College of Fine Arts

School of Art, Design, and Creative Industries

School of Digital Arts

BAA in Media Arts

The Bachelor of Applied Arts (BAA) curriculum merges arts, science and technology curricula, creating opportunities for students to gain training in the emerging creative technologies of audio production, filmmaking, animation and video game design.

The program engages with businesses and focuses on developing student's technological acumen combined with *design thinking skills*. These include the capabilities to

1. Develop creative solutions,
2. Effectively communicate,
3. Practice entrepreneurship, and
4. Master emerging software/hardware.

The development of these capabilities is grounded in an applied academic curriculum. WSU's location in the largest city in Kansas is a vital component to this learning process.

The media arts program is structured as one BAA degree with five concentrations: animation, audio production, collaborative design, filmmaking and game design. The structure is unique as it has five related concentrations under one degree classification.

BAA in Media Arts - Concentration in Acting for Digital Arts

Program Requirements

The Bachelor of Applied Arts in media arts – concentration in acting for digital arts consists of 120 credit hours. In addition to the university scholastic, residence and [general education](#) requirements, students must take the following required courses (some required courses *may* also fulfill general education requirements): 21 credit hours in common core courses and 54 credit hours in a discipline specific track. BAA majors are required to earn a minimum grade of *C* in each course designated as a *C*-required course.
