WU Receives Federal Grant To Conduct Spanish Institute

A \$92,000 National Defense Education Act grant will underwrite the cost of the fourth consecutive Summer Institute for secondary school teachers of Spanish to be sponsored by the University, President Emory Lindquist announced.

The nine-week institute, which opens June 8, will again be directed by Dr. Eugene Savaiano, professor and head of the department of Spanish. Mrs. Henry H. Malone will serve as administrative assistant.

Dr. Eugene Savaiano

Fifty-four secondary school Spanish teachers who have attended previous NDEA institutes in the United States will be selected from applicants. Although some 4,200 language teachers will attend 79 institutes to be sponsored by NDEA this year, this group will be one of only five to study in Spanish speaking countries.

A two-week orientation period at the University will include briefings on Mexican history, civilization, and culture. For the remaining seven weeks the institute will move to Puebla, the capitol of Puebla Mexico, a city of about 300,000 located near Mexico City.

"The Institute will have four principal objectives," Dr. Savaiano said. "These are to provide an opportunity for the participants to acquaint themselves with Mexican culture through actual living situations; to help strengthen the bonds of friendship and understanding

between Mexican nationals and citizens of the United States; to improve their own linguistic skills through conversation with Mexican nationals; and to motivate them to do more inspired teaching of the Spanish language."

Staff members who will accompany the group to Mexico, in addition to Dr. Savaiano and Mrs. Malone, will include Mr. Eral Garinger, a University Spanish instructor and Kansas State consultant for modern foreign languages; Mrs. Elizabeth Jones, Spanish teacher at North High School; Mrs. Eugene Savaiano, lecturer in Spanish at the University; and Dr. Lynn W. Winget, associate professor of Spanish at the University, a specialist in linguistics and philology.

"We are extremely excited about our new Institute," Dr. Savaiano commented. "After experiencing the tremendous impact which last summer's program had on our participants, we feel that this year's group will benefit even more. The very nature of the institute presents an ideal learning situation. Being on Mexican soil provides direct contact with the Mexican populace and their culture. This cannot be duplicated in our classrooms here."

SGA Approves MVC Compact

Approval of the Missouri Valley Compact was the major item before the SGA at its meeting Tuesday evening. The congress voted unanimously won't have to wait in line so long to approve the compact which was drawn up by the student government of North Texas State University.

It involves the exchange of ideas, and talent from the campuses of the Missouri Valley Conference schools, plus a meeting to discuss the problems of the conference schools. In reports from the committees, Jim Waskiewicz, chairman of the athletic committee, reported that a booster trip for the Jan. 25 Loyola basketball game in Chicago is being planned. Total cost for transportation, a room, and a ticket to the game, will be \$44.65.

Waskiewicz was asked to look into the possibility of obtaining an additional student gate at the basketball games so that students

The subject of changing the school songs came up again. James Kerr, director of bands, has proposed three changes: a new alma mater, a new fight song, and a new victory song.

A contest would be conducted among the student body for writing these songs. Cash awards would be given. Estimated cost of the project would be \$200.

It was the general consensus of the congress that they didn't want to change the songs. But they also felt that if anyone had some good ideas for additional new songs it certainly wouldn't hurt to listen to them.

In other business three new organizations were certified by congress as being official organizations on campus. Those organizations certified were Deseret, a religious organization, Turkish students club, and Kappa Mu Psi, honorary broadcasting fraternity.

Mary Ann Hopper, executive secretary of the SGA, was appointed by Dave Leach, SGA president, and approved by congress to fill a vacancy on the CAC Governing Board.

This was the SGA's final meeting of the semester. The first meeting next semester will be Feb. 4.

Student Teachers To Meet Wednesday

Secondary student teachers for the second semester will receive their assignments at a meeting to be held at 10:30 a.m., Jan. 15, in the east ballroom of the CAC, according to Dr. Kenneth Nickel, director of student teaching.

'64 European Seminar To Offer Credit Hours

The University's Division of Continuing Education will offer to interested students a European travel seminar, which will begin June 25th and extend through August 5th, Mrs. Helen Crockett, head of Continuing Education, has announced.

The travel seminar is listed as Humanities 299, and is a 4-hour credit course, if the student wishes to take it for credit. This is the first year the University has offered credit towards this course, the reason being the high educational quality of the tour.

Students electing to enroll in the seminar will receive 4 hours of lower division credit. Although there will be no resident study period abroad, the seminar leader will supply a reading list, hold some pre-seminar and post-seminar sessions and evaluate the student's experience.

Those who wish to enroll for credit will pay a resident tuition fee of \$12.50 per credit hour or the non-resident rate of \$15 per credit hour in addition to the quoted seminar cost.

