

## Army Cadets to Pick Coed Honorary Colonel

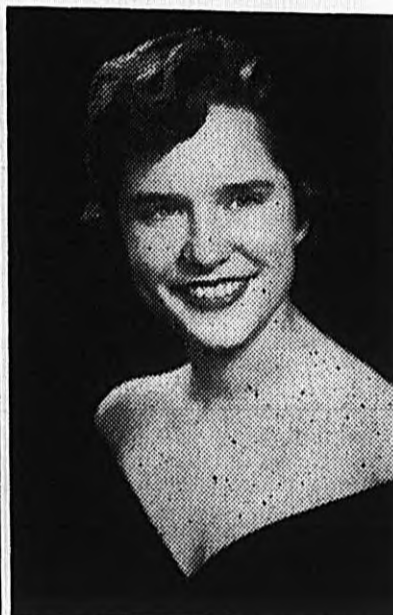

Donna Gooden

Annette Lemart

Barbara Tucker

Sandra Kirchoff

ONE OF FOUR COEDS pictured above will be named Honorary Cadet Colonel of the Army ROTC April 1, at the annual Military Ball. The Ball will be held at the Trig Ballroom with Les Elgart's orchestra as the featured attraction. The three runners up will be Company Sweethearts for the cadet corps. Candidates are, Sandra Kirchoff, Annette Lemart, Barbara Tucker and Donna Gooden. Photos of Air Force ROTC Honorary Colonel candidates will appear in the Sunflower Tuesday.

## Class Lists For Summer Available Now

In order to reduce University costs, summer school schedules will have to be purchased by students at the University bookstore.

According to Dr. Worth Flecher, registrar, summer school schedules are now available at the University bookstore at 10 cents a copy.

Pre-registration for the 10 weeks session and the six weeks session will begin April 29 and will end May 17. Registration for these sessions will be June 10 with classes beginning June 11 and ending July 19.

Pre-registration for the four weeks session will start on July 15 and end July 19. Registration will be July 20 with classes beginning July 22 and ending Aug. 16.

Approximately 278 courses will be offered in this summer's school program.

## Band to Perform On 'Music Time'

The University of Wichita Concert Band, under the direction of James Kerr, band director, will appear on KARD-TV in the production, "Music Time," tomorrow at 6 p.m.

"Music Time," a University television event, features organizations and groups in the School of Music.

The band will play Ralph Hermann's "Ballet for Young Americans," Giromalo Frescobaldi's "Tocatta," Ole Bull's "Saterjensens Sontag," with multiple flute solo, and Clifton Williams' "Fanfare and Allegro."

## New Quarters Step Up Psych Experiments Here

New quarters in the old band building, east of Jardine Hall, have brought about a stepped-up experimental program for the psychology department.

Moving into the new laboratory quarters last October, the department has "been able to increase the scope of experiments tremendously," Dr. David Herman, associate professor of psychology, commented.

**With Modernistic Touch**  
Contemporary furnishings and brightly painted walls lend a modernistic touch to the interior of the building. Outfitting of the laboratories was financed in part by the National Science Foundation, Dr. Herman said.

Lab facilities are divided into three areas and are under the direction of Dr. George Rice and Dr. Grant Kenyon, assistant professors of psychology, and Dr. Herman.

Discussions on the progress of animal experiments are held in a seminar room.

There are also animal quarters, housing white rats and guinea pigs and an experimental lab containing

a maze and centrifuge for animal tests. Temperature in the animal quarters is thermostatically controlled.

**Equipment Being Installed**  
The perception lab occupies the west end of the building. Test equipment is now being installed in the room and few experiments have yet been conducted.

A large assembly room, in which group tests are conducted is situated in the center of the building. Eight soundproof cubicles border the assembly room. One-way vision glass in the doors of these rooms permits observation during individual testing.

"There is a vital need for trained research workers in psychology to aid in combatting mental illness," Dr. Herman emphasized, "and we feel certain our expanded program will assist in recruitment."

## Tourtillott, Stout Take Lead Roles In 'At War with Army' Production

Cast for "At War With the Army," the University Players' final production of the season, was filled last week at tryouts for the three-act comedy.

A recent Broadway production, it will be the first play to be staged "in the round" on the University campus. It will be presented in Henrion Gymnasium, April 25 through 27, at 8:30 p.m.

The play concerns the romantic entanglement of Millie, a naive girl portrayed by Sherry Tourtillott, Liberal Arts freshman, and Sergeant Johnson, played by Bob Stout, Liberal Arts freshman.

