertz.

Susan Hartmetz, Dave Henderson, Marilyn Koop, Mike McCune, Jerry Ostertag, Dan Orr, Jackie Renfro, Iryl Gernan, Carolyn Cole, Alan Munro, Marilyn Baker, Dick Monical, Martha Reagan and Corky Hummon.

Dikeman, Booth To Wed in Dec.

Mr. and Mrs. Cecil Booth announce the engagement of their daughter, Marcille, to Robert L. Dikeman, son of Mr. and Mrs. Birl Dikeman. The wedding will be an event of Dec. 19.

Both Miss Booth and Dikeman are graduates of Wichita High School East. Miss Booth attended the University, and was affiliated with Sorosis sorority. Dikeman is affiliated with Men of Webster.

Grubb-Lago Wedding Announcement Made

Announcement is made of the marriage of Susan Paulette, daughter of Mr. and Mrs. Paul Lago, and Roderic R. Grubb, son of Mr. and Mrs. Roderic Grubb. The wedding was an event of August in Liberty, Mo.

Both Mr. and Mrs. Grubb are graduates of Wichita High School East. Grubb is a member of Upsilon Sigma.

WHAT'S THIS?

For solution see paragraph below. Doodle submitted by Michael Gross, C.C.N.Y.

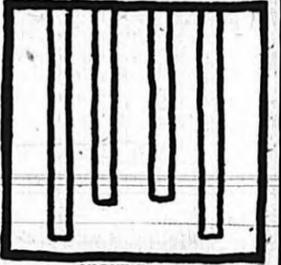

COLLEGE SMOKERS PREFER Luckies—and by a wide margin—according to the largest and latest coast-to-coast college survey. Once again, the No. 1 reason: Luckies taste better. They taste better because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. The pleasure you'll get from Luckies' better taste is vividly depicted in the Doodle above, titled: Modern artist enjoying Lucky while glancing in mirror. See the ecstatic smile? Well, you, too, can be happy. Just go Lucky!

Websters Go Dogpatch Style

Dogpatch style will be the order of the evening when the Men of Webster entertain their dates at the fraternity house Saturday, from 8 p. m. until midnight.

A "marrying booth" will be set up on the front porch, and other entertainment will include cards and dancing in the basement, according to Ben Grisamore, social chairman. Refreshments will be served.

More Webster news—the Christmas dance is tentatively set for December 17. The fraternity celebrated its Founder's Day with a celebration at the Polar Bear last Sunday evening. A film of the University, and Oklahoma A and M game of last year was shown, with Sherril Compton narrating. Seventy-actives, pledges and alumni attended.

New curtains for the kitchen and drapes for the library furnished by the mother's club recently were hung at the Webster house. Members of the fraternity painted the library a cocoa brown. Other improvements furnished will be new cabinets, dressers and closets in the upstairs dormitory, and will be completed soon.

Crowdus-Roberts

Rites to be Jan. 19

Mr. and Mrs. William W. Crowdus announce the engagement of their daughter, Jeannine Marie, to John Craig Roberts, of Newton, Kansas. The wedding will be an event of Jan. 19 at 8 p.m. at the West Side Presbyterian Church. Dr. J. W. Teener will officiate.

Miss Crowdus is a senior and a member of Sorosis sorority. Roberts has served four years in the United States Navy and is now attending the University.

they are the latest style. However, this does have something to do with it."

The coeds agree that there are certain places to wear them. They consider it alright to wear them to the sorority house, gab fests, and even to school, but definitely think that the fad is out of place in church and on a date.

KISSIN' IS POPULAR—Cleo Rucker, Fine Arts junior, seems undaunted by Fine Arts sophomores Lyndal Bales, Karlene Doepke, and Diana Herbert fighting over his manly charms at the Risque Fiske Fair, Friday night. Mu Phi Epsilon, national music sorority, sponsors the fair annually to raise money for a scholarship awarded each year to a freshman woman music student.

