CONVO WILL BE HELD ON WEDNESDAY

Only All-Student Program Of Year Is Planned By Weigand

Featuring variety and outstanding campus talent, the first all-school convocation of the school year will be presented Wednesday, March 30, at 10:20 a. m. in the Auditorium.

The program will be made up entirely of student talent, student performances supervised by student directors. Marie Weigand, who has charge of all arrangements, said here this week.

Comedy Is Feature
Main feature of the convocation will be a one-act comedy farce entitled, "We Three," starring Miss Weigand, Dorothy Birchler, and Katherine Newell. It is directed by Betty Gensch.

The comedy was first presented as a project for the art of acting class. It was given before students at Robinson and Central Intermediate Schools where it was received enthusiastically.

Trumpet Trio to Play
Other features of the program will include a rendition of several numbers by a trumpet trio composed of Bob Higgins, Clifton Sprout, and Lloyd David.

The University Men's Quartet, comprised of Edwin Brimmer, Richard Schowalter, Marshall Gill, and Merik Millham, will appear, and also dancers Albert Sullivan and Dudley Tankersley will be featured in two dance routines to the accompaniment of Hilary Watts, pianist.

Martins Will Preside
Norman, Whitcomb, Magician, will be presented in a slight-of-hand performance. All numbers will be announced by Kenneth Martz, master of ceremonies.

"If this attempt, prove successful, convocations of a like nature will be presented in the future," Miss Weigand declared.

ALPHA GAMMA AND D. O.'S GET FIRST PLACE FOR PLAY

Sorosis and Phi Sig Get Honorable Mention In Contest

For the third consecutive time the Delta Omega-Alpha Gamma combination presented the best play in the annual amateur competition sponsored last Thursday and Friday nights by Omega Upsilon, national honorary dramatics sorority.

"The Striking Owl," directed by Stanley Diamond, was judged the winner on the basis of successful interpretation and general effectiveness of the play as a whole.

Honorable mention was given to the Sorosis-Phi Sigma play, "The Blue Teapot," directed by Virginia Marsh.

Faculty adviser from the student activities committee was Miss Eva Bangen, who approved the choice of judges for the contest were Mrs. Pauline Colaw Smith of Friends University, Lou Brown, and Mrs. E. H. Bounous of the Power-Myers Conservatory.

WILKIE TO HEAD ANNUAL MEETING

Dean Chosen Chairman For Kansas Convention

Dean Grace Wilkie has added the duties of general chairman of the nineteenth annual convention of the Kansas division of the American Association of University Women to her activities.

Major speaker of the convention will be Hilary Newitt, world traveler and author from London, who will discuss "Women in a Changing Europe."

Mrs. Ralph Coover, a University graduate, is co-chairman with Miss Wilkie. Other graduates actively participating in the convention are Mrs. George Findlay, transportation, Mrs. Homer Burks and Miss Edith Calk, printing and badges, and Mildred Hall, decorations.

MIKESSELL TO SPEAK AT HYGIENE MEETING

At the next State Mental Hygiene Convention, to be held in Pittsburg on April 8 and 9, Dr. W. H. Mikesell, head of the University psychology department, has been asked to appear as one of the main speakers to address the general session.

Talking on "A Standard of Living," Dr. Mikesell will be prominent in the program which includes Dr. Mendel Sherman, of the University of Chicago, and other psychologists of national importance.

Dean Grace Wilkie To Attend State Home Economics Meet
As vice president of the state home economics association, Dean Grace Wilkie will attend their spring meeting in Topeka March 25-26. She will preside at several meetings at the session, and represent the University at the convention.

'Future Slackers,' 'Anti-corsage League' Take Place of 'Veterans of Future Wars'

Membership to 'Shirley Temple Club' Much In Demand

(By Intercolllegiate Press)

The organization of a couple of years back by the name of Veterans of Future Wars which became popular in some schools of the North during the bonus march on Washington has been converted into the Future Slackers of America.

The new organization had its birth at Lehigh University and is fast growing in size. The Future Slackers of America believe there can be no war if nobody attends.

The charter members of the new fraternity have already written to authorities at the Federal Penitentiary in Atlanta, Georgia, for reservations for its followers.

Anti-Corsage League
The Anti-corsage League movement is fast growing in colleges and universities all over the United States.

At Sewanee, Syracuse, and many other schools, this movement has taken root and is working successfully.

Students at Washington University, in St. Louis, rebelling at the necessity of digging deep into their pockets at every dance time decided that this business of sending corsages to their dates for the school dance was being carried a bit too far. Therefore they started the movement to ban them.

Negro butlers of the various fraternities at the University of Alabama have formed a fraternity of their own—the Sigma King. This lodge has been established on the campus for 11 years.

Yale University has a chapter of the Shirley Temple Club, complete with buttons and photographs. There have been many demands for admission, according to reports.

'Women Haters' Thrive
Attracted by the slogan, "Woman Haters, Unite! Throw out the Bonds of the Daily Shave," 15 students have applied for membership in the Woman Haters' League of Haverford College, an organization which started with a membership of two.

The main reason for the beard-growing policy is to allow the fellows time for studying, the few weeks before examinations, rather than making dates, according to the president.

At the University of Michigan, students are rebelling at the necessity of digging deep into their pockets at every dance time decided that this business of sending corsages to their dates for the school dance was being carried a bit too far. Therefore they started the movement to ban them.

TICKET JUMP UP FOR O. K. TOMORROW

Executive Board Will Eye Demands Carefully For Forum

Depending on action to be taken by the Board of Regents tomorrow is the fate of the proposed raise in the price of the student activity ticket.

If the school trustees pass the measure, it will have cleared its first real hurdle. Then a general student election will be held to determine finally, whether the raise will be accepted or rejected, according to Charles Kinsey, Student Council president.

Originated by the council, the measure calls for a 35-cent increase per semester on each activity ticket, 30 cents of which will go to the dramatics department and 25 cents to the Student Forum.

It is believed by the supporters of the bill, that it will improve the programs of both groups and will be of much benefit to the University. For, with the added money, more and better productions may be put on by the drama department, and a greater number of famous men may be procured by the Forum as its speakers.

Although some of the organizations on the campus have voted to support the measure, there are many persons dissenting in the matter. They object that it is not fair for students to have to pay for something which they do not desire or cannot attend.

There was much adverse criticism they say, on the campus this year over a similar situation. Holders (Continued on Page 4, Column 3)

'SHOESHINE BOY' IS UP ON HIS STATES

UNIVERSITY, Ala.—(ACP)—Rufus has had few educational advantages, but he does business in and around halls of learning and likes to outsmart his customers.