Other students cast in the comedy are: Norman Lofland, Charles Williams, and Jim Manely, Liberal Arts seniors; Terry Gladfelder, Fred Dungan, Marc McLean, Gary

Bethel, Mike Russell, Ken Warwick, and Charles Slaby, Liberal Arts juniors; Marilyn Weimeyer, Liberal Arts sophomore, and Judy Vail, Education senior.  
Prbf. Clair Hannum, of the zoology department, is also cast in the play.  
The director said that all the speaking parts contribute equally to the gaiety of the comedy.

## First Hippodrome Plans Given Green Light by SC

The Student Council, Monday night, voted to continue Hippodrome plans as originally scheduled, and to adopt recommendations made by the Pep Committee for the improvement of the pep program for next year.

The Council decided that Greek organizations and pre-organizations desiring to enter Hippodrome for competition may do so. If others desired to com-

**All Frats to Enter**

Sorosis is the only sorority on the campus that has decided to enter the traditional May celebration this year. All four campus fraternities will enter.

One prominent reason given by sorority spokesmen was that their groups were preparing for the possibility of national social organization representatives visiting the campus. They said they did not feel they had the time to enter the presentation.

Concerning the pep program, the Council accepted the recommendations which had been made by the pep committee, headed by Nick Wilson.

**New Pep Plan Accepted**

Among the changes will be an entirely new membership on the Pep Council. Greek organizations, which were previously allowed two representatives each, will only be indirectly represented on the new Pep Council.

The new plan calls for the following membership: pep coordinator, assistant coordinator, secretary, treasurer, plus the head cheerleader, one other cheerleader, the Wheaties president, one other Wheaties member, the president of the proposed men's pep group and one other member, the director of the pep band and one band member, and a representative from the Downtown Quarterbacks.

The coordinator or the assistant coordinator shall have had at least a year's experience in Pep Council or one of the groups represented on the council.

**Positions to Be Filled**

Any student with a 2.0 grade average may petition the Pep Council for the office of pep coordinator, secretary, or treasurer. The Pep Council will then select a secretary and treasurer from the petitions. They shall also select two or three qualified people for the position of Coordinator from the petitioners. The Pep Council's choices for Coordinator will be submitted to the Student Council who will vote on the final choice.

The assistant coordinator will be named by the Coordinator. All officers are scheduled for one year service and may be reelected.

The Student Council also accepted the plan for the membership and structure of the proposed men's pep club and the Wheaties, women's pep group.

According to the plan, they will both have open membership, and will be given a large block of seats for the athletic events.

The pep trophy and the point system involved in determining the winner of the trophy, Council members decided, would be left up to the Pep Council.

**Cheerleader Plan Delayed**

The proposed plan for the election of cheerleaders was referred back to the committee and will be presented to the Student Council at a later time.

Janet Noel, council president, announced that not all of the reports from the University evaluation committees has been completed and she asked that the reports be turned in this week.

Miss Noel also announced that the business offices which have previously been closed at noon were now open until a later hour. The action followed a recommendation made by Student Council, she said.

## Band Invited To Play At National Meet

The University of Wichita concert band was selected by the officers and board members of the Kansas Music Educators to represent Kansas at the Southwest District of Music Educators National Conference to be held in Denver next week.

The 110-piece band will leave Wichita at 8 a.m., Sunday, in three buses. The University band will be the only Kansas college band invited to the Conference.

The convention includes representatives from Kansas, Colorado, Oklahoma, Texas, New Mexico, Missouri, and Arkansas. The University band will present nine selections in a concert Monday evening at the Cosmopolitan Hotel.

Besides James Kerr, director of the band, two other instructors of Music Education and their wives will accompany the band on the trip. They are Mr. and Mrs. Vance Jennings, and Mr. and Mrs. Robert Van Nuys. Professor Kerr's wife will also accompany the group.

The woodwind quintet, directed by Mr. Jennings and made up of members of the band, will perform at another concert earlier in the afternoon.

## Counselor Of Dorm Named

Frank Entwisle, student services counselor, took over duties of head counselor at the Men's Residence Hall, Wednesday, replacing William Glenn.

Mr. Glenn, director of student loans, relinquished the position because of additional duties in the student services office.

Appointed by Dr. James K. Sours, dean of men, Mr. Entwisle will assist members of the residence hall in developing a new program and in the counseling of personal, vocational, and educational problems.

A breakfast was held in his honor Wednesday by the members of the dormitory council.

Mr. Entwisle has served as head resident at Miami University, Oxford, Ohio.

# Editorial

## Talent vs. Personality

Student Council's recent change in the queen election code did much to advance the status of queens on the campus.