Bermuda Shorts, Knee Socks Become Winter Attire for Coeds

By PHYLLIS BROWN
Assistant Society Editor

The wearing of shorts in winter time is being done, and on this campus, too. Many coeds have been seen wearing Bermuda shorts and knee-length socks.

Dick Bixler, sophomore in engineering, said, "I'm not impressed in the least by the knee-length socks," and John Prosser considers them "atrocious and evil."

However, Paul Hampel, senior Accounting major, remarked, "Knee-length socks are the most sensible fad the females on this campus have worn in a long time. They probably keep their legs

from freezing."

Jeanine Joseph, junior in Education, admits that she wears them because they keep her legs warm. Despite the men's dislikes, Barbara Frost, junior in Education said, "I'm glad the Bermuda shorts and knee-length socks are popular because I like to wear them and they are comfortable and practical. I don't wear them just because

Shocks 'Underdogs' at Cincinnati

'Cats Share College Grid Win Streak

By DARYLE KLASSEN
Sunflower Sports Staff
The "Cinderella" Shockers of Wichita University will find themselves a decided underdog when they tangle with the powerful Cincinnati University Bearcats Saturday afternoon in Cincinnati, Ohio.

According to chief scout Dick Monroe, of the Wichita coaching staff, the Bearcats will be the "toughest game we'll play all year."

The Bearcats are sporting a 16 game winning streak, and represent one of the few remaining undefeated major college football teams in the country.

"Cincinnati isn't the best offensive team we will face this year," added Monroe, "but their defensive and offensive abilities combined, make them a powerful team."

Ranked in Top 10
The Bearcats have been ranked by the nation's sportswriters as being one of the ten best teams in the country.

Cincinnati's Bearcats have been referred to by many "grapevine" experts, as the logical team to compete in the Gator Bowl in Jacksonville, Fla., on New Year's day. With this thought in mind, the Bearcats will be attempting to keep their perfect season's record intact.

However, there are some bright spots in the Wheatshocker picture. Regular guard Ben Kubes will be ready for action after sitting out the North Dakota game, and the squad's heaviest man, tackle Vere Wellman might see limited action. Wichita's all-American candidate, scrappy Ralph Denton will return to full time duty after nursing a bruised shoulder the past two weeks. Soph fullback Leroy Hinman seems to be fully recovered from his injured shoulder also.

Starters Rested
Wichita's first string unit should be well rested after seeing only limited action against North Dakota last week.

Wichita starters will find Connie Hoffmans calling the shots at quarterback, Jim Sippy and Jim Klisanin at the halfback slots, and Leroy Hinman at fullback.

The Shocker forward wall will be braced by ends Neil Sikes and Willis Towne, tackles Darrell Hill and Kent Thomas, guards Ralph Denton and Ben Kubes, and center Jack O'Toole.

According to scout Dick Monroe, the Bearcat team will "just slightly" outweigh Wichita's. Monroe pointed out that Cincinnati quarterback Mike Murphy "does everything well." Kickoff time is 2 o'clock, Cincinnati time, and 1 o'clock Wichita time.

Coach Miller Holds Clinic

Basketball Coach Ralph Miller will hold a one-day cage clinic on the University campus Saturday, Nov. 20.

Shocker cagers will play an inter-squad game and there will be a "question and answer session" conducted by Miller.

A large gathering is expected to attend the clinic and enrollments by mail are being accepted now. There will be no charge for the clinic.

Intramural Entry Deadline Monday

Entries for the intramural cross country race and volleyball teams must be in by next Monday at 2 p. m., according to Truman Shinn, student intramurals manager.

Volleyball play will continue through this month and finals will be held in early December. The three mile cross country race will be held Wednesday, and will start at old Shocker Stadium.

BRANNEN HAS FIELD DAY—Halfback Frank Brannen is shown skirting end on one of his long runs with opposition thrown up by two Bison defenders.

