## SGA Says 'No' on NSA Affiliation

### Senior Men's 'Honor Five' Announced Baldwin, Seigle, Mendenhall Coulter, Synder Recognized

The University's Senior Men's Honor Five were named Thursday afternoon from the ranks of the senior class.

Named to the honor group were John B. Baldwin, Fine Arts; William Seigle, Liberal Arts; and Don A. Coulter, Michael R. Mendenhall, and Charles T. (Tom) Synder, all Engineering.

Baldwin, who was the drum major of the WU Marching Band this year is a music major. He is vice president of Music Educators National Conference and holds membership in Student Forum Board, Beta Theta Pi social fraternity, Phi Mu Alpha Sinfonia, Kappa Kappa Psi and the WU Band.

Varsity football player Seigle has been one of the Shockers' leading players during his time here. This year he served as Pep Coordinator, in addition to playing on the squad.

He is a mathematics major and holds the Pi Mu Epsilon math scholarship. He is a member of that organization and is president of his social fraternity, Beta Theta Pi. Active on the dorm council, he is also a member of Student Forum Board, and the Student Government.

The president of the Institute of Aerospace Science, Coulter is an aeronautic engineering major. He is treasurer of the Collegiate Young Republicans and holds membership in SGA, Sigma Gamma Tau and the Engineering Honor Society.

Mendenhall, an aeronautical engineering student, is president of Sigma Gamma Tau, honorary aeronautical fraternity. He is a member of SGA and is also active in IAS,

Engineering Honor Society and Pi Mu Epsilon.

Synder is the recipient of the Women's Aeronautic Assn. scholarship for the second year. He serves as treasurer of Sigma Gamma Tau and has served several SGA terms. He is a member of IAS, Pi Mu Epsilon, Engineering Honor Society and Sigma Phi Epsilon.

### Annual Seeks Queen Entries

Entries for 1962 Parnassus queen candidates are now being accepted in the Parnassus office, Rm. 303 Fiske Hall.

Coeds may be entered individually or by any campus organization. Requirements for entering are a 2.5 over all grade average and junior or senior scholastic classification, according to Sue Schrock, managing editor.

Pictures must be submitted along with each candidate and she should fill out information such as activities and grade point when entering in the Parnassus office.

Entry deadline is Wednesday.

Staff Photo by Tom Doan

STUDENT GOVERNMENT MEMBERS discuss the pro's and con's of the University affiliating with NSA, with Bruce Pemberton, regional vice-chairman for Missouri and Kansas. From left to right: Pemberton, Sharon Richardson, Joyce Allegro, and Joan Roe. The measure was defeated a short time later, by an 18 to 7 vote.

### NSA Constitution Discussed Prior to SGA Introduction

By RICHARD COLE  
Desk Editor

Hours before the 18-7 defeat of NSA for our campus, a meeting was taking place consisting of Greek and Independent students.

Basically the group objected to

sections of the constitution of NSA. According to Dennis Wright, Liberal Arts senior, National Conventions of NSA are set up in such a fashion that many "resolutions" which the NSA program sponsors are, in fact, poorly organized.

The passage of resolutions are given little time for debate and passed by mass motion from the floor. The lack of an agenda forces the students to draw on their unprepared knowledge of regional, national and international affairs.

Wright also charged that the NSA is, in fact, partisan and that they hold a large influence in the field of supporting federal aid to education in violation of their charter.

"They speak for the whole membership plus all the students in the

(Continued on Page 4)

### Large Vote Seals NSA Fate Here

By FRAN SMITH  
Editor-in-Chief

A secret ballot vote was taken at SGA Tuesday night to decide the fate of University affiliation with the National Students Association. The motion to join NSA was defeated 18 to 7, four persons voting by proxy.

An hour and a half of discussion preceded the call for a vote. Bruce Pemberton, regional vice-chairman of NSA and Ottawa University student body president, was invited by the SGA to explain the benefits of NSA and to answer questions.

Pemberton stated that, "The main scope and the most important function of NSA is representation internationally."

In response to the question, "what is NSA going to do for us," he replied, "Not a thing... unless the student government is behind NSA." He further stressed student responsibility.

NSA programs touched upon by Pemberton were student exchanges, regional conferences, and the NSA information bureau.

One of the recurring questions aimed at Pemberton concerned the students' voice through representation.

(Continued on Page 4)

### Peace Corps Tests Slated For Feb. 17

The next Peace Corps placement test is scheduled at 8:30 a.m., Feb. 17, in Rm. 208 of the Insurance Building located in downtown Wichita.

Placement tests are divided into two batteries, according to Marshall Williams, Peace Corps liaison officer for the University. The first battery consists of general information for applicants for any project except secondary school or college level. Williams said that persons who take this test are usually skilled in some field.