Now, however, the Council is considering a change in the cheerleader elections which might well be a setback. The program calls for the popular election of cheerleaders by the student body.

Such a system would turn the cheerleading contest into a popularity election.

This year, cheerleaders were chosen by an impartial board of businessmen and women on the basis of the candidates' abilities. Now, students who are backing an all-school election for cheerleaders are saying that since the students had no voice in the selection, they won't follow the cheerleaders at athletic events.

What a fine rationalization for the absence of school spirit and enthusiasm. This reasoning is almost as sound as having a student say, "Since I don't like my instructors, I won't study."

Seemingly mature college students shouldn't be so hasty in their thinking. It should be realized that if a popular election is held, it probably would deteriorate into a popularity contest, rather than a contest of cheerleading abilities.

Under the present system, it was necessary for candidates to show they had some ability. The proposed system would make it necessary for students interested in cheerleading to rely on their popularity and the backing of social coalitions.

The proposed cheerleader election needs more thought behind it and should incorporate the idea that a cheerleader's abilities and qualifications are more important than popularity.

## WU Library Faces Two Problems: Crowded Conditions, Missing Books

Morrison Library, principal intellectual focal point on the campus, is facing a number of major problems, it was revealed recently in a report to the University Council by Prof. Downing P. O'Harra, head librarian.

The problems deal with the physical facilities of the Library in terms of the rapid increase in University student and faculty population and with the significant loss of valuable books and reference volumes.

**Expansion Problem Acute**  
Although the problem of physical facilities is acute at the moment, plans are underway to alleviate the situation. Attention to the matter of expansion of library facilities is high on the agenda of the University Development Board. In addition, an increase in the Library budget by about 50 per cent is fore-

seen for the next fiscal year. Crowded conditions have resulted in consideration of an annex to the Library which would more than double the present facilities. Preliminary plans call for the new annex to be constructed east of the Library and to be of modern design.

The new structure, in addition to enlarging the total space, will allow a change to be made in the Library's organization and opera-

tion. Books will be arranged in "open reading areas" by subject matter with study facilities nearby. The present main desk and storage stacks will be retained to contain government documents and bound periodicals.

**Will Not Be Neglected**  
"The Library is not and will not become a neglected stepchild of the University," Professor O'Harra said. "We are trying to keep up (Continued on Page 5)

The Sunflower

Vol. LXI March 22, 1957 No. 42

Published each Tuesday and Friday morning during the school year by students in the department of Journalism of the University of Wichita except holidays, during vacations and examination periods. Entered as second class matter, September 24, 1916, at the Post Office in Wichita, Kansas, under the act of March 2, 1879.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

### NOW YOU CAN BE YOUNGER THAN SHE IS!

It's a scientific fact that girls reach emotional maturity earlier than boys. For this reason freshman girls decline to make romantic alliances with freshman boys.

Thus, the freshman boys are left dateless, and many's the night the entire freshman dorm sobs itself to sleep. An equally damp situation exists among upper-class girls. With upperclassmen being snapped up by freshman girls, the poor upper-class girls are reduced to dreary, manless evenings of Scrabble and home permanents.

There is a solution for this morbid situation — a very simple solution. Why don't the two great have-not groups find solace with one another?

True, there is something of an age differential, but that need not matter. Take the case of Albert Payson Sigafos and Eustacia Vye.

Albert Payson, a freshman in sand and gravel at Vanderbilt University, was walking across campus one day, weeping softly in his loneliness. Blinded by tears, he stumbled upon the supine form of Eustacia Vye, a senior in wicker and raffia, who was collapsed in a wretched heap on the turf.

"We could get a third and play some one-o-cat."

"Why don't you watch where you're going, you squirt?" said Eustacia peevishly.

"I'm sorry, lady," said Albert Payson and started to move on. But suddenly he stopped, struck by an inspiration. "Lady," he said, "you're miserable because you can't get a date. So am I. So why don't we date each other?"

"Surely you jest!" cried Eustacia, looking with scorn upon his youthful head and body.

"Oh, I know I'm younger than you are," said Albert Payson, "but that doesn't mean we can't find many splendid things to do together."

"Like what?" asked Eustacia.

"Well," said Albert Payson, "we could get a third and play some one-o-cat."

"Bah!" said Eustacia, grinding her teeth.

"All right then," said Albert Payson, "we could go down to the pond and skip some stones and maybe catch a few frogs."

"Ugh!" said Eustacia, shuddering her entire length.

"How about some run-sheep-run?" he suggested.

"You are callow, green, and immature," said Eustacia, "and I will thank you to absent yourself at once!"