The seminar, which will be a study of foreign culture, will include observation of art and architecture in principal European cities, lectures and discussion of foreign political, social and economic problems given by foreign nationals. There will also be conducted visits to various historic places of interest.

The seminar will be under

Embassy Member To Be on Campus

Counselor to the French Embassy in Washington D.C., Geard de la Villesbrunne, will appear at an informal coffee and discussion hour sponsored by Pi Sigma Alpha, national political science honor society, at 2 p.m. Tuesday in the Political Science Building lounge, according to Joe Zentner, president of Pi Sigma Alpha.

Anyone who is interested is cordially invited to attend the discussion.

Korean Pianist to Perform With Symphony Next Week

A gifted young Korean pianist, Ton Il Han, will be the featured soloist when the Wichita Symphony Orchestra performs on Jan. 12 and 13 in the East High School auditorium. Han was "adopted" by the men of the Fifth Air Force after the Korean War and was sent by them to the Juilliard School of Music at the age of eleven.

Although he is now only 23, Han has appeared on the Ed Sullivan Show, the Arthur Godfrey Show, the Voice of Firestone and has also appeared in concert in almost every major city in the United States and Canada. The young Korean has also played for Mrs. Jacqueline Kennedy in the White House.

Dr. James Robertson will lead day.

Tickets to the concerts are available to students free of charge upon presentation of their ID cards at the music office. Times for the two concerts are 3 p.m. Sunday and 8:30 p.m. Monday.

English Students to Sell 'Souls'

Literary works of students of four English classes of Dr. Norman Gregor will be offered in a 'Souls-Penny Each' sale in the CAC Monday and Tuesday.

The essays and poems were written as a class assignment and the students were urged to write and re-write to better the work. The subjects of the poems and essays were taken from crucial events in the lives of the writers.

The poems and essays organized in four booklets will sell for 20 cents a booklet and the individual poems will sell for a penny apiece.

Profits from the "Souls-Penny Each" sale will go to a worthy charity.

One of the students, Mrs. Donniss Price won a national award with the poem that she submitted.

"This is the first time in the history of the University that such a sale has been conducted," Dr. Gregor added.

WRITE AND REWRITE was the assignment given by Dr. Norman Gregor shown helping Carol Robb and Karen Carmichael.

WU Hosting High School Debate Meet

A two-day debate tournament including ten Kansas Class AA high schools will be held on the University campus today and tomorrow, according to Melvin Moorhouse, director of the tournament.

This annual competition, directed by the Kansas State High School Activities Association, will determine the two teams eligible to compete in the state championship tournament to be held the following week.

To be represented in the upcoming Class AA tournament are: Arkansas City, Campus High School, Derby, Wichita East, Wichita South, Wichita Southeast, Wellington, Wichita West, and Winfield.

The University debate team recently saw action in the Golden West Debate Tourney held in Redlands, Calif. University debaters won a total of five debates in the Golden West Tournament with Dennis Smith and Bob Smith winning two and Bob Glenn and Keith Williamson three. This tournament is restricted to the top universities in the country and this year marked the University's first participation in it.

Peace Corps Test Slated

A Peace Corps placement test will be held at 8:30 a.m. tomorrow in Rm. 208 in the Insurance Building, 212 N. Market.

Students seeking more information should contact Marshall Williams in Rm. 213 of the CAC.

Editorial Views...

Compact Promising

We were pleased to see the Student Government Association give unanimous approval to the Missouri Valley Compact.

From all appearances this compact can be very beneficial to the universities involved as well as the conference. While providing for the exchange of talent and ideas and discussion of problems of the individual schools, it will help promote a greater cohesion among the conference schools.

As it stands now, realization of the project is in its early stages. North Texas State and Wichita are the only schools which have formally approved it. It has not yet come before the student governments of the other schools.

The compact is operative even if all the conference schools do not approve it and with the endorsement of a couple more schools the first meeting will be held this spring with Wichita as the host school.

We hope that other Valley schools, preferably all, will approve it and will actively work to make it the advantageous project that it has the potential to be.

Ed-TV to Offer New Course Pertaining to Race Relations

"Race: Myth and Reality," a course in race relations to be instructed by Richard Armstrong, assistant professor of sociology, will be offered on educational television beginning next week.

The 17-week, non-credit course will be offered at 8 a.m. each Saturday morning beginning Jan. 18 on Channel 3 and the Kansas State Network affiliated stations.

This course will acquaint the viewers with certain basic facts about heredity, environment, and social background which influence the behavior of individuals in minority and majority groups.