Rufus as a Negro shoeshine boy who makes the rounds of University of Alabama dormitories. While polishing shoes he chatters constantly and finally inquires as to what his customer's home state is.

Whatever the answer, he then asks, "How many states is dey in dis country, anyway—bout 28?"

'WINTERSET' NEXT EXCHANGE DRAMA; HERE ON APRIL 2

Company of 18 Players Will Be in Tragedy; Prices Same

"Winter set" tragedy by Maxwell Anderson, will be the next dramatic production in the University Auditorium, presented by the University of Kansas players.

Friday evening, April 2, the company of 18 players will arrive in Wichita after a week's tour of Missouri and Kansas.

The play, by the same playwright as Wichita's production, "Elizabeth the Queen," is a plea for justice, showing the irreparable wrong done when society punishes an innocent man.

Play Has Interest
The play opens and portrays the futility of the wronged man's struggle to obtain justice. Poetry, such as was found in "Elizabeth the Queen" is the play's medium.

When "Winter set" ran in New York in 1935, it was acclaimed as one of the ten best dramas of the season and awarded the Theatre Critics' Guild's first annual award as Maxwell Anderson's contribution toward bringing about the return of poetic tragedy to the American theater. Its importance cannot be overestimated.

Different from "Elizabeth the Queen" in that it treats a modern theme, it has many of the same moving and tragic qualities.

Settings Are Original
Settings from the original K. U. production are being brought especially for performance here. Last year "Land's End" was seen here, and several actors of that play will be seen again.

Rolla Nuckles, instructor in speech and dramatic art, and Betty Butcher play the two juvenile roles, Mio and Miriamme. Prof. Robert Calderwood is the mad judge.

The University of Kansas production will be of the original tragedy as it was played in New York, rather than the film version which altered the play considerably.

Admission will be on the University's basis of 40 cents for adults and 25 cents for students.

NELSON TO TALK ON PUERTO RICO

English Prof Will Tell of Work on Island

Frank Nelson, professor of English, will speak at the luncheon meeting of the men's faculty next Wednesday, March 30, in the Pine Room of the Commons.

He will discuss Puerto Rico and his impressions gathered while teaching on the island.

This is one of a series of regular luncheons being held by the faculty every two weeks. The standing committee for these meetings includes: Prof. William H. Mikesell, Prof. Lloyd McKinley, and Don Farquharson.

FIVE JOIN DELTA EPSILON TONIGHT

Dinner and Initiation To Be Held in Commons

Seven candidates will be initiated into Delta Epsilon, honorary scientific fraternity, at a dinner meeting today in the Commons, called for 5 p. m. with initiation services to follow at 6:30 p. m.

Dean Arthur J. Hoare, president of the organization, will preside at the ritual when Anna Mae Gillett, Verma Wells, James Hamilton, Tom Fallett, William Brinnon, Lawrence Newton, and Elmore Jones will become members.

The purpose of the fraternity is to reward outstanding ability of majors in psychology, mathematics, and all physical and biological sciences.

Earl K. Hillbrand, dean of the extension division, will present a short talk at the banquet.

GERMAN MOVIE WILL BE PRESENTED HERE
"Emil and the Detectives," German moving picture in sound, will be brought to the University by the German department in the near future.

This feature, which was written by Kastner, author of the screen version "Paradise for Three" will be shown free of charge to any wishing to attend. Second semester students of German are at present reading the story which is a modern hilarious comedy.

Dr. Kurt Seppeler, head of the German department, is in charge.

FAMOUS PIANIST WILL BE FEATURE OF BIG CONCERT

Maurice Dumesnil Plans Master Piano Class At University

Maurice Dumesnil, internationally famous pianist, will make his only concert appearance in Wichita at the Minus concert to be presented in the Forum Tuesday, April 5.

Mr. Dumesnil is a former pupil of the great Debussy, noted French composer, and has written several books concerning his former teacher. One book entitled "How to Play and Interpret Debussy" and another on the "Biography of Debussy."

Nearly 150 artists will appear on the program, which is to be under the baton of Dean Thurlow Lieurance. The Minus Orchestra and Chorus will be composed of the present members of the organization as well as alumni members of the University who will return to assist—Mr. Lieurance in the huge presentation. In addition to the former members who are being added, some students of these graduates will also take part.

In addition to Mr. Dumesnil, who has but recently taken out naturalization papers for his American citizenship, Klara Seppeler will also be presented in a dance solo. Mrs. Seppeler is of the modern school and has come from her native Germany within the past two years.

The entire program is being sponsored by the Independent Business Men's Association of Wichita. Tickets will be at a nominal price.

GEOLOGY HEAD IS APPOINTED EDITOR

Ver Wiebe Will Again Have Charge of Bulletin

Dr. Walter A. Ver Wiebe, head of the geology department of the University, was last week re-elected to the editorship of the monthly bulletin of the American Association of Geologists.

The organization, holding its annual convention in New Orleans last week, selected Dr. Ver Wiebe for the second consecutive year to edit its magazine, which is the mouthpiece of its scientific research in the field of petroleum geology.

BOOKS ON JEWISH HISTORY RECEIVED

Donation Is Received from Local B'Nai B'Rith

In order to foster interest in Jewish life and history, the local chapter of B'Nai B'Rith has donated five books to Morrison Library, according to Downing P. O'Hara, librarian.

The books donated were "A History of the Jews," "The Christian Jewish Tragedy," "Jews in America," "Anti-Semitism," and "Brandis and the Modern State."

"We appreciate this gift from B'Nai B'Rith very much," Mr. O'Hara said. "We are always happy to receive books from the various organizations in the community."

Other books are coming into the library in increasing numbers. Additions have been made to the files of vocations, children's literature bibliographies, and to books of short stories. These books have been added through the general library fund and from the various departmental funds.

Another feature that has been added recently has been the "Week-end Display," which are handled by the students on the library staff. Each week one member of the staff has charge of the stack on which he may place those books he thinks will be of interest to students.

Authorities May Add Graduate Division to Teachers College
Michigan educational authorities are considering establishing graduate divisions for the state's teachers colleges.

School Adds X-ray Machine
Physicists Clyde Harrison (left), Kenneth Liggett (center), and Professor Kenneth V. Manning are shown assembling the recently acquired X-ray equipment to be used by the physics department in the study of X-rays.

Youth Can Now Tour the World For \$1 Per Day
NEW YORK—(AP)—Youth hostels, of which there are over 4,000 in Europe, are forming a fast growing movement in America. The hostel is a stopping place for walking or bicycling travelers. There young people can sleep for 25 cents and eat for 35 cents a day.