Sighing, Albert Payson lit a cigarette and started away.

"Stay!" cried Eustacia.

"Was that," she asked, "a Philip Morris you just lit?"

"What else?" said Albert Payson.

"Then you are not immature!" she cried, clasping him to her clavicle. "For to smoke Philip Morris is the very essence of wisdom, incontrovertible proof that you know rich, natural pleasure from pale, poor substitutes! Albert Payson, I am yours!"

And today they are married and run one of the biggest wicker and raffia establishments in Blue Earth, Minnesota.

© Max Shulman, 1957

Freshman, sophomore, junior, senior — rich man, poor man, beggar man, thief — you'll enjoy natural Philip Morris, long size and regular, made by the sponsors of this column.

# ENGINEERS

FIND  
OUT  
WHY

IN ENGINEERING THE BEST OPPORTUNITIES ARE IN AVIATION. IN AVIATION THE BEST OPPORTUNITIES ARE AT TEMCO.

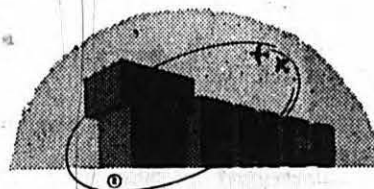

In a few days an engineering representative will be on campus to tell the Temco story of outstanding opportunity for young engineers.

It's an exciting story of a vigorous, growing aircraft company that offers qualified graduates an immediate chance to grow with it. Temco is old enough to offer you stability and prestige, young enough so that you can match its dynamic growth stride for stride.

Located in three Texas communities, Temco's opportunities for finest working and living conditions should be outlined to every engineering student. This is your cordial invitation to learn Temco's story personally.

## Artist Uses Welder's Torch To Create 'Modern' Statue

Mallet and chisel have been cast aside in favor of the welding torch in the work of William Loy, graduate teaching fellow in art.

Included in the art department's exhibit in the foyer of the Fine Arts Center are Loy's welded steel forms, "Oft, the Unwanted Grows" and "Chaos Equals Society."

**Shows Confusion**  
Commenting on his works in the campus display, the artist said that "Chaos Equals Society" shows the confusion that exists even in an ordered society. The piece suggests figures struggling or fighting.

**Illustrates Trend**  
Typical of the trend in contemporary sculpture to work in new materials, the pieces are formed from steel rods.

"Steel rods are shaped to appear similar to drawings and then fused with the welding torch," Loy said in reference to his technique.

After bending the rods to shape the outline, additional rods are used to thicken the sculpture.

"Oft, the Unwanted Grows" with its weed-like form illustrates the existence of something unwanted.

## Geologists Plan Trip

Geology Club members have made plans for a field trip to northwest Arkansas in April.

The group, which will consist of geology students, plans to leave Wichita by auto Thursday morning, April 18, and travel to Fayetteville, Ark. During the afternoon they will observe rock formations in the Fayetteville area and camp out the first night.

The second day the group will travel to Fort Smith, Ark., to study a sand quarry and camp that night at Magazine, Ark.

Next, while journeying to Hot Springs, the students will investigate quarries and mining sites. The group will spend the night at a motel in Hot Springs.

Last day of the trip will be to the only known diamond field in the United States at Murfreesboro, Ark. The group will camp the last night out at Lake Greesen, near Murfreesboro and will return April 22.

## Debaters Win Third

The University debate team, in competition with teams from 23 schools from four states, won third place last weekend in the sweepstakes at the St. John's Forensic Tournament held in Winfield.

Three members of KMWU-FM, the University radio station accompanied the debaters to participate in a special section on radio reading.

In the preliminary rounds of radio reading, each man took first place in his individual division. In other divisions, Mike Russell won second place in storytelling; Marc McLean, first place in poetry reading; and Dave Franssen, first place in Bible reading, with McLean second and Russell fifth in the same division.

The debaters winning places in the preliminaries were, Dean Hargrove and Glenda Gates with third and fifth place respectively in storytelling. In dramatic reading Howard Soloman won first place,

with Brad Hammond, third and Bob Cressler, fifth.

Ed Cressler received first and Herbert Brookins, fourth in oratorical declamation. Richard Gregg won second place and James Webber, fifth place in impromptu speaking. Gregg was also third in extemporaneous speaking.

The final rounds of the tournament ended with McLean first in poetry reading and Soloman, fifth. Franssen received fourth in radio speaking. Soloman also won fifth place in the dramatic reading division. In Bible reading Franssen took first and McLean, third.

