Scheduling of games on week nights was seen as the cause of poor student attendance by AURP representative Don Butts.

Poses Question—Lee

"It seems to be a question of how badly the Administration wants students," said Claude Lee, BPOC porportional representative. Lee continued, "They seem to have a mixed attitude about it. Do they want us as much as the downtown people?"

"Many students object to walking down to the Fieldhouse and deciding whom they will sit with in advance," said Diane Copeland,

Rifles' Win Trophies At **OSU Meet**

Pershing Rifles became the highest ranking company in the highest ranking regiment of the mid-west area as the result of the area competition, March 15. The University group was awarded possession of the roving trophy for an over-all performance.

The Mid-west Area Regimental Assembly was held at Oklahoma State University last Friday and Saturday. Sixteen units from Kansas, Oklahoma, Missouri, Arkansas, and Texas attended.

In addition to winning the roving trophy, the unit also received a permanent first place trophy for standard platoon. A second place medal was awarded the unit for individual basic drill on the machine gun crew performance.

The squad placed third in the standard squad drill and the rifle team shoulder to shoulder match. Delo Pearson received a medal for third place in the individual advanced rifle firing.

Expresses Observation Still another point of observation was expressed by Council Vicepresident Hal Rhodes who asked if the Athletic Policy Committee had ever considered a "de-emphasis on athletics" at the University. Rhodes indicated this was a solu-

tion to the problem. Eeles answered that there was an effort at the University several years ago to become a big time athletics school, especially in the track and basketball areas. "This has cooled off and they have since pushed a lot of money into basketball," he said.

Suggests Elimination "Is it possible we might not have a football program, at all?"

Rhodes asked. Partially defending statement, Miss Copeland said, 'Ever since I've been here we've had nothing but trouble with football, either in the way of coaches, players, or spectators. Maybe the University should consider 'foot-ball for football's sake'," Miss

Copeland said. Rhodes added that the University student is becoming "more and more aware of academics." Lee suggested that some statistical data be compiled with regard to the matter. He indicated he would do some preliminary work in the

"Wake up and Read."

This is the motto of National Library Week, which is being observed this week, according to Downing P. O'Hara, librarian

It is also an opportunity to acquaint students with the ease in which reading material may be obtained from Morrison Library, he added.

The library staff tries to encourage students to read and to make use of books by such devices as open stacks, special displays on subjects of current interest in the lobby, the Heimple Browsing Room, and the magazine room, he said.

Other methods of encouraging reading have been used by professors in making assignments that require the use of the library. One of these assignments has been the writing of a letter to the librarian following the freshman English library tour.

Sophomore R.O.T.C. Students:

MAJOR IN LEADERSHIP with the Advanced ARMY R.O.T.C. course

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:

1. Learn to Lead

With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.

As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.

3. Receive Extra Income

With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around \$535 for the two-year course. You will also be paid \$117 for your sixweek summer camp training and receive a travel allowance of five cents per mile to and from the camp.

OCEAN TO OCEAN ACROSS SOUTH AMERICA-AND BACK-IN 41 HOURS! **CHEVY'S NEW V8 LEVELS**

THE HIGHEST, HARDEST **HIGHWAY OVER THE ANDES!**

To prove the durability of Chevrolet's r ical new Turbo-Thrust V8,* the tremendous flexibility of the new Turboglide transmission, * the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world -- the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires -- no chance to add oil or water or adjust carburetors for high altitude.

So the run began -- across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 2½ miles in the sky! Drivers gasped for oxygen at 12,572 feet but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes - and the engine was never turned off!

*Extra-cost option.