Brannen 'Player of Week'

Frank Brannen, unheralded in pre-season talk, continued his amazing surge into the top ranks of Shocker ball players last weekend when he led the Shocker assault against North Dakota State with four touchdowns in the 59-0 massacre.

The 168 pound halfback received the Wichita Eagle 'Player of the Week' nomination for his sharp display of running against the Bison squad.

He not only accounted for four TD's, but he compiled a 22 yard average per carry while he was in the ball game.

His scoring tallies were on runs of 67, 26, 24, and one yard jaunts.

The speedy back has now carried the ball 26 times and picked up 254 yards to give him a season's average of 9.12 yards per carry, tops on the squad.

His scoring rampage also put him in a tie with teammate Jim Sippy for the scoring lead on the squad. Each has scored 36 points.

1931 — revolutionary Boeing B-9

1954 — Boeing 8-jet B-52, America's outstanding heavy jet bomber

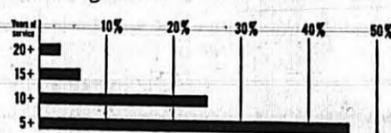

Leadership is a long-time tradition at Boeing

In 1931, Boeing engineers designed the B-9, a revolutionary low-wing bomber that could outdistance any contemporary pursuit plane.

Today, they've produced the free world's outstanding heavy jet bomber, the B-52, and America's first jet transport. Boeing also builds the record-breaking B-47 medium jet bomber, conducts a major guided missile program, and research in nuclear power for aircraft.

These growing programs mean expanding opportunities at Boeing for engineers of virtually EVERY type, including mechanical, civil, electrical

and aeronautical. It also means plenty of room for advancement. Boeing, which now employs more engineers than even at the peak of World War II, promotes from within, and holds regular merit reviews to give you individual recognition.

As the chart shows, 46% of Boeing's engineers have been here for five years or more; 25% for 10 years; and 6% for 15 years, and many have been

with the company 25 years or longer.

Boeing offers engineers an unusual variety of experience, from applied research to production design, from work with new materials and techniques to co-ordination of a vast subcontracting program which provides contacts with a cross-section of U. S. industry.

Boeing also helps engineers continue their graduate studies, and reimburses them for tuition expenses.

For further Boeing career information, consult your Placement Office, or write:

What's The Score?

By Mike Anderson
Sunflower Sports Editor

The "toughest" game in Jack Mitchell's two year tenure at Wichita U. will probably come up Saturday at Cincinnati when the once-beaten Shocks match muscles with an undefeated and untied Bearcat squad.

In fact, Cincinnati, along with Oklahoma University, is sporting the longest winning streak of any major college team: 15 games.

Cincinnati is currently enjoying an 8-0 mark this year and piloting the tough Bearcats is Sid Gillman who has built quite an impressive record since taking over the head coaching spot. Gillman's tenets have won 49 games while losing only 11 and last year led the nation in both offense and defense which will give Shocker followers an inkling of the kind of team W.U. will go up against this weekend.

Gillman has molded a fast moving, hard charging line to lead one of the finest array of backs in the midlands. Quarterbacking the 'Cats is Mike Murphy, one of the best in the midwest, with Dick Goist, Joe Miller and Jim Niemann as his running mates.

The Shockers will have to go without the aid of a partisan cheering section which has helped a lot in aiding them to reach their peak against Houston and the Oklahoma Aggies.

One thing in the favor of Wichita is that Cincinnati, with one eye on a "Gator Bowl" bid and the other on an undefeated schedule, may let up just a little and if they do, watch the Shocks roll.

But even if we do take an optimistic attitude due to the tremendous coaching and the zip and fire of the Shocker squad, Cincinnati cannot be overlooked as a top choice betting favorite. They beat Detroit by a 21-13 in the mud in the season's opener which the Titan coach, Wally Fromhart admits was lucky for the Titans to stay that close. Last week, the Bearcats overpowered Arizona State College, 34-7.