## Department Trains Teachers For Vocational Instruction

"We're not thinking of producing woodworkers, but teachers," declared A. D. Cox, head of the department of Industrial Education, in a recent interview referring to the primary job of "shop" courses at the University.

The training ground for future vocational teachers, the industrial education department has been a part of the College of Education since 1952. The department had 20 majors at that time. This year there are 60.

### Shop Work Necessary

Teaching industrial arts calls not only for academic training but for training in the use of machines and materials. Students learn through the practical application of class methods in the drawing room and shops.

Courses are offered in six fields of study: electricity, drawing, woodworking, machine shop, auto mechanics, and sheet metal. Class projects stress teaching methods while the students work on their projects.

Students in advanced classes in woodworking select individual projects with their instructor's approval. A variety of furnishings in mahogany, walnut, cherry, and maple are among the projects made by the students.

Auto mechanic classes are conducted at West High School since the University has no on-campus facilities for this course.

Two courses are offered in this field using up-to-date models for practical training.

### Build Equipment

Much of the department's equipment has been constructed by Professor Cox, his staff, and his students in their spare time.

A manifold that allows six weld-

ing machines to operate from two gas tanks, cabinets, and work tables have been among their projects. Remodeling of the building to gain more shop and classroom space is currently keeping them busy, according to Professor Cox.

Other faculty members of the department are: Jewell E. Moore, assistant professor; and Clifford E. Donnelly and H. D. Horton, instructors.

## Teacher Representatives To Interview Students

Representatives from at least seven out-of-state school systems will be on campus during March and April to interview students interested in teaching.

According to Miss Beulah Mullen, director of the Teacher Placement Bureau, representatives from Chula Vista, Calif., will interview students the second week in March.

Representatives were on the campus from Stockton, Calif., on March 18; from Milwaukee on March 19; and from Anaheim, Calif., on March 21.

Representatives from Flint, Mich., will interview students on

March 27, and representatives from Bellflower, Calif., will interview students on March 29 and 30.

St. Louis, Mo., and Torrance, Calif., will send representatives to interview students in April.

Teacher candidates interested in interviewing representatives are advised to make appointments in the Teacher Placement Bureau, Rm. 230, Jardine Hall, as soon as possible.

## WU Adds Library of Records

One of the more recent additions to the University's facilities is the Record Library, located in the Fine Arts Center.

James Gould, assistant professor of music, said in about another year the library will have a standard basic repertoire of classical music. In addition, the library will have a selection of jazz and folk music.

Equipment that will allow a number of students to use the listening room at the same time has been purchased. This will enable

students to hear their favorite records without disturbing others.

The library also will contain books on musical subjects. The books will be located in a room above the record section.

## FLASHLIGHTS OUT

Night students may now leave their flashlights at home. Installation of 20 new light fixtures will aid them in the search for classes. The University electrician has completed work on six new lights and is awaiting arrival of the remaining 14 fixtures to finish the job, John Gaddis, superintendent of buildings and grounds, said. Operating on a time clock switch, the lights will go on at dark and off in the morning, he said.

## 'New Look' Takes Over At Fieldhouse

A "new look" has been added to the University's Fieldhouse.

Conversion of the structure from a basketball stadium to an ice-skating rink started at noon, Sunday, in preparation for the five-day engagement of Ice Capades which opened Wednesday and will play through Sunday, March 24.

### Change Required 'Magic'

The change required the magic of modern refrigeration engineering plus several hundred tons of special equipment. The work was done by a crew of 40, under the direction of Richard Palmer, the show's technical director.

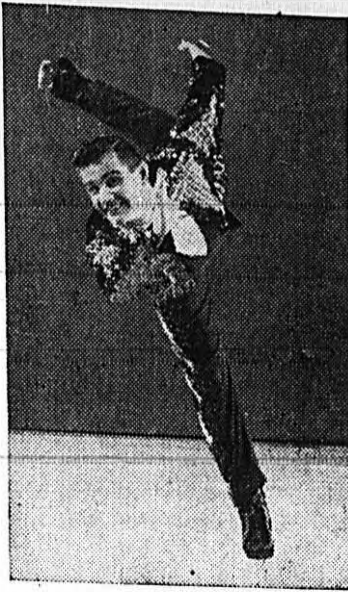

To transform the basketball court into a skateable ice surface required 10 miles of pipe coils imbedded in sawdust for insulation. This was topped with moulder's sand.

Freezing brine was pumped through the coils and water sprayed on the sand to build up the skating surface. The ice covers the entire basketball playing area.

### 8 Performances Given

Eight performances were scheduled for the five-day engagement which started Wednesday. There will be an evening show at 8:30 p.m., today. Performances for Saturday are scheduled for 1:30, 5:30, and 9 p.m. The show will close with two matinees on Sunday at 1:30 and 5:30.