Maintained by gifts and partly by a Carnegie Foundation grant, a head-quarters at Northfield, Mass., and issues a pass for \$1 which entitles the bearer to use any youth station throughout the world. The average cost per day if you stop at a youth hostel is \$1.

Best Friends... Mary Evelyn Brincefield, left, and June Ilgner, are competing for Y. W. C. A. presidency in the election tomorrow.

BRINCEFIELD AND ILLGNER RUN FOR Y. W. C. A. PRESIDENCY

Annual Election of Local Chapter Slated for Tomorrow

Annual election for the Y. W. C. A. presidency will be held tomorrow with balloting for Mary Evelyn Brincefield and June Ilgner, nominees. It was announced at a meeting of the organization yesterday afternoon.

Ballots may be cast from 8 a. m. until noon in front of the Y. W. C. A. Room in the Administration Building.

Other candidates up for offices are Margaret Alexander and Gail Frank, secretary, and Katherine Israel and Ruth Williams, treasurer. Each officer serves a one-year term.

Girls Well-known
Miss Brincefield, who is the present publicity chairman of the Y. W. C. A., is the only junior girl on the campus here included in the 1938 edition of "Who's Who in American Universities and Colleges." She is the secretary of the Student Council and a member of both the Sunflower and Parnassus staffs.

Miss Ilgner, Pi Kappa Psi, is now treasurer of the Y. W. C. A., and president of the Pan Hellenic Council. For the past two years she has served her class as vice president.

Nominations Close Friends
Lending an unusual note to the election is the fact that the presidential nominees are the best of friends. There is no danger of a rift in the friendship, for both will be accorded the office of vice president.

Miss Alexander, secretary of Alpha Tau Sigma sorority is social chairman of the Y. W. C. A., member of the Home Economics Club and the Student Forum committee. Her opponent, Miss Frank, is program chairman of the Y. W. C. A., junior Pan Hellenic representative of Delta Omega sorority, president of Omega Upsilon national dramatics sorority, and a member of the Sunflower staff.

SOPHS ORIGINATE EXECUTIVE GROUP
Sophomores voted Monday to favor the creation of a proposed Executive Council upon which falls responsibility for non-political decisions on policies and projects of the class. The group will assemble with class officers for the first time Monday noon in the Commons.

The council will meet more often than the class as a whole, said President Sidney Martin. "It offers a case of assembly that can not be approached with a large meeting."

During the meeting a resolution providing for 15 cent class dues per semester was adopted. The money received will provide a reserve to guarantee possible losses on future parties, and at the same time build up a fund for senior class projects.

Representatives chosen to serve the remainder of the year are as follows: Ross Dennison, Dick McPherson, Stanley Hamilton, John Lewis, Margot Cloutier, Edmond Jacoby, Louis Beiden, Bob Greider, Margaret Craig, Aveline Clark, Jane Schmittler, and Sam Smith.

NEW COUNCIL WILL MEET FOR NON-POLITICAL FACTS

SCIENTISTS WILL HEAR LOCAL MEN

Kansas Science Academy Will Convene in Pittsburg

Representing the University members of the faculty and students from the zoology, botany, geology, and chemistry departments will attend the meeting of the Kansas Academy of Science to be held in Pittsburg on April 1 and 2.

The Academy, of which this is to be its seventieth meeting, was organized at Lincoln College, now extinct, in 1868, and has been a very great factor in furthering the interest in scientific research in this state. It was incorporated into a state organization in 1872. Dr. George Dean of Kansas State College is president.

18 Are Members
Approximately 18 Kansas universities and colleges are in its membership. And in connection with the academy itself there is also a junior association to which every high school in the state belongs.

Dr. Hazel Branch, head of the zoology department, will present a paper on the infective nicotine on white rats, which she, with the help of Olen Moss, has investigated. Lantern slides prepared by Mr. Moss will be shown to illustrate her talk. Dr. Charles E. Lamm, also of the zoology department, will attend the meet with Dr. Branch and Mr. Moss.

Students Attend
From the chemistry department Troy Stewart and Mrs. Agnes Nibarger will present papers on the factors involved in the acid treatment of oil wells and contraction effects observed when a certain liquid is mixed respectively. Dr. Lloyd McKinley, head of the department, and Dr. Worth A. Fletcher will accompany them. Dr. McKinley is chairman of the chemistry division of the meet.

Dr. C. C. McDonald, of the botany department, will also give a special scientific paper.

From the geology department will go most of the advanced students, as well as Dr. Walter A. Ver Wiebe, Dr. Byron Cooper, and Stewart Folk, all professors of geology.

Six News Members
Leaving here Thursday, they will attend the convention Friday, and Saturday they will continue on into Missouri in order to study some of the rocks outcropping in that state, which produce oil in Kansas. They will return Sunday.

Those making the trip include (Continued on Page 4 Column 3)

ENGLISH JOURNAL TAKES PAPER BY UNIVERSITY PROF

Outstanding Publication Accepts Article by Haymaker

Writing on mythology, a subject in which she has done much specialized work, Mary Haymaker, of the University English department, has had accepted by the English Journal an article called "Some Contrasts between Greek and Norse Mythology," according to word received here recently.

Some 5,000 words in length, it represents only a small part of the course which she offers on the background of English literature. The early historical and mythological factors from a very early period are traced down through references made to them in English literature.

Miss Haymaker discusses: The contrast that occur in the consideration of fate; the varying moral tones of each of the countries as represented in mythology; and the beauty which is found primarily in the love of the Greeks as contrasted against that which would inspire fear as prevalent in the Nordic myths.

The English Journal, "official organ of the National Council of Teachers of English," is one of the most outstanding magazines of its kind in the United States. It is published by the University of Chicago Press.

SENIORS PREPARE FOR GRADUATION

Choice Is Offered of Three Announcements

Sales campaign and orders for senior announcements will be taken starting next Monday, according to Kathleen G. Cooper, chairman of the announcements committee. More definite specifications as to time and place will be made soon, she said.

"The contract for the commencement invitations was let to the same company that had them last year," Miss Hite said. "We urge the utmost cooperation with the seniors about orders because we have certain deadlines to meet."

There are three types of announcements which may be ordered. The most elaborate of these is a black leather folder with a canary yellow thong. The other two are of white cardboard. This year's invitation is an entirely new and original design.

Prices for the three types are 38 cents for the black leather, 25 cents for large cardboard, and 12 cents for the small cardboard.