The second battery test is set up primarily for secondary school teachers, or those who want to teach in secondary schools, colleges or universities.

Secondary teachers must have a baccalaureate degree in some countries, and university or college teachers are required to have a masters degree and experience.

Each battery test will be given concurrently, with option hours offered in the afternoon, Williams reported.

Information and applications to take these Peace Corps exams may be picked up in Marshall Williams' office, second floor, CAC.

### BC-BS Forms Due

The deadline for submitting applications for the Blue Cross-Blue Shield student health plan for the current semester has been set for Feb. 15, according to Mrs. Mary Knoll, of the Blue Cross-Blue Shield office.

Mrs. Knoll said students may call information into the office if they submit payment immediately after the information is called into the office.

### Annual 'Egghead Week' Sponsors Film, Guest Speakers, Discussions

Egghead Week, 1962, will open a week of intellectual, entertaining events Monday by showing "The Seventh Seal."

Directed by Ingmar Bergman, the film will be shown at 7:30 p.m. in the FAC Auditorium. Dr. Richard Kennedy, assoc. professor of English, will introduce the movie, pointing out some of the symbolisms to help the viewers to understand and interpret it.

A discussion will follow in which students will be able to bring up any points they might have after watching the film.

Other events for the week will include "Select-a-Lecture" at 9:40 a.m. Wednesday. A new feature is an "Open End" panel discussion at 7:30 p.m. Wednesday. The five "Select-a-Lecture" speakers will participate as panel members. Students and faculty are invited to attend.

The five guest speakers have been selected by the women of Mortar Board, national honor society. Their discussion topics range from Keynesian economics to modern poetry.

Winding the week up will be a scholarship breakfast at 7 a.m. Friday in the CAC. All students with a 3.75 grade average and above will be the guests of Mortar Board.

A scholarship will be presented to the sophomore woman who had the highest grade average in her class during her freshman year by the Wichita Mortar Board Alumna Chapter.

No organizations will meet during Egghead Week, according to Ann Deshner, chairman.

"EGGHEAD" SYMBOL of Mortar Board's Egghead Week is displayed by Shirley Reed and Anne Deschner, chairman of Egghead Week. Mounted on a stack of books the goggle-eyed figure represents Mortar Board's attempt to stimulate intellectualism on campus next week.

### Regents Vote To Increase Dorm Costs

Due to rising food costs, the University Board of Regents voted Monday night to increase dormitory room and board rates an average of \$20 per semester. This is the first increase in dorm rates in eight years.

According to Sidney Brick, Ways and Means Committee chairman, the increase would become effective next September, raising the average yearly fee from \$810 to \$830 per student.

President Harry Corbin indicated that the increase would not put the University's rates "out of proportion" in comparison with other schools.

A committee recommendation concerning the reduction of dormitory meals from 20 to 19 per week was not included in the final motions.

Under a budget of \$150,000 the Supplies committee was authorized to grant a contract for new library equipment.

Editorial Views . . .

# A Majority Report?

When SGA first considered affiliating with the National Student Association, a genuine effort to promote interest and intelligent understanding was undertaken by the Fact Finding and Investigation Committee. The information concerning NSA aims, achievements, and actions was made available. Both pro and con literature could be obtained in the SGA office.

A last minute flurry of activities, meetings, and a guest speaker made this group most informed. Yet, this was not enough.

The Sunflower does not condemn the failure of NSA to pass, but we do condemn the rapidity by which the vote was taken and the decision reached.

One of the complaints offered by anti-NSAer's was the lack of student representation and the fear that if WU joined, their voice would not be heard.

Yet, SGA represents the students of this University. They should carry their messages to congress and try to please the majority.

Did the majority of University students want to remain unaffiliated with NSA? How many of you were questioned concerning your feelings on the matter?

We wonder if perhaps the fears of some SGA members were not grounded in a form of hypocrisy.

The decisions of a student government affect the entire student body. The affiliation with NSA is not the point we're trying to make, we are questioning the ramrod voting procedures witnessed at the Tuesday night meeting.

If, and when, the question of NSA arises on this campus again, we advocate the decision be reached in the form of a campus wide referendum.