Three of the performances are being sponsored by the Women's Advisory Council of the Institute of Logopedics as a benefit for their teacher training and research fund.

**NATIONALLY KNOWN** as a top male figure skating star, Alan Konrad is one of the 24 stars to be seen with the new edition of the ice extravaganza, Ice Capades, now playing at the Fieldhouse.

## WRA Plans Tournament

Singles and doubles will be played in the Women's Recreation Association badminton tournament, March 31, in Henrion Gymnasium.

Any coed may enter the tournament.

A student may not sign up for both singles and doubles, said Elizabeth Meyer, instructor of women's physical education. If a woman wants to play doubles then she should sign up with her partner.

## Social-Lights By Kathy Rhodes

Spring is here and with it has come a rush of campus elections.

Selected as the new president of the Associated Women's Students was Jackie Hicks who served as co-chairman of the AWS conference.

Martha Reagan will head Wheaties next year as president.

Coming soon will be the election of Student Council officers.

Pi Alpha Pi selected their "party doll," Monday night, in place of the traditional "Pi Alph Princess." The newly selected "doll" is Corine McMinimy of Grace Wilkie Hall.

Epsilon Kappa Rho will celebrate its annual Founder's Day Saturday at the Connoisseur Restaurant in Park Lane. This is their 30th anniversary.

Alpha Tau Sigma held their pledge dance at the Wichita Gun Club last Friday night. Those attending were: Annette Wiehl, Butch VanDusen; Pat McClaskey, Phil Collins; Barbara Parker, Jerry August; Judy Shreve, Ted Taylor; Barbara Wiseman, Eddie Brown; Betty Layman, Bill Wilbur; Donna Sue Reed, Ford Duke.

## Library Faces

(Continued from Page 2)

with the expansion of the University both budget-wise and space-wise."

The Library in the last two decades has been a growing and developing unit on the campus, the report showed, but at the present time every available square foot of space is being utilized.

Whereas the ideal library will have 25 square feet of space for each student studying at the tables, the University Library has, for example, only 16 square feet for each student.

Furthermore, statistics show that almost all libraries tend to double in size every 16 years. Morrison Library has doubled in 14 years.

### Budget Below Average

Present finances indicate that the University Library is somewhat at a disadvantage in comparison with many university libraries elsewhere. This fiscal year, only 4.2 per cent of the University budget was devoted to the Library here. The average of colleges in the United States is about 5 per cent.

Continual growth of the Library is evidenced by the number of books it has on hand. In 1935-1936, it held 40,804 volumes. In 1945-1946, this had increased to 73,365; and in 1955-1956, the Library had on hand 125,879 bound volumes.

Circulation of reserve and two-week books has leaped from 67,413 books in 1950-1951 to 121,266 in 1955-1956.

Over and above the shortage of space, the Library currently is being plagued by unauthorized use and subsequent disappearance of many valuable books.