MYERS TO SPEAK TO ADVERTISERS

'Where To Find a Job' Will Probably Be '38 Theme Song for College Graduates

Students Studying Farm Methods Are Finding Employment

WASHINGTON, D. C.—(ACP)—The current recession, "about which everyone in Washington talks, but no one has been able to stop, may have an unfortunate effect upon the college students who will be graduated in June.

Every responsible official has considered ways and means of checking the business tailspin, and experts have pondered over, and attempted to alleviate, its effect on various groups from farmers to factory workers. But, unless there is a sudden upturn, this year's crop of graduates will step out in June into a world where jobs are as scarce as they were in 1932.

Jobs Hard to Find
I feel rather guilty to bring up such an unpleasant subject when the baseball season is opening up and the track team is training out-

Local Chamber of Commerce Officials Predict That Prospects of a Steady Job This Spring for Graduating College Seniors are Less Than for the Same Period in 1937.

But, "there is still plenty of opportunity for the enterprising young man and woman," James T. Lee of the chamber said. Reason given for the current outlook is that industry, affected by the so-called recession, is not eager to employ many graduates.

doors again. However, the sad truth is that the present slump over which senators have argued and to cure which various remedies have been suggested, is going to make it mighty tough for Jim and Josephine, Fred and Mary when they finish up this June.

So far as this correspondent has been able to learn, there are no governmental bigwigs studying this particular problem with a view to aiding the June graduates, although the general question of youth and jobs has attracted the attention of some of the country's wisest thinkers.

Perhaps, all of the commissions and studies and experts, however, couldn't do anything about helping

Jobs Are Likely to Be As Hard to Find As In Year 1932

young graduates until the business machine swings back into high gear. Maybe the anticipated "spring pick-up" will solve the problem before June comes and it becomes acute.

Agriculturists Find Jobs
Speaking of jobs, reminds this writer of the fact that the college students who specialize in agriculture almost always seem to find good openings. Perhaps few of them get rich, but so far as comfortable jobs are concerned they certainly seem to hit the bull's eye.

A recent trip into the farming country of the South emphasized this point. With land conservation, crop diversification and other scientific practices becoming more generally accepted, it seems that the boys who have studied these problems are in demand.

Many of them are in some form of government work, but others find good paying places in private farm operations, and it is very rare that one of them loses out because business slows down.

SEASON OF BIRTH MAY AFFECT I. Q.

CHICAGO, ILL.—(ACP)—Research by Prof. Ellsworth Huntington, research associate in geography at Yale University, made known at the University of Chicago, convinced him children born in March or late February in the United States have the best chance of achieving intellectual distinction. His data indicated persons born in March in the United States, and in countries of similar temperature, live 3 to 10 years longer than those born in July, August or September. Births of several types of weak or defective people showed a seasonal relationship very like that of eminent people.

ANNUAL FEDERAL INSPECTION WILL BE APRIL 14, 15

Koehler, McMaster Will Conduct Inspection of Local Unit

The fact that the annual federal inspection of the R. O. T. C. unit of the University of Wichita is to be April 14 and 15, was released early this week from the local R. O. T. C. office.

On Wednesday April 14, Col. R. H. McMaster, R. O. T. C. officer of the Headquarters 7th Corps Area, Omaha, Neb., will inspect the personnel and records of the local unit and also he will inspect the storage facilities of the armory.

Col. Koehler Replaces Maj. Myer. The following day, April 15, Col. G. R. Koehler, instructor of the Organized Reserve Corps of Kansas City, Kansas, will be in charge of the class recitation and field inspection.

Col. Koehler is replacing Maj. H. H. Myer this year for the inspection. For the past several inspections, Maj. Myer has conducted the field and classroom inspections.

Wichita Receives "E" Rating. For the past several years the Wichita unit has received an "E" rating which is the highest given. It means excellent and the blue star worn on the right blouse cuff signifies the "E" rating.

It is the purpose of these annual inspections for the inspecting officers to ascertain whether or not the units are meeting the government requirements. If these were to be compared to something every one in school understands they might well be called the army's final examination.

Collegiate World

(By Associated Collegiate Press)
TWO MEN students at the University of Alabama have learned that truth, like honesty, is a pretty good policy.

The other day the pair, rigged out in tennis togs, went to the university's tennis courts for a few sets. The varsity team was practicing, so the two sat down and waited more than an hour for a court.

Finally a court was relinquished and the duo hastened to occupy it. But no sooner had they begun to play than another pair approached and informed them they had come to take over the court for varsity practice.

Said one of the disgruntled pair: "We're out for the varsity too. Would you mind waiting until we finish?" Said one of the newly-arrived: "I'm glad to know you boys. I'm the coach."

NEWEST kind of collegiate journalism was held a couple of weeks ago by University of Missouri journalists students.

It was "Revelry on Rails" and was a formal affair staged on a moving Wabash R. R. train. Guests were provided with yard-long tickets covering passage and stop-overs in each of the several attractions offered in the cars of the special train.

After traveling and partying continuously for five hours, guests found they hadn't been outside the city limits!

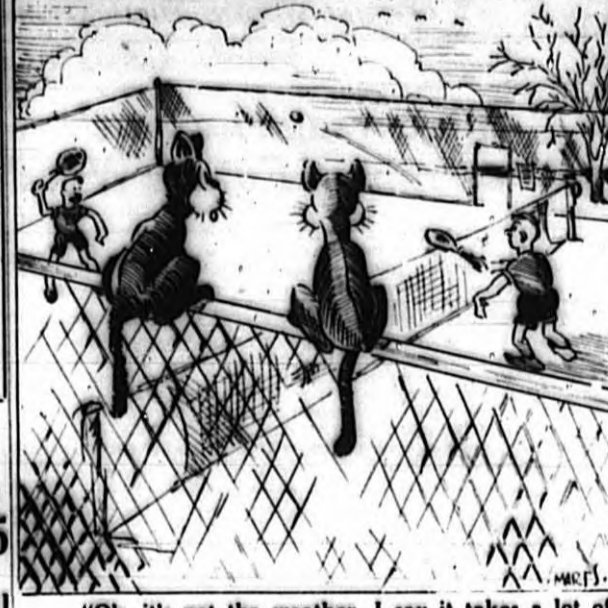

"Characteristics of Scientific Thinking" will be the subject of the speech to be delivered by Earl K. Hillbrand, dean of the Extension Division, at the dinner meeting of Delta Epsilon, national honorary science society. The dinner will be given at 8:30 tonight, March 24, in the Pine Room.