# A Worthy Cause . . . .

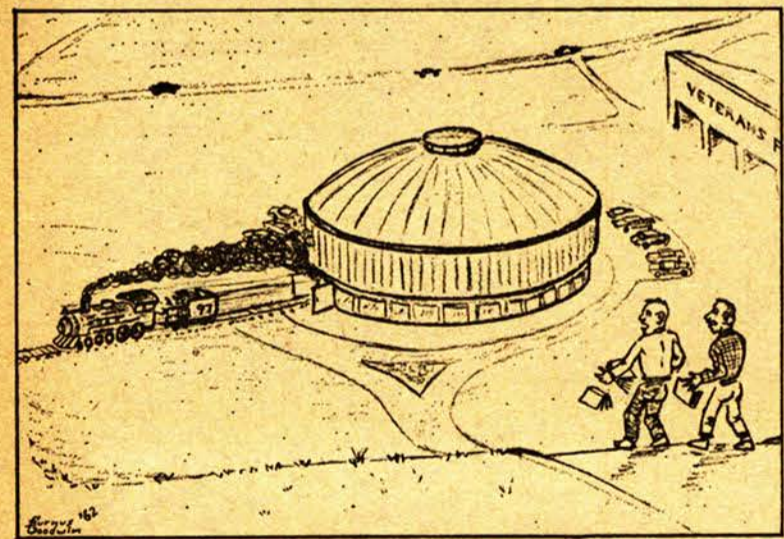

On Monday, "Operation Egghead" or Egghead Week will begin on the University campus. The annual event is sponsored by Mortar Board, national woman's honor society, and is an attempt to stimulate intellectualism.

This is the fourth year for "Egghead Week" and for the most part each of the previous years have been successful ones. However, it has been noted that there has been a gradual lack of interest in this yearly project.

The "Select-a-Lecture" feature, to be conducted on Wednesday, is particularly interesting and educational. Speakers at these lectures are well versed in their field and always give enlightening talks.

A new plan this year will be an "Open End" discussion Wednesday night, in which the five "Select-a-Lecture" speakers will appear on a panel and reiterate the morning lectures and topics that might arise.

Although we have had our differences with the Mortar Board recently, we wish you good luck in your attempt to stimulate intellectualism, and urge the student body to take advantage of this worth while event.

# The Readers Speak

## USNSA Defeat By SGA Lauded

To The Editor:

Tuesday, a bill was defeated in the SGA which would have affiliated our school with the United States National Students Association. It should be a lesson to those students who feel that our school should be acquainted financially and politically with a group which has been tried by some of the big colleges and dropped.

Why did these schools Harvard, KU, K-State, OU, and U of Fla.) drop NSA? Some claimed financial pressures as their cause, but others, like Northwestern, openly fought it, because they felt that it not only wasn't doing them any good, but that it was misconstruing the opinion of some 400 colleges to be that of the entire student population of the United States.

An affiliation of our University with the NSA would have entitled the University to the representation of 5 delegates to the yearly NSA national conference which is composed of more than 1000 delegates from the other colleges. What does this mean?

That we would have a very small voice in the "resolutions" passed on by the entire group is the essential conclusion. With only five students attending we would have little to say, if we were even heard, in building a foundation for better student government.

Let us say that we are lucky that we are, if fact, not affiliated with the nebulous constitution which the NSA supports.

Richard Cole  
Liberal Arts junior

# --- As An Outsider ---

By RON SMITH

I personally am getting tired of questionnaires. It is getting so that a man can not walk down a hall or into a room without having somebody cram a questionnaire in his face. First it was the government, and then it was psychologists, and now even service groups have taken up the craze. Take last Friday for instance. (You don't have to, I just thought it would be convenient.)

I had just gotten out of bed and was walking around the room holding onto my head, making sure that it would not fly off. (Very often I study so hard that I get simply intoxicated.) I was kind of shaky and tired, having awakened at the foot of the bed with all the lights on. "Maybe," I thought to myself, if I lie here long enough, I will die." But the fates were against me and it kept getting closer to my eight o'clock class. "Well," I thought, "heigh-ho... out to school."

After my eight o'clock, I decided to skip down to the Sunflower. It seemed Mortar Board had been taking some kind of survey to see what the campus reaction was to our paper, and I felt it necessary to take up the cudgels in our defense.

Having taken the proper amount of nicotine and caffeine into my system, I was ready to begin my little task of refuting the Vestal Virgins that guard the lights of truth on our campus.

Just as I was ready to begin, my eyes wandered around the room in one of their gay, madcap jaunts which causes so much concern on the part of my friends, and happened to light on a booklet entitled "What's Wrong with College Students?"

One of the eight things that are supposed to be wrong with the college student (not including the mere fact of being a college student, which is no small handicap in itself) is that we didn't learn enough about physics when we were young.

All of this is being remedied in the present generation, what with the thousands of little games and toys that lead the youth down the paths of know-

ledge. All kinds of cute games with the principles of light refraction and the co-efficient of linear expansion.

The good thing is that they don't think that they are being taught anything. But the real meat of my complaint is centered around the insinuation in the article that college students can not do these things.

Well, by golly, I decided that I ought to take up the cudgels in defense of the college student instead of defeating the purpose of Mortar Board. Here is a list of problems that any six year old can do. It is under the heading, "Can College Students do these Things?" Listen to them.

1. Can you place a shelled, hard boiled egg in the mouth of a milk bottle, and without touching it, cause it to drop into the bottle?