If Wichita is going to squeak this one out, the passing attack will have to be sharp. Quarterbacks Jack Conway and Connie Hoffmans will have to fill the air with tosses and get the Bearcats in a hole early in the game. That, in our opinion, is the only way the Shockers will be able to win this one.

Over in Henrion Gym, Cage Mentor Ralph Miller continues to send his basketballers through a rough training schedule in preparation for the opener.

Miller is in a position which most coaches would like. He has men, two and sometimes three deep in some positions and picking a starting lineup will be somewhat of a chore.

He will have seniors Cleo Littleton, Jim Mc Nerney, Merv Carman, Verlyn Anderson, Tippy Tucker, and Don Laketa, who graduates mid-term. Anchor these with fine sophs of last year—Jim Strathe, Leo Carney, Bob Hodgson, Rod Grubb—plus this year's sophs Herb Coin, Gaylen Rodgers, Gary Mann, Dave Hicks, and one can readily see that Miller will have a "pretty fair" ball club.

It's too early to venture any predictions as to how far the Shocker cagers will go but we can quickly say that it will take a very good team to beat them.

TOP PASS RECEIVER—Sophomore halfback Jim Klisanin who leads the Missouri valley in pass receiving, also rates as the Shocker number two ball carrier with an 8.82 yard average and 348 total yards gained. Klisanin has caught 7 passes for 167 yards.

Valley Race Still Warm

The Missouri Valley Conference express is nearing the end of the line, but the stopping stations will not be reached until the last of November, when Valley squads swing into action against each other with the hope of unseating the flashy young Shockers, who are perched at the top of the league standings.

There will be no Valley games this week, but tough sledding is expected for Wichita, Houston, and Tulsa, who play Cincinnati, Mississippi, and Texas Tech, respectively.

From this lineup it looks bad for valley teams with dopesters rating all of them underdogs.

Detroit, who has no game this week-end, preps for their league tilt with the Shockers Nov. 20. Detroit follows with a loop clash at Houston Dec. 4.

Conference and All Game Standings

Officials to Select Mural All-star Team

With the season's football play finished in the intramural league, an all-star team will be picked by officials of the contests and The Sunflower sports staff.

Next week the results of the all-star selection will be published.

Intramural team managers who wish to nominate a squad player for an all-star berth can do so by contacting Don Taylor or Daryle Klassen on the Sunflower Sports staff.

Booze Hounds Capture Intramural Grid Title

The woozy Boozeers captured the intramural football crown last Thursday as they downed the Webster Golds 45-7.

The Webster Gold team garnered second place and the Air Force ROTC squad took third with a victory over Webster Maroons 25-18. The Maroons took fourth in the play-offs.

Members of the winning Boozeers are John Crum, Gary Johnson, Dan Baily, Gene Smith, Jim Hervey, and Floyd Farmer. One of the slickest passing and receiving combinations seen on the intramural grid field in past years was the combo Farmer to Hervey. Farmer, an East High star two years ago, also threw to Gene Smith for several gains and scores.

The Air Force ROTC squad boasted several ex-varsity players in Dave Bowersock, Bob Kaufman, Dan Zollars, and Jerrill Nowlin.

The squad was tripped in their first game of the year by the

'Beer Keg Battle'

Pit 'T' Against Single Wing

It will be a single wing against a T-formation next Tuesday night as Alpha Gamma Gamma and Men of Webster fraternities clash for their annual "Beer Keg Game."

To the winner will go a beer keg some 25 years old and probably a few bruises.

The hard-fought tilt, originating from a sandlot game between the two frats back in 1929, will be played in old Shocker Stadium at 8 p. m.

Back again to guide the Alpha Gams is Pat Larimer, former University varsity player, with Dale Greenlee assisting.

Making up the Webster coaching staff are Connie Hoffmans, senior varsity quarterback, Gil Tattman, Shocker lineman, and Gene Wells, another former Shocker varsity man.