It's a fine thing. Now that it's officially spring and even the Brig needs a little fresh air, the darn windows won't stay up. In the winter you can't heat the place. When you talk about new building program, lay aside a few soups for a new Brig and we'll be your slaves for life or some such a matter.

ANY student who is interested in forming a dance band has an ideal opportunity right now. Almost every campus organization uses a nickelodeon for the spring informals—local band prices were too high to fit the college student's budget. There is about \$60 difference between the student band which has been hired for the Hippodrome and bands formerly used. I believe that if anyone would organize a band, they'd practically clean up. We've got lots of other places for our money. The music of the former bands, may be better, but it isn't 60 bucks better.

"Oh, it's not the weather. I say it takes a lot of guts just on general principals!"

Great Progress Shown By Speech Laboratory

Palmer Came Here in September, 1934, To Take Over Department

IN 1931, a government survey showed that 10 per cent of the population were speech defective. The report further indicated that no corrective work was being done in the Wichita territory.

After this study was made, Dr. Martin P. Palmer, a former student of the department of speech science at the University of Michigan, came to Kansas to make examinations of several speech-defective children. He served a year as professor of speech pathology at Marymount College, Salina.

When the cooperation of the University of Wichita with Mrs. E. M. Brown of Salina resulted in the establishment of a new department of speech science and the Flo Brown Memorial Laboratory for Speech Correction at the University in September, 1934, Dr. Palmer came to Wichita as head of the department and director of the laboratory.

Great Progress Shown
The first schedule for the department, housed in very small quarters on the fourth floor of the Administration Building, included three morning lectures each week and laboratory classes every afternoon from 1:30 to 3:30 for University students. Dr. Palmer was also doing work with adult speech defectives four evenings each week.

Besides Dr. and Mrs. Palmer, the people who worked in the laboratory during its first year were Mrs. O. J. Faucher, Mrs. Hazel Flourney, Anna Mae Gillett, June Hamilton, Harriet Behmer, Persis Minard, Vera riet McKay, Elizabeth Stippich, Setzer, Mary Elizabeth Slippich, Charles Dwyer, Guy Harvey, Courtney Osborne and Jerome Rash.

Inherits Whole Floor
Formal dedication of the laboratory took place Jan. 16, 1935, and when, following the summer vacation, the laboratory reopened in September of that year, 125 children were enrolled for speech correction. Laboratory hours were from 1 p. m. until 8 p. m.; fees were according to the income of the parent.

When, in September of 1936, the art department moved from the fourth floor of the Administration Building to its new quarters across the campus, the laboratory expanded to include the former art rooms. Between 140 and 160 children were receiving training, and the director of the laboratory, Dr. Palmer, was instrumental in the formation of a committee of public school principals who were to help

the laboratory function better in the schools. This committee found 166 children to be placed upon the waiting list. A Women's Advisory Board and a Parent-Staff Club were formed the same year.

Present Staff Larger
The staff for the present year includes Dr. and Mrs. Palmer, Jane Evans, secretary of Dr. Palmer; Mrs. Virginia Throckmorton Osbourne, Mrs. Virgil Crook Barritt, Mrs. Velma Cochran, Mrs. June Hamilton Elwell, Mrs. W. C. Wright, Betty Behmer, Jane Brosius, Lily May Clawson, Annetta Davis, Mary Ann Earl, Anne Mae Gillett, Thadine Hedges, Betty Helrick, Mary Jane Jacob, Amy Jones, Virginia McCoy, Betty Neely, Rosemary Ridings, and Courtney Osborne. Miss McCoy has charge of the weekly clinic at Arkansas City, and Mr. Osborne holds clinic two days each week at McPherson and two days at Wellington.

Save the Cash...

... in the modern Electrical Home

Mrs. Jones isn't putting money into her electrical refrigerator. She's putting food into it. But it's all the same. Her electric refrigerator is a money-saver for her, besides being a convenient, healthful and efficient appliance.

She shops on Saturdays for a big supply of bargains, brings them home and stows them safely into her refrigerator. All week long she really purchases at Saturday prices and saves money. As a bonus she gets beautiful well-preserved foods and the other conveniences of electrical refrigeration.

The electrical way of living means much to the American home. Are you making MAXIMUM use of it? It brings a thousand wonderful comforts into your life!

A Single Girl Gives Thanks for Electrical Living
"I live with my sister in a small home and our house is so smooth as the average housewife. But with the time that the electrical way of living saves us, we live quite comfortably and feel that we have a real home."

College-trained Workers May Find Good Positions

Over Abundance of Mediocre Help Leaves Room For University Trained Assistants

NEW YORK.—(IP)—After Spring a senior man's fancies turn to thoughts of graduation and where the first job will come from. For the fortunate who have "connections," the matter of employment presents no problem, but for the majority, beyond June is just a vast unknown.

A survey of firms hiring college graduates, recently completed by the placement bureau of DePaul University, shows that although there is an abundance of mediocre workers, really good office help is scarce.

The survey was made in order to prevent students from spending years preparing for a certain field only to find the profession overcrowded. Answers to questionnaires show that employers consider a willingness to work and to be taught much more essential than a thorough knowledge of the field.

Liberal Education Needed
Qualifications which personnel managers desire in applicants are a liberal education, personality, a natural curiosity, a sense of responsibility and regular attendance, persistence, and the ability to adjust oneself to the group with which one is working.

At Princeton University some degree of assistance is given seniors through the Bureau of Appointments and Student Employment, under the direction of the Graduate Council in cooperation with the university, whereby local alumni associations, vocational congresses or advisors advise and inform more strictly of an informative nature, answering the questions as to the probable future of the business, how one should go about getting into the business, what are the qualities, special abilities and training experience, to give the undecided student first-hand information in as many fields as he is interested in, to afford a real opportunity to undergraduates who lack important personal contacts.

This plan solves the problem faced on the campus, according to the director of the bureau, because there can be no one man, with only a superficial knowledge of various fields, who could successfully and adequately handle the multitude of detailed questions which would be put to him by undecided undergraduates.

Editors Neglect Placing Credit
Lines on Pictures from Eagle in last week's Sunflower, five pictures were used on the front page of the candidates and winner of the Transportation Queen contest. Through a mechanical error, the Eagle credit lines were left off them. The pictures were of Peggy Coates, Mildred Hall, Frances Radcliffe, Katherine Israel, and Dorthea Kane.

Mrs. Oliver Witterman will be the Guest speaker at a meeting of the League of Women Voters next Wednesday March 30, in the Y. W. O. A. Room.