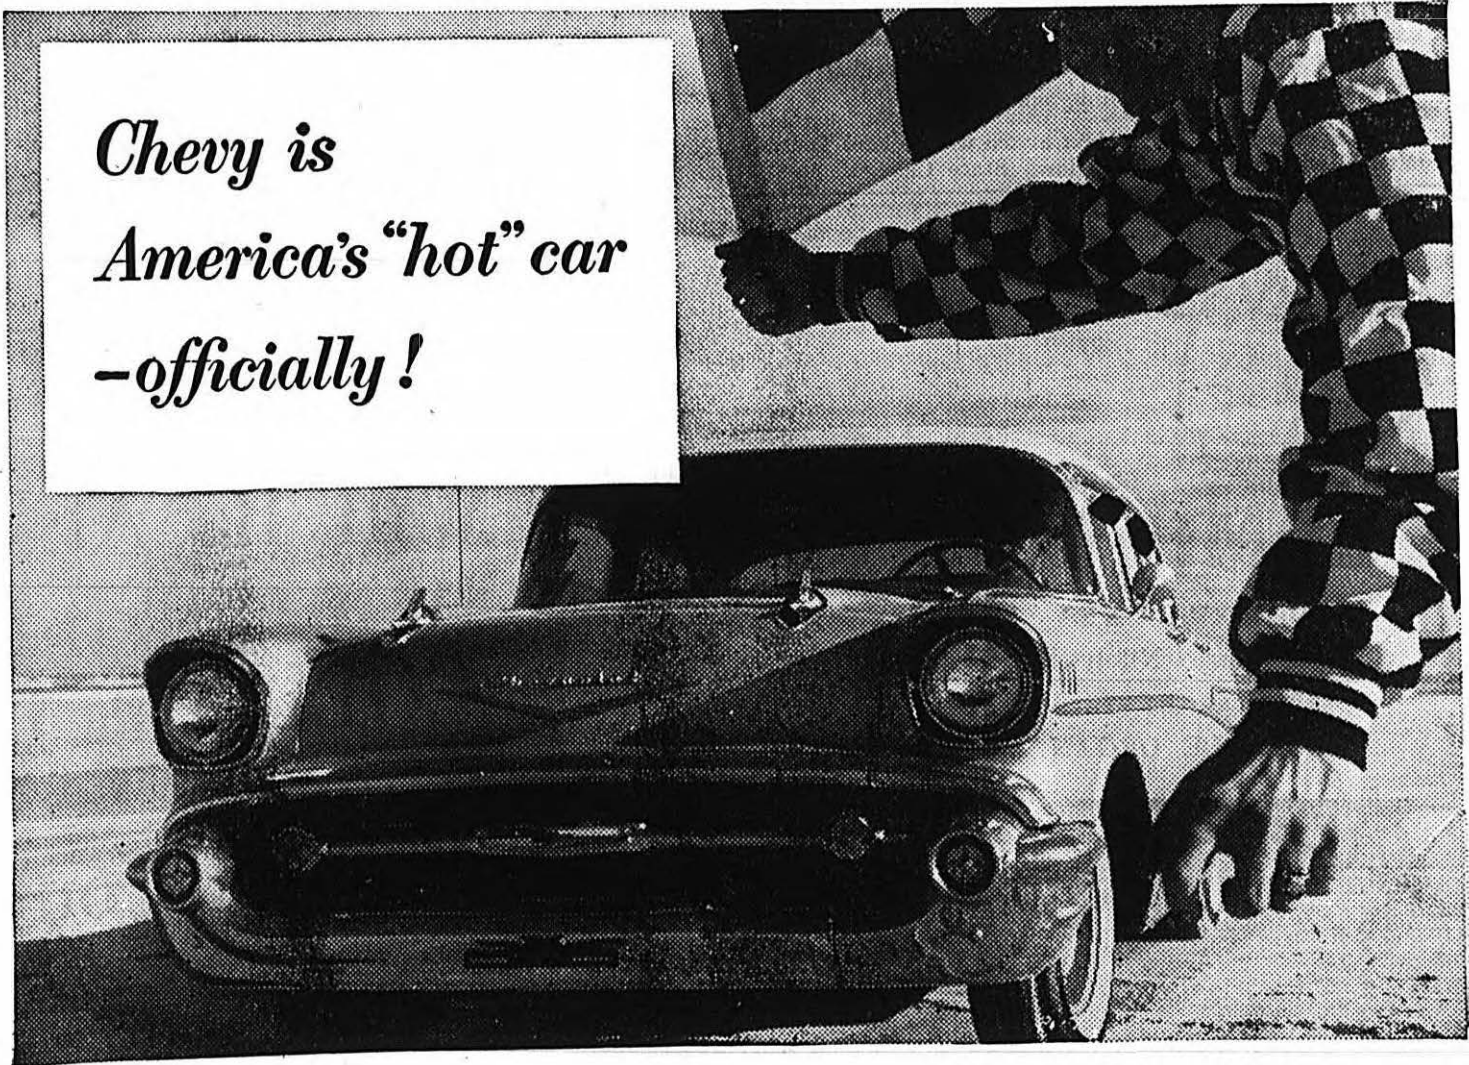

### Book Losses Heavy

According to the report submitted by Professor O'Harra, approximately \$800 a year is spent for the replacement of lost books. The most serious losses have occurred in the Heiple Memorial Browning Room. Two hundred and fifty-one books valued at about \$1,000 have been lost since the room was opened three years ago.

At the last inventory, 24 lost books were recovered but an additional 74 books were discovered missing.

In the reference room, single volumes of sets of books have been lost, and it was found necessary last year to replace three sets in their entirety.

Chevy is  
America's "hot" car  
—officially!

**Chevrolet Wins Coveted Manufacturers' Trophy at Daytona Beach as "best performing U. S. automobile"!**

Want facts about performance?

Then look at the official figures from NASCAR's\* internationally famous Daytona Beach competition for stock cars. Here's what you'll find: Chevrolet, in two weeks of blistering competition, proved itself as America's Number One performance car. Nothing in the low-price field could touch it.

