Compact Shelving Project Moving into High Gear

Next Tuesday, May 15th, 200 carts will be delivered to Ablah Library as part of the compact shelving project. These carts will be used to store materials while the compact shelving is installed in the southeast portion of the lower level. The carts will be parked in the lower level southwest study area. In order for this space to be used as a staging area for the project, furniture will be moved out of that space to other floors, and it will be closed as a study area for most of the summer. Starting on May 16th, student workers will begin moving the “Z” collection into these carts. More information about the book move will be distributed early next week.

America’s Historical Newspapers is the May 2007 Resource of the Month

Explore virtually every aspect of America from 1690-1922 using the May Resource of the Month: America’s Historical Newspapers. The database was created through partnerships with the American Antiquarian Society, the Library of Congress, the Wisconsin Historical Society and more than 90 other institutions.

Newspapers document the life and times of a community, a region, and a nation. Early papers included letters and poetry in addition to the news and editorials. As time went on more society, investigative reporting, and human-interest stories began to appear and by the 20th century, in-depth reporting on domestic and foreign events was included.

America’s Historical Newspapers makes over nine million pages in over 1,300 titles from all 50 states available for searching, saving and printing.

A free workshop presented by Lorraine Madway will be given on May 24 at 2:00PM in Ablah Library, room 217. Although registration is not necessary to attend, it helps assure there are enough handouts. For more information or to register, contact Lorraine at lorraine.madway@wichita.edu or x3590.