Ahead in the series with a record of 12 wins against nine losses and four ties, the Webster squad will be running from a T in opposition to a Gamma single-wing attack.

The varnished keg, kept as a trophy for a year by the winning team, has been in possession of

the Websters since 1951 when the Gammas went down to a 12 to 0 defeat.

No admission will be charged.

Language Study Value Cited

Compiling opinions of prominent Kansans concerning the importance of language study in schools of the United States, was the purpose of the Modern Language Roundtable of the Kansas State Teachers Association held last week in Topeka.

Dr. Eugene Savaiano, head of the Spanish department, and three foreign students attended the meeting.

Language Recommended

Dr. Savaiano, until recently president of the Kansas Modern Language Association, received personal letters from 17 prominent Kansans. Among them were Mrs. Olive Ann Beech, president of the Beech Aircraft Corporation of Wichita, and Karl Menninger of the Menninger Clinic of Topeka.

In summarizing the contents of the letters Dr. Savaiano indicated that 11 out of 17 Kansans recommended that foreign language be studied for their value to government agencies who need linguistically trained people if the U. S. is to maintain its role as leader among the nations of the world.

The value of foreign languages in the development of culture understanding among people of different lands was cited. Five let-

ters pointed out the chances for advancement for a trained linguist in firms who import or export trade was better. Four mentioned language study as a mental discipline and as an aid in the understanding of our English language.

Elementary Study

At least one foreign language should be required of all high school and college students was recommended by nine of the 17 Kansans and five thought that foreign language study should begin in the elementary school.

The three foreign students attending the annual meeting of the Modern Language Roundtable were Spyros Andreopoulos, Arman Seri, and Cho Chin Hyang.

Student Directories will be for sale in the Commons Building the remainder of this week. Price is 35c.

Dave Wilkinson, Liberal Arts senior in charge of the directories, said they can be purchased in the Public Relations office, bookstore, Alibi, or Canteen after this week.

Job Opportunities

Senior men interested in a career in sales work will have an opportunity to talk to a representative of Proctor and Gamble Distributing Company from 9 a. m. until 3 p. m. Tuesday.

Appointments may be made in the Student Services office, Room 105 Administration, according to Mrs. Merredith Graham of Student Services Office.

General meeting of YWCA will be at 7:30 p. m., Tuesday, at the

Delta Omega Sorority house. Information will be given on World University Service, which will receive benefits from the Cowboy Carnival. A panel discussion will feature international students.

International Relations Club will meet today at 7:30 p. m. in the Faculty Dining Room. Dr. Arthur Wichmann, head of the department of economics and Dr. Vergil Shipley, professor of political science, will discuss "American Foreign

Policy under a Democratic Congress." Parnassus pictures will be taken.

Zoology Seminar

A science seminar will be held at 4 p. m., Wed., in Room 204, Science Building. Dr. Clair A. Hanum, associate professor of zoology, will speak on "A Skin Game That's Legal," and Vincent Smith, graduate student will speak to the group.

Ugly Man Mike Murphy

Murphy Voted As Ugly Man

Mike Murphy, Phi Upsilon Sigma, was voted the ugliest man on the University campus this year, with 7,663 votes.

Students voted by contributing a penny per vote. The money was donated to the Community Chest.

Total contributions for the contest amounted to \$184.63, according to Dean Hanshew, president of Alpha Phi Omega, national service fraternity, which sponsored the contest.

Murphy received a key and a beer mug which will be in the possession of his fraternity until next year. Jim Farha, Alpha Gamma Gamma was last year's ugly man on the campus.

Other candidates in this year's contest were Denny Jones, Alpha Gamma Gamma; Edward Boghosian, Men's Resident Hall; Gary Fulks, Pi Alpha Pi; Don Webb, Men of Webster; and Frank Macheers, Independent Students' Association.