Answer: Sure I can. I haven't figured it out yet, but I'll do it if I have to use a sparrow's egg. (Ha-ha . . . you hadn't thought of that Mr. Six-year old.)

2. Tell why a stick, placed in water at an angle, appears to be bent at the surface.

Answer: What makes you think it does? (That's telling'em.)

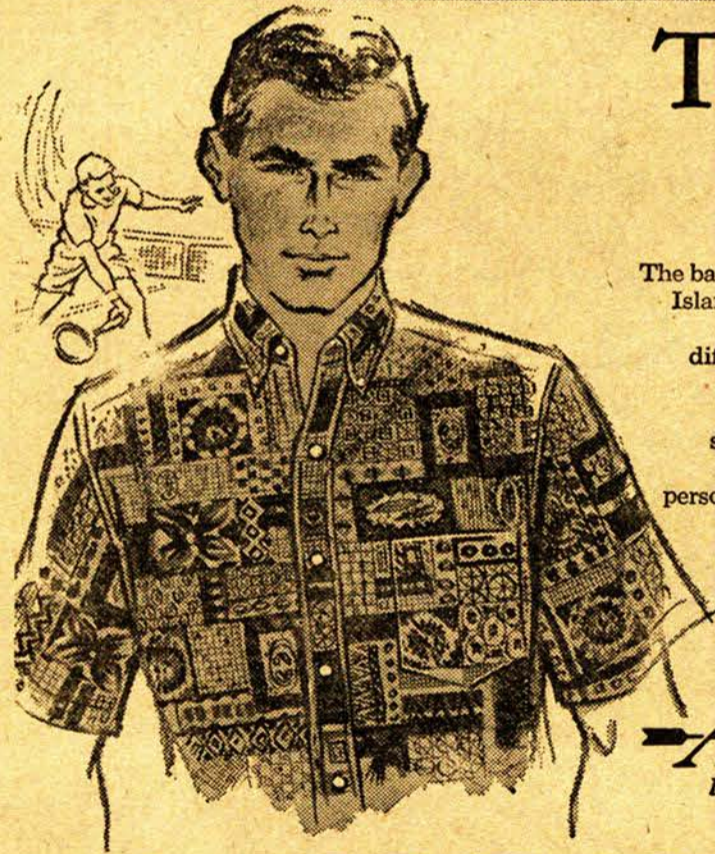

3. Make innumerable images with two mirrors.

Answer: That's easy.

4. Make a lighted candle seem to be burning in a glass of water.

Answer: Place a candle inside a glass of water and light it.

Well, I could go on, but you wouldn't be any more interested than I was. But that is what is weakening us as college students. Too many questionnaires. Why not let well enough alone? Don't you agree?

# Tapa Prints

The bark cloth prints of the Hawaiian Islands inspired us to design a new collection of shirts completely different in coloring and pattern.

We are sure you will want to add one or more of these fine shirts to your casual wardrobe. Tailored so well it looks personally measured. Button-down collar-tapered waistline.

It definitely looks like the Shockers have taken a new lease on life for stretch run to the Missouri Valley Conference basketball crown. The victory over NTS last Tuesday was one which the Shocks needed badly and they took it with considerable ease. It is granted that North Texas is the doormat of the Valley but the showing of the basketballers in Denton was a cause for optimistic speculation as to our chances for the MVC marbles.

It appears to this writer that the Shocks may be improved since the loss of Lanny Van Eman. With Van Eman the squad appeared to depend too much on his and Wiley's success. It was the old case of "as Lanny and Gene go, so goes the team."

Without Lanny the Shocks are left without the steady man to depend on and thus they all must give their best every game to stay on top. Surely, this is not meant to imply that Van Eman hurt the team. Actually the reverse is true. He carried the team too much of the time and this only enhances his prestige even more. Now, it appears that Coach Miller is getting the utmost from everyone, every game.

Stallworth and Kelley! What more can we say about both except that they have proved tremendous so far? Both showed their worth very well Tuesday night as they combined for 41 of the Shocks 105 points. Stallworth's 23 was high for the game and Kelley's 18 was good enough for second in Shocker scoring. Certainly scoring is not the only facet of the game but it's a lead pipe cinch that you can't win with out the scoring ability.

It is the opinion of most people interested in the MVC race that Kiel Auditorium in St. Louis could be where the title is won or lost by any of the three teams left in contention. Both Cincinnati and Bradley must follow WU onto the Billikin's home ground.

**St. Louis is the team most likely to knock off any or all of the Valley leaders when it is playing at home. The Bills have always been tough at home and this year is likely to be no exception.**

Also, John Bennington's crew is improving greatly with each game and the country's biggest teams could not feel secure in opposing Bennington at home. This all goes to prove that a WU win Saturday night would give the Shocks an intangible advantage over both the Braves and the Bearcats. This is the biggest warm-up prior to the face to face battles.