26 NOW GETTING SCHOOL TRAINING

Practice Teaching Course Meets Requirement

Twenty-six students, majors or minors in the College of Education, have been assigned to practice teaching positions in local schools. It was announced this week by Dean Earl K. Hillbrand, head of the University Extension Division.

This course of supervised teaching is a required one for all those who desire teaching positions. Dean Hillbrand is in charge.

The following is a list of students and their assignments:

Anita Ballard, Shorthand 118, Sioux Falls; Ralph Bigford, Music 1A, Waterloo; Hamilton, Betty Crawford, English 1A, Boulton; Roosevelt, Esther Kiewer, English 1A, Waterloo; Nelson, North, Betty Genach, English 1A, Flournoy; Horst, Alan, English 1A, De Graw; North, Westamit, Roosevelt; Jack Hammit, Biology 1B, Marchant; East, Victor Henry, Psychology 1A, Rorer; East, Norma Hill-lower, Foods 1B (2), May Robinson; Alice Johnson; Maudie; Eugene Kraus, American Hist. 12A, Brown; North, Margaret Mason, Clothing, Bradley; Roosevelt, Frances McCornick, Foods 1B, 10A (1), Stephens; North Robert, English 1A, De Graw; North, Betty Neely, English 1B, Johnson; Robinson, Ernest; Nydegger, American Hist. 12A, Kemp; North, Warren Perrot, Music, Meyer; Central, Chester Scott; Alberta J. NEIGHBORING HIGH SCHOOLS ENTER IN PLAY DAY

Brown Is Chairman Of Annual Affair; Air Show Is Theme

One hundred and twenty girls from neighboring high schools will participate in the eleventh annual high school play day which is sponsored by the Federation of Women's Sports and Recreational Activities on Saturday, March 26, in the Henrior Gymnasium.

In the gym which will be turned into an airport the play day will be carried out as an air show. Alice Jane Brown, flight engineer, and her committee have planned the flight chart and made the identifications for the 12 squadrons.

Staff Sgt. Dorothy Strickland is in charge of the registration and awards, and Assistant Engineer Jane West has charge of the program. Other members of the ground crew are Mechanic Virginia Russell, first aid and check room; Flight Adjutant Audine Belford, finance; Stewardess Doris DeLaMater, refreshments; First Lt. Mary Harrison, scoring; Assistant Mechanic Catherine Sedrick, publicity; Supply Officer Dorothy Taylor, equipment; and Supervisor Evelyn A. Hinton.

The flight chart was made out by the ground crew is as follows:

10:15-11:00 a. m.—Enlistment, and a. m.—Air Circus
11:00-11:30 a. m.—Flight instructor, volunteer, ball, individual stunts
11:30-12:00 p. m.—Demonstrations
12:00-12:30 p. m.—Flight
12:30-1:00 p. m.—Flight
1:00-1:30 p. m.—Awarding of wings
1:30-2:00 p. m.—Awarding of wings
2:00-2:30 p. m.—Awarding of wings
2:30-3:00 p. m.—Awarding of wings

Brightly colored streamers will identify the different squadrons which will be named as follows: Cessna, Stearman, Wright, Beechcraft, Swallow, Travel-Air, Boeing, Douglas, Lockheed, Baniff, T. W. A., and Army B-17.

FACULTY QUINTET DEFEATS GAMMAS FOR CAGE TITLE

Overtime Period Needed To Determine Champ; Score Is 38-36

Scoring two free throws granted over a disputed personal foul, the Faculty quintet nosed out the Alpha Gam five by a two point margin 38 to 36 in an overtime period to annex the intramural basketball championship.

The faculty quintet, paced by Bill Hennigh, led most of the game. Late in the second period Bob Kirkpatrick opened up a scoring spree for the Gammas which tied the score before it was checked.

The game was bitterly contested throughout with four men needing only one more personal foul to be eligible for expulsion from the game when the final gun went off.

Intramural director Rarick reported that he was well pleased with the response afforded the tournament by the organizations on the campus but he added the faculty will not sponsor an individual team next year in intramural competition.

"It is hardly fair for the faculty to compete with students," he stated, "since most student referees work naturally by the organizations on a faculty member."

VARSITY NETMEN START WORKOUTS

Marr Calling Meeting For Tennis Men Today

New changes will be made in the tennis team set up this season according to Coach Harry Marr. If finances make it possible the varsity will include six men instead of four in most matches.

A meeting of all tennis candidates has been called for noon today for the purpose of electing a captain and to determine pairings for a round-robin prior to the first match.

"Regular tennis practice will begin this week end and by next week I expect to know which men can hold the varsity posts," Marr said. "Only two lettersmen have reported for practice but I believe that they will form the nucleus for a good squad."

The season opens April 14 against Kansas State. This trip will include matches with Washburn, K. U. Mo., St. Louis U., and Washington U. The team will leave April 13 and return April 23.

The schedule includes only two local games, the remainder being out of town matches. On May 13 and 14 the tennis and golf teams will go to Pittsburg to take part in the Central Conference meet.

PARENT-TEACHER WILL HANDLE TICKET SALE

Tickets for the Insurance concert at the Forum, April 5, are being handled over the city by the Parent-Teachers Association, and are available on the campus at the office of Dr. John Rydjord, whose wife heads the ticket sale for the Fairmount School association.

Intramural Track Foes To Mix Here Tomorrow

Meet Scheduled To Start at 3 p. m.; Holyoke Hall Is the Defending Champion

INTRAMURAL track will forge into the spotlight with a bang tomorrow with the bang of the starter's gun at 3 p. m. sharp.

At this time the intramural teams will compete for the track and field championship of the school. There will be approximately six teams vying for top honors in the 14 field and track events.

Holyoke to Defend Crown
Last year any man who had not won a varsity letter in track was eligible to compete in the meet and, although eligibility rules have not yet been announced, it is presumed that the same requirement must now be met.

The Holyoke Hall team will again be the defending champion as it has won the intramural meet the past two years. Last year Holyoke Hall amassed a total of 90½ points for first place with the Alpha Gam team placing second with 47 points.

14 Events Scheduled
The 14 events will include the 100, 200, and 400-yard dashes, 800, one and two-mile runs, the 120 high hurdles, the 220 low hurdles, the

The Sporting Thing

ONE of the most outstanding athletic events ever staged in intramural sports on this campus was the boxing tournament just completed. Coach Harry Marr deserves much honor and praise for the conducting of the matches that met with such praise from the students and business men.