No other car, regardless of price, scored such a sweep. And Chevy walked away with the famous Manufacturers' Trophy, hands down!

The 1957 Chevrolet is, by all odds, the most astonishing performer ever produced in the low-price field. Best of all, this superiority isn't limited to just a few extra-cost high-performance models. Every type of Chevy—from the six-cylinder models right up to the 283-horsepower "Super Turbo-Fire" V8's, from the single-carburetor V8's with Powerglide to the stick-shift "270's"—is a championship car.

# WU to Host Alva Nine Here

The Shocker baseball team, under the guidance of Coach Ray Morrison, will take on undefeated Northwestern State Teachers College of Alva, Okla., here this afternoon.

The game, set to start at 2 p.m. at the West Side Athletic Field, will be the season's opener for the Wheatshockers.

A double-header against the Teachers has been tentatively set for March 25 at Alva. Original plans called for a double-header here today, according to Pat Quinn, sports publicity director, but these plans were later changed to a single game here and a possible double-header at Alva.

### Alva Seeks Victory

Alva's team will be seeking its third victory of the young season. Northwestern State defeated Friends University in a double-header earlier in the week. Alva won the two games in tight pitching battles, both by 2 to 1 scores.

For the Shockers, Ray Morrison plans to use all six of his varsity pitchers, starting off with Nick Dawson who will probably be

### New Faces In Lineup

The Shockers will have some new faces in the line up, but many of the old standbys will still be around. Jim Klisanin will be at shortstop, the position he has held for the last three seasons. Don Lock and Ray Fulton will be at their old positions, first base and third base, respectively.

Some of the new faces that will be seen in Shocker uniforms will be second baseman Jerry Milner; Gary Huffman, right field, Elvon Schierling, in left field; and Ray Larkin, behind the plate.

The batting order for the game is as follows:

Jim Klisanin, shortstop; Don Lock, first base; Jerry Milner, second base; Ray Fulton, third base; Dave Wiehe, center field; Gary Huffman, right field; Elvon Schierling, left field; Nick Dawson or Al Schwartzkopf, pitcher

# FOGG Lights

By BOYD FOGG  
Sunflower Sports Editor

If the University students could have watched the State AA basketball tournament held on our campus last week, they could have taken a lesson in school support and loyalty.

During football season, the support students gave the Shockers was down right shameful and in basketball season it became worse. Maybe we didn't have the greatest season in football this year, but because we had a losing season was no reason for our support to hit rock bottom.

We still have a chance to redeem ourselves by giving the spring sports our support this season. Certainly we have enough sports-baseball, track, tennis, and golf to interest the individual student.

The Shocks will play all their home baseball games at West Side Athletic Field on the west side of town this season. The majority of these games will start at 2 p.m. This should give most students time to get across town to watch the games.

The cindermen will run all home meets on the campus in Old Shocker Stadium, which should be convenient for most students

Let's not give the spring sports the same shameful support we gave football and basketball. Instead let's give the Shockers enthusiastic support to show them we appreciate their efforts.

Remember Wichita University is your school; the teams are your teams. Let's all get behind the Shocks and give them our full support.

# Spring Grid Battle Ends in 20-20 Tie

The grid men of Coach Chalmer "Woody" Woodard met last Saturday in their first inter-squad game at Veterans field. The game was played on a clear, but windy afternoon. The battle ended in a 20-20 tie.

The White team scored first in the opening quarter with quarterback Bob Sherman sneaking over from the one foot line. Dick Young kicked the extra point to give the Whites a 7-0 lead.

The Blacks came storming back in the second quarter as Bob Liles and Ray Vogl each crossed the goal line. Jim Bourn converted once and this gave the Blacks a 13-7 lead. The Whites tied up the game before intermission as Jerry Brooks romped over from the two. The try for the extra point failed, and the half ended in a 13-13 tie.

The Whites regained the lead in the fourth quarter as Bob Sherman and Harry Horton worked a 45 yard pass play for six points. Gaylord Bellamy broke away for

a 58-yard touchdown gallop with less than five minutes in the game. The point after touchdown was the last scoring play of the game and the contest ended in a 20-20 tie.

# Netmen Face NW Teachers Today in Season Opener

Tennis season opens today as the Shocker netmen face Northwest State Teachers College of Alva, Okla., on the University campus.

Members of the Shocker varsity team are Stan Allen, Jack Hewitt, Phil Gerhardt, Marion Shropshire, Dick Fitzgerald, and Dean Looney. Shropshire is team captain.

on the south courts and finals on the north courts, according to Pat Quinn, tennis coach.

Next match will be here Tuesday with Iowa State College. Primary matches will be played