## Missouri, AF Outman Shocks in Track Opener

Missouri and the Air Force outmanned WU and defeated them in a triangle track meet last Saturday in Columbia. The Shockers went into the meet with only 11 competitors while Missouri had 35 and the Air Force 28.

Larry Dalton provided the only Wichita win by jumping 6' 2 1/4" in the high jump.

### Groves Grabs 2 Seconds

Ron Groves grabbed two seconds in the meet in the 60-yd. dash and the 440-yd. run. He placed his second in the 440 by coming out of the broad jump pit where he was forced into in the last turn.

A second in the mile run was scored by Cal Elmore who was clocked in 4:21.1, the same as the winning time posted by Missouri's Jerry McFadden.

After taking an early lead Elmore ran in third position until the last quarter when he came astride with McFadden and ran him even to the tape. The two were clocked in at 60 seconds for the last quarter of a mile.

### 3 Shocks Take 3rds

Picking up thirds for Wichita were Abbas Goudarzi in the 1000-yd. run, Tom Mallisee in the 600-yd. dash, and Ray Wilson in the two-mile run. Wilson also picked up a fourth in the mile run.

Other scorers for the Shockers were Stan Buckley who received fourth in the broad jump and the mile relay which picked up a second place.

The mile relay consisted of Mallisee, David Jack, Goudarzi, and Groves.

### 3 Records Broken

Three Missouri Fieldhouse records were set, all by Tiger trackmen. Charles Wiley went 14 feet 3/4 inch in the pole vault, Jim Baker 1:12.8 in the 600 yd. dash and Don Smith 57 feet 6 1/4 inches in the shot put for the records.

Team scores for the meet were: Missouri 87 1/2. Air Force 37 1/2, and Wichita 25. Wichita scored in only nine of the 13 events and entered in only 11.

### Rooms for Men

Private Entrance. 602 No. Glendale. Call after 6 p.m. or on weekends. Ph. MU 2-6201.

# Shocks Stay Alive in MVC; Pluck Eagles 105-75 Tuesday

The Wheatshockers turned on full steam Tuesday night to run up their highest point total of the season while dropping the North Texas State Eagles 105-75.

Dave Stallworth, playing only his second game as a varsity man, led the Shock scoring parade with 23 points. He was followed by Leonard Kelley who tallied 18. Kelley was also appearing in a Shocker uniform for the second time.

### Shocks, Cinny Tie

The victory at Denton moved the Shocks into a second place tie with the Cincinnati Bearcats. Both teams sport a 6-2 record in Valley play. Bradley still leads the MVC field.

WU hit a luke-warm 48.9 per cent from the field as compared to the Eagles cool 35.1 per cent.

The Shocks were forced to play without the services of both Gene Wiley and Ernie Moore for most of the last half. Wiley was benched for a possible pulled tendon in his foot. He did not see any action in the last 20 minutes. Moore was plagued with foul troubles, picking up his fourth early in the second

half. Ernie rung up 12 points for his night's effort. His best game was on defense however. He was credited with several steals and assists as he and Kelley teamed up to keep the pressure on the Eagles. The Shocks led 43-36 at halftime break.

### Savage, Dixon Lead

Leading scorers for the Eagles were John Savage with 21 points and Dixon with 20 points.

Tomorrow night the Shocks will attempt to stretch their MVC vic-

tory string when they take on the St. Louis Billikins in Keil Auditorium at St. Louis.

The Shockers chalked up an easy victory against the Bills here but in Kiel it could be an entirely different story. Coach John Bennington's Bills have been getting tougher with each game and they will not play dead on their home court.

The St. Louis game can be heard on KFJ radio with Jack Lynch mikeside. Air time for the game will be 8 p.m.

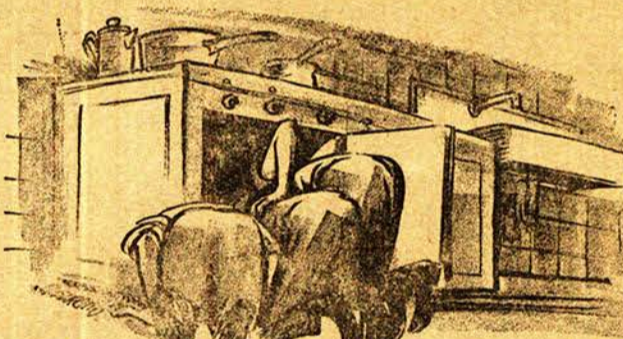

## IS STUDYING NECESSARY?

Once there were three roommates and their names were Walter Pellucid, Casimir Fing, and LeRoy Holocaust and they were all taking English lit. and they were all happy, friendly, outgoing types and they all smoked Marlboro Cigarettes as you would expect from such a gregarious trio, for Marlboro is the very essence of sociability, the very spirit of amity, and very soul of concord, with its tobacco so mild and flavorful, its pack so king-size and flip-top, its filter so pure and white, and you will find when you smoke Marlboros that the world is filled with the song of birds and no man's hand is raised against you.