The finals that were fought last Friday night were thrilling to the finish of every round. The 125-pound class was the most exciting to the spectators. Winners of the matches were Harold Schlottbauer over Bob Kirkpatrick, 128-pound class; Delois White won a technical knockout over Bill Wilson, 135-pound class; Ted Wilson over Clay Cerdas, 147-pound class; Jimmy Farrow over Morton Spector, 160-pound class; John Austin over Willard Garvey, 175-pound class, and Herschel Giles knocked out Dominic Perino in the last round of the heavyweight match.

In an exhibition match between Bill Hodges of East high and Jack Scrimpscher of North high, Scrimpscher won by a technical knockout.

Track Prospects Poor
This track situation here is going from bad to worse. The University varsity team this spring is practically nil. Of course there are a few good men on the squad especially in the 440 relay team including Farrow, Diamond, Pappin, and Christian. But a few good sprint men will not make a track team. It is decidedly absent in distance runners and field men.

If the Shockers should ever get into the Missouri Valley conference and they will some day, the athletic teams besides football, Withita U. is now positively football conscious and it is a hindrance in its gaining its much sought goal—admission to the Missouri Valley.

Even if they were in the M.V. conference it wouldn't be a credit to the Shockers to hold down the cellar position in track, basketball, tennis, golf, etc., and finish at the top in football. This is just food for thought, and after giving it a little consideration you'll agree that we are decidedly lacking in all-around sports material.

'HELL-DAY' GETS CUT AT EASTERN COLLEGE

WASHINGTON, Pa.—(ACP)—"Hell-Day," that period of physical torment which every pledge must undergo before being initiated into a social fraternity at Washington and Jefferson College, has been reduced in length from 24 to 12 hours by action of the interfraternity council.

The move, hailed as a significant step toward the complete abolition of the annual ordeal as demanded by the national offices of eight of the nine groups on the campus, was motivated by repeated protests by students, parents, faculty and administration, and townspeople.

Repeated violations, said a council spokesman, of the 24-hour rule, cut recently from a seven-day period, aggravated the situation. The motion met with practically no opposition on the part of the council members.

DINNERS FOR SENIORS AND GUESTS PLANNED

Seniors and their guests this week were invited to join the faculty in the series of open-house dinners now being held in the University Commons.

"This will allow those who are about to be graduated to mingle freely with the faculty, and to become fully acquainted," suggested Roy W. Elliott, controller, in extending the invitation.

The next such dinner will be held tonight. Thereafter, they will be held regularly every two weeks until school closes. Reservations should be made at the business office.

ALPHA TAUS DEFEAT KAPPA RHO CAGERS

Running rampant in a scoring spree the winning Alpha Tau cagers romped through their last tournament game of 1938 to defeat the Kappa Rhos by a score of 55-8 on Wednesday, March 16.

Playing in her last game for Alpha Tau, Marie Weisand rang up 10 field goals to take scoring honors for her team.

CHANCE IS FIRST IN STATE MATCH

Mary Chance, freshman in the College of Education, won first place in the women's division of the Kansas State Gallery Matches held March 20 at the National Guard Armory.

She scored 190 points out of a possible 200. The shoot was sponsored by the Wichita Station Postel and Rifle Club of the Kansas National Guard Armory. Miss Chance received a special medal as an award.

WRESTLING MEET SCHEDULED FOR MONDAY EVENING

Entries Must Be in By Friday at 5 p. m., Rarick Says

Close upon the heels of a successful boxing tournament came the announcement this week that an intramural wrestling tournament is to be held in the gymnasium next Monday and Tuesday nights, March 28 and 29.

Dr. Lawrence Rarick, who has charge of the meet, asks that a few more men sign up by Friday at 5 p. m. at the latest, as the matches will begin at 8 p. m. Monday. Examinations and weighing in will take place at 7 p. m. Monday.

Winners Get Medals
Winners of Friday night's matches will be awarded first-place medals as a reward for their achievement. Matches will be held in every weight from 116 pounds on up in which there are at least two boys entered.

This will be the first time in more than five years that such a wrestling tournament has been held at University students, and Dr. Rarick urges that all who can possibly do so turn out to watch the matches. Admission will be free.

Entries Listed
Entries to date and their weights are as follows:
135 pounds: Clay Cerdas, 145 pounds; Carl Paopetty, 145 pounds; Kenneth Neel, 155 pounds; Larry King, 160 pounds; Bob Campbell, 160 pounds; Archie Adams, 165 pounds; Harold Miller, 160 pounds; Buck Jones, 155; Bob Armstrong, 135 pounds; Merrell Kirkpatrick, 195 pounds; and George Simpson, 170 pounds.

40 HAVE PART IN BOXING TOURNEY CONDUCTED HERE

Champions Are Named in Six Weights; To Be Given Awards

For the first time in two years the University athletic department sponsored an intramural boxing tournament held here last Wednesday, Thursday, and Friday nights.

There were entries in six weights, the 125-pound class, the 135, 147, 160, 175, and the heavyweight division.

Eight Fights Wednesday
On Wednesday night there were eight fights. Thursday night the only bout was in the 160-pound class. On Friday night the finals were held in all six weights.

Results of Wednesday night's fights:
125-pound class: B. Kirkpatrick defeated E. Hodge. H. Schlottbauer defeated D. White won a technical knockout.
135-pound class: B. Wilson defeated T. Wilson.
147-pound class: T. Wilson won on a technical knockout. C. Cerdas won on a forfeit from Webb.
160-pound class: Garvey defeated Miller.
175-pound class: Garvey defeated Sullivan.
Heavyweight: Garvey defeated Sullivan.

On Thursday night in the only fight of the evening Spector won a decision over Baker.

TICKET JUMP

(Continued from Page 1)

of football tickets could not sell them and at the same time could not attend. And, they continue, there was a far greater percentage of the student body in favor of football than in favor of the forum speakers.

In counteracting this, the measure's stronger supporter argue that those who attend even as many as two plays a year spend more than the proposed increase.

It would be better, another campus group contends, if the measure were split into two parts, with voting separate on the Forum raise and on the Dramatics section. Then, they say, there would be no chance to railroad the passage by either half on the strength of the other half.

The Dramatics department has had greater support on the campus this year than at any other time in its history while the forum has not yet proved itself.

If the Regents pass the bill and OK the raise, the student election will be held within the next two or three weeks, the date to be announced later, said Charles Kinsey.

SCIENTISTS

(Continued from Page 1)

Thomas Amsden, John Carrier, Mervin Hundley, Phil Kaiser, Maurice Martin, Louis Pope, Ray Vandevanter, Kent Waddell, Heber Beardmore, Jack Davies, Bob Harbison, James Hayes, Bob Meyer, Charles Seidle, Glen Wilt, Ronald Elsbury, Dale Myer, Kenneth Nelson, Tony Pallett, Jack Firtenberger, and G. W. Speer.

from the Pio Brown Speech Laboratory both Dr. Martin F. Palmer, director, and Courtney Osborne will give papers.

This year's new official members of the academy from this University are Mrs. Nibarger, Mr. Moss, Mr. Stewart, Mr. Michaelson, Glen Gordon, a University graduate, and Mr. Osborne.

Two Local Profs Attend AAUP Meet

Two professors from the university will address groups at a meeting of the Kansas and Nebraska chapters of the American Association of University Professors which will convene in Pittsburg, Kansas, on Saturday, April 2.

Dr. John Rydjord, head of the history department of the University, will address the group on "Professional Ethics" and Dr. Hugo Wall, head of the political science department will tell the group of "Retirement Annuities."

The two midwestern chapters of the national group is meeting in conjunction with the Kansas Academy of Science.

Other members of the University faculty plan to attend.

SWIMMERS TO VIE FOR TANK HONORS

Intramural competition in the form of a swimming meet will be held at the Elks Pool Wednesday, March 23, Coach Lawrence Rarick announced today. The event will start promptly at 7:30 p. m.

"Organizations should have their eligibility lists in by Monday noon," Dr. Rarick said. He explained that swimmers may enter the competition unattached, however.

No individual prizes will be awarded but the organization having the winning team will receive a suitable trophy.

VANDAL TEAM IS WINNER IN RIFLE

Sorosis and D.O. Place; New Captains Announced

With the completion of the last of the four inter-society rifle matches Tuesday afternoon, the Vandal team, Barb group, was announced winner of the tournament.

The group won first place with a total of 1,170 points for the four matches.

Second place in the tournament goes to Sorosis with 1,157 points. Delta Omega totaled 1,147 points to finish third in the contest.

The individual having the highest average score for the four matches is automatically declared captain of next year's rifle team. Competition for the honor was keen this year: with Janet Tudhope and Corinne Bennett tying for first place. They will both serve next year as co-captains of the team.

High marks in the matches were also made by Marjorie Huey, Mary Chance, Jeanne Lewis, Lois Dobbin, Virginia Schuler, Freda Zimmerman, Audine Belford, and Alice Jane Brown.

The total for Tuesday's matches was 973. This score is the University's mark against ones made by other schools in the telegraphic matches.

GOLFERS QUALIFY FRIDAY FOR FIRST GAME ON APRIL 2

Price, Black, Turner, and Buser Are Expected To Play O. U.

Paced by Capt. Dick Price, the Shockers golfers will open their spring season against the University of Oklahoma April 2 at the Crestview Country Club court.

Although the first meet of the year, Price believes that it will be one of the toughest, if last year's meet is taken as an indication. The Shockers defeated the local squad 11 to 1 last year at the Twin Hills Course in Oklahoma City. Price was the only man to annex a point.

Qualify on Friday
Qualifications for the initial meet will be held tomorrow afternoon at Crestview to determine who will be pitted against the invaders.

The probable lineup will be Price in number one position, Charles Black, second, Ed Turner third, and Jules Buser, fourth.

Price declared however that it would be no upset if Merle Gates or Dick Barnes qualified for the varsity.

Price Outstanding

Price is one of the outstanding golfers in the city. He placed second in city competition in 1936 and has won high recognition in several tournaments in this section of the country.

The golf schedule for this season includes only three meets in Wichita. On April 13 the team will leave with the tennis squad for a ten day trip that will include matches with Kansas State, Washburn, M. U. K. U., St. Louis U., and Washington U.

Earl K. Hillbrand, dean of the Extension Division, was guest speaker at the luncheon of representatives of Civic Clubs and girls' basketball teams held Tuesday noon, March 22, at the Hotel Lassen. The subject of the speech was "Sports and National Sanity."

Call for Recruits Nets Gebert 40 for Football

'Hep, One, Two, Three—!' Resounds Spring Practice Begins

"HEP... one... two... three...!" Spring football practice is definitely under way at the University of Wichita.

The gridsters went through their warm-up drills with the thought of a trip to New York City next fall. Army seemed to be the password among the players.

13 Are Varsity Men
Thirteen of the even 40 reporting were of last year's varsity, while the remainder were of the 1937 frosh group and new men. Several new men appeared for practice.

Mr. Gebert stated Tuesday that he wished every boy in school would come out. Last week he said that if the school expected to have a successful football team more men must report for practice.

"Those who played on last year's varsity and who are out for practice include: George A. Kenny Barker, Milton Barnes, Harold Brill, Lewis Burford, Howard Jackson, Reiny Niehage, Jake Ogden, Mickey Perino, Bill Pollock, Herb Schlottbauer, Don Towell, and Bud Wells.

"Things look mediocre, very mediocre, as far as having a good football team here next fall," remarked Coach Al Gebert early this week.

Gebert said, as usual "So far in our scrimmages," said Coach Gebert, "some of the boys have looked better than others, but none of them have looked any too good. It's going to be hard work and lots of it to build a team that will make a creditable showing next fall."

There have been a few changes made in positions among the linemen. As has been changed from a guard to a tackle as has Gaydos, frog guard.

The Shockers squad has scrimmaged a few times since the equipment has been checked out, but during the next four or five weeks they will scrimmage nearly practice night.

Members from last fall's squad and the new boys were John Austin, Dell Black, Lucian Bogan, J. Robert Gail Clark, Buford Emmette Easley, Chester East, Al Herschel Giles, Harry Charles Hatfield, Clarence Dave Johnson, Wayne C. Craig Kennedy, Alex Malin Morton, Ofie Neeley, Delbert Glen Smith, Chuck Stegall, Nick Stevens, Clifton St. Melvin Vice, Larry Wallace Orman Wren.

Students, Faculty Are Asked To Attend Church Synod

To Attend Church Synod—Students and faculty members of the University are invited to attend the Synodical Conference of the Lutheran Church in America, which will be held at the Twentieth Century Club, at 2:30 p. m. on again at the University of Wichita.

The synposium will feature discussion in which one representative of each of the Catholic, Protestant and the two Newmans of Kansas will participate.

In any case more pleasure

You carry Chesterfield in your own special case... or may prefer the attractive all-weather Chesterfield package. In any case you're supplied for a day of smoking pleasure.

Fill your case with Chesterfield... for that refreshing mildness that pleasing taste and aroma so many smokers like.

Chesterfield's mild ripe tobaccos... home-grown and aromatic Turkish... and pure cigarette paper are the best ingredients a cigarette can have.