Each night after dinner Walter and Casimir and LeRoy went to their room and studied English lit. For three hours they sat in sombre silence and pored over their books and then, squinty and spent, they toppled onto their pallets and sobbed themselves to sleep.

This joyless situation obtained all through the first semester. Then one night they were all simultaneously struck by a marvelous idea. "We are all studying the same thing," they cried. "Why, then, should each of us study for three hours? Why not each study for one hour? It is true we will only learn one-third as much that way, but it does not matter because there are three of us and next June before the exams, we can get together and pool our knowledge!"

Oh, what rapture then fell on Walter and Casimir and LeRoy!

The wax in their ears got melted

They flung their beanies into the air and danced a gavotte and lit thirty or forty Marlboros and ran out to pursue the pleasure which had so long, so bitterly, been missing from their lives.

Alas, they found instead a series of grisly misfortunes. Walter, alas, went searching for love and was soon going steady with a coed named Invicta Breadstuff, a handsome lass, but, alas, hopelessly addicted to bowling. Each night she bowled five hundred lines, some nights a thousand. Poor Walter's thumb was a shambles and his purse was empty, but Invicta just kept on bowling and in the end, alas, she left Walter for a pin-setter, which was a terrible thing to do to Walter, especially in this case, because the pin-setter was automatic.

Walter, of course, was far too distraught to study his English lit, but he took some comfort from the fact that his roommates were studying and they would help him before the exams. But Walter, alas, was wrong. His roommates, Casimir and LeRoy, were nature lovers and they used their free time to go for long tramps in the woods and one night, alas, they were treed by two bears, Casimir by a brown bear and LeRoy by a kodiak, and they were kept in the trees until spring set in and the bear went to Yellowstone for the tourist season.

So when the three roommates met before exams to pool their knowledge, they found they had none to pool! Well sir, they had a good long laugh about that and then rushed to the kitchen and stuck their heads in the oven. It was, however, an electric oven and the effects were, on the whole, beneficial. The wax in their ears got melted and they acquired a healthy tan and today they are married to a lovely young heiress named Gangulia Bran and live in the Canal Zone, where there are many nice boats to wave at.

© 1962 Max Shulman

## WU Sprinters Journey To MSU Meet

Michigan State University will be the site of the second Shocker track meet, with four Wichita trackmen competing.

Ron Groves will compete in the 75-yard dash, 300-yard dash, and possibly in the 600-yard dash. Groves is regularly a quarter miler who has run the distance in 49.1 seconds.

The mile run will find Cal Elmore and Ray Wilson competing for honors. Elmore won the MVC Cross Country championship and Wilson is co-captain of the track team, along with javelin thrower Phil Johnson.

The lone winner in the Missouri triangle last Saturday, Larry Dalton, will compete in the high jump. Dalton has leaped 6-feet, 2 1/4-inches already this season.

The four trackmen with Shocker track coach Fritz Snodgrass will leave for East Lansing Thursday evening and will return Sunday.

# May Queen Voting Set For March

Applications are now being accepted for the May Queen Contest which will be held on March 9, announced Bob Hunt, SGA Election Commissioner.

To run for May Queen, a candidate must be a senior woman having completed 88 hours and currently be a full time student enrolled in 12 hours or more. Her composite grade point average must be 2.0 or better.

A filing fee of \$7.50 must be turned in to the SGA office by 5 p.m. on Wednesday. The name of the candidate's sponsoring organization must be turned in at that time also. Hunt remarked that all interested organizations may sponsor a candidate.

Candidates should contact Hunt in the SGA office concerning the official campaign portraits that will be taken. The portraits will be paid for out of the filing fee and they will be displayed in various parts of the campus from March 5 to the time of the election.

No other campaigning is allowed except by word of mouth. This rule will be strictly enforced.

## Two Debate Teams Enter Tournaments

University debaters are engaged in two debate tournaments on the road this weekend.

Two debate teams are entered in the Bethany College Invitational Debate Tournament at Bethany, Oklahoma. One team is made up of Judy Wallace and Meredithann Dougherty and the other of Keith Williamson and Dennis Smith.

The other tournament being attended by University debaters is the Rockhurst College Invitational in Kansas City. Of the two teams entered, one is comprised of Mike Russell and Larry Bradshaw, and the other of Penelope Patton, John Fairhurst, and Martin Kerns.

## SGA SAYS

(Continued from Page 1)

tives at conferences. Several SGA members expressed doubt as to the influence the University would be able to express in deciding national and international issues.

The main objection to affiliation stemmed from finances. The NSA dues would be approximately \$130, plus any expenses involved in sending members to conferences. SGA has approximately \$200 in the budget not allocated.

The NSA stand against discriminatory clauses also came under fire by the campus Greeks. Pemberton explained that NSA does not have the right, locally or nationally, to tell them to eliminate the clause, but NSA does not support discrimination.

In conclusion, he noted that he has attempted to explain the organization, constitution, resolutions, finances, clauses, and benefits.

At this point, several motions were thrown on to the floor, varying from tabling the motion to limiting discussion to five minutes.

The mass confusion prompted Bob Hunt, SGA vice-president to comment, "If the SGA has ever been accused of being a Mickey Mouse group, this proves it, to turn down one motion to table a motion, then turn around and vote to limit discussion to five minutes."

Finally order was resumed and discussion was called on the motion to join NSA. Such remarks as "we can't afford it because the University is in such 'dire stress'" to "SGA is afraid to take action because it is a play toy, not too serious about representing the students," commanded the bulk of the discussion period.

After the voting was completed and the results announced, Marty Limbird, chairman of the Fact Finding and Investigation Committee, stated "this is the most educated vote we have taken concerning NSA. I hope we can reconsider this again, and not let it go the next time."

# Advertisers 'Art' Displayed on Campus

A SPECIAL advertising exhibit was on the University campus Wednesday in conjunction with 1962 National Advertising Week. Students here are observing displays.

"Let's Keep Rolling Ahead" is the theme of the 1962 National Advertising Campaign and the Advertising Club of Wichita has concentrated its efforts to present a huge local program to the public.

This year's program is under the direction of Donald K. Stephan, Bruce B. Brewer and Co., and Chuck Williams, KFH Radio. They have thought up a three-point program to educate and inform the public and explain what advertising does for them.

The main part of the program will be a moving van which will contain displays from the local television, radio, printing, newspaper and outdoor media.

## NSA CONSTITUTION

(Continued from Page 1)

United States, however, they control only a small part," was the charge made by Karen Baker, Liberal Arts sophomore.

The meeting also contained a discussion of the goals of NSA versus local representation as we know it in the SGA form of student government. It was also mentioned that the finances of the University will not support the \$130 necessary for admission to the NSA.

Wright also pointed out that KU, OU, K-State, Harvard and the University of Fla. have dropped out of the organization because of grievances and financial difficulties involved with membership.

"Also listing grievances with NSA was Northwestern University in a newspaper article dated Sept. 28, 1960 in which Kay Wonderlic, vice president of the Student Government Board who was NU's Delegation Chairman to the NSA National Convention in Minneapolis that summer stated, "I was alarmed that NU was part of such an organization."

# History Prof Wins Danforth Study Grant

Recently awarded an 11-month Danforth Foundation Grant is George A. Schultz, asst. professor of history at the University.

This grant, covering fees, tuition, and dependents' allowances, will permit Schultz to complete work leading toward the doctorate. He plans to enter the State University of Iowa, Iowa City, in June.

Schultz is one of 40 recipients of the Danforth grants, which were awarded this year throughout the country. Schultz, a member of the University faculty since 1959, is a specialist in American history. He was formerly a graduate assistant at Iowa and led a doctoral study.

A naturalized American citizen, Schultz was born in Langham, Saskatchewan, Canada and spent his first two years of college at the University of Saskatchewan in Saskatoon, Canada, and at the University of Manitoba, Winnipeg. He received his B.A. from Tabor College, Hillsboro, Kan., and was awarded his M.A. from the University.

## Summer Job Directory Available

Summer Employment Directory, which lists summer jobs throughout the United States is now available in the Student Employment Office, Fiske Hall.

## Newman Meeting

Newman Club will have its first general meeting of the semester on Sunday, at 7:30 p.m. at the Catholic Student Center, 1820 N. Roosevelt.

Rev. Patrick Holloran, S.J., Ph.D., formerly President of St. Louis University, will be the guest speaker. Father Holloran's subject is "Objectivity of Morality."

The directory gives the names and addresses of 1,367 organizations which want to employ college students. It lists positions open, salaries, and how to make application.

Students wishing summer work are urged to make application to the employers listed in the directory.

For further information concerning summer employment contact the Employment Office in Fiske Hall.

## Career Cues:

### "Whatever your major, make sure to include a course in 'people'!"

W. Emlen Roosevelt, President National State Bank, Elizabeth, N. J.

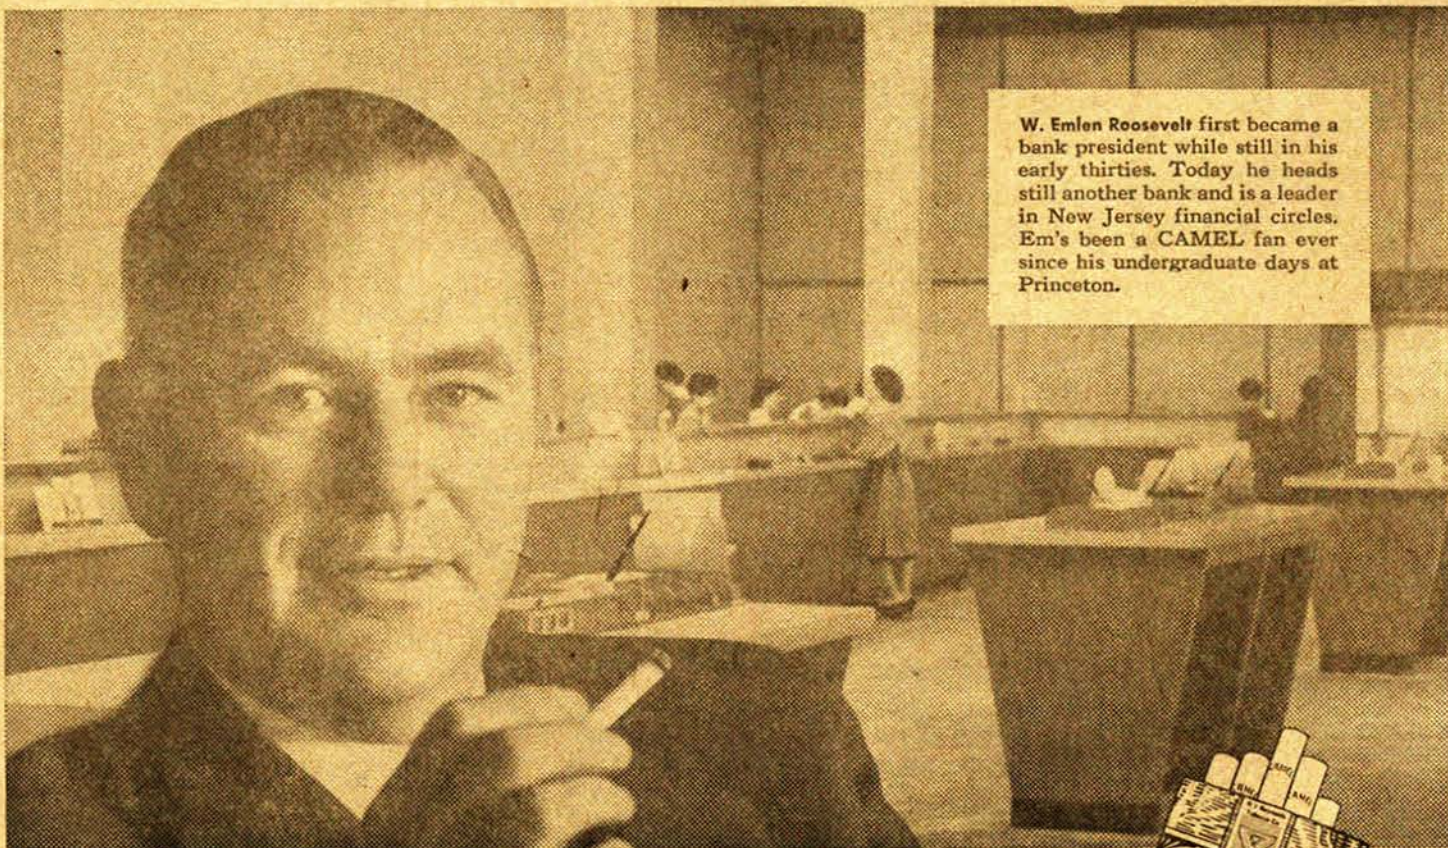

"If my college adviser had prophesied that studying psychology would some day help promote my career in banking, I'd have scoffed. Yet that is exactly what has happened. And when I think about it now the reason seems obvious. The facts and figures of banking, or of any other field, are mechanical devices. They take on real meaning

only when related to people.

"Good psychology is also the basis of all teamwork. And, since most of today's business and scientific problems are too complicated for 'one man' solutions, teamwork is essential. If you want to be a valuable team player, and a likely candidate for captain, be the person who understands people. Learn what it takes for people to work together in harmony. Learn how to win trust and confidence. Learn basic human psychology.

"Bear this in mind, too. World tension, community tension, business tension, even family tension are the facts of everyday life. The more you know of human behavior, the better prepared you will be to deal with these problems.

"So, if you have the chance, take a course devoted to 'people.' Your class adviser can probably help you fit a psychology elective into your schedule. I don't think you'll regret it... I know I didn't."

W. Emlen Roosevelt first became a bank president while still in his early thirties. Today he heads still another bank and is a leader in New Jersey financial circles. Em's been a CAMEL fan ever since his undergraduate days at Princeton.