Topics to be covered include: what is race, psychology of race, psychology of prejudice, stereotypes, attitudes, world prejudice, comparative prejudice, anti-Semitism and anti-Catholicism, employment discrimination, school desegregation, housing segregation, block tipping and block-busting, political voting, and local ordinances.

Local, state, and national policies will be discussed by experts in special fields. Program guests will include Dr. Lowell Holmes, associate professor of sociology, Dr. David Herman, professor of psychology, Dr. Paul Swartz, associate professor of psychology, Dr. Karl Schlesier, associate professor of anthropology.

Dr. James K. Sours, dean of the College of Liberal Arts, Dr. Mike Harder, professor of political science, Carl Bell, Jr.,

Wichita city commissioner, Carl Glatt, executive director of the Kansas Commission on Civil Rights, and Dr. Donald Cowgill, head of the department of sociology.

Any interested persons may enroll in "Race: Myth and Reality" simply by sending their name and address and a \$4.00 enrollment fee to the Division of Continuing Education.

The enrollment fee will entitle the student to two textbooks, selected especially for the course by Prof. Armstrong, as well as study guides and other materials.

Between the Book Ends

"The Blue Nile"—Alan Moorehead, Harper and Row—New York—1962.

An Australian, Alan Moorehead uses a unique approach in telling history. He has written extensively about the great continent of Africa, and "The Blue Nile" is his most recent work.

In this book, author Moorehead continues work he had done previously, recounting the story of Western exploration and expansion of Africa, from 1798 through the nineteenth century.

Moorehead's book winds a trail across the continent, following four nineteenth century adventurers and explorers, seeking the source and an increasing knowledge about the great Nile River.

Moorehead notes that before these four men undertook their journeys, these lands from Lake Tana in Abyssinia to the Mediterranean had been forgotten since Roman times, or possibly never known.

The names of the four characters used by Moorehead, with the possible exception of Napoleon Bonaparte, are not vitally important. The background in which these characters act, however, did much to increase the awareness of the New World about the dark continent.

No, this book will not put you to sleep with the ease normally achieved by a history book. In fact, it reads quickly, with much fascination. If you don't like stories of adventure and battle, intrigue and murder, political upheaval with the usual blood-letting or military

planning and maneuvering, then forget about reading this book.

Its two hundred and seventy-four pages are literally packed with stories of fascinating people and places; the background of unrest in nineteenth century Africa presents an atmosphere with appealing qualities for an interested individual.

Published in 1962, "The Blue Nile" is the second of author Moorehead's works about Africa. As the author notes in a preliminary paragraph, this book is intended to compliment "The White Nile," a book dealing with later African history. "The Blue Nile" also contains over forty illustrations.

Alan Moorehead was born in Australia, but moved to England in 1937. During World War II, he was a foreign correspondent for the London "Daily Express;" he won international fame for his war stories emanating from the Middle and Far East. Moorehead more recently has served as chief public relations director for the British Ministry of Defence.

"The Blue Nile" is an interesting book, it is a pleasant way of learning.

Display in Library Features Nelson's Forthcoming Book

The full galley proof of Dr. William Nelson's forthcoming book of sources entitled "William Golding's 'Lord of the Flies'" is the latest in a series of exhibits of works by campus authors at the library. The source book by Dr. Nelson, associate professor of English, is being published by Odyssey Press, New York City.

The book "Lord of the Flies," of ism and allegory, the book has become increasingly popular. It was referred to in the "Intercollegian" as the book that has replaced "The Catcher in the Rye."

A book, "The Coral Island" published by R. S. Ballantyne during the nineteenth century, was a story in which three boys shipwrecked on a savage island rose to heights of heroism.

The two books, whose main characters share similar names, share many profound sources of comparison. Dr. Nelson's book contains numerous articles published on "Lord of the Flies" plus excerpts from "The Coral Island" which are used to illustrate the use Golding has made of the earlier book.

The display is located in the central area of the first floor.

Shockers to Battle Hurricane in Tulsa

The University of Wichita basketball Shockers will open a crucial four game road trip tomorrow night when they face the Tulsa Hurricane at Tulsa.

Tulsa, picked by some onlookers as a pre-season darkhorse in the Missouri Valley Conference race, has been having its troubles of late. Coach Joe Swank's Hurricane have lost seven games thus far including three important conference tests.

As of this writing, TU has a 5-7 record, the game against North Texas last night not counted in the totals. However, the Hurricane posted their first league win of the year over the Eagles and will be looking for their second MVC victory tomorrow night against Wichita.

If the Shockers are to get their third conference victory tomorrow night they will have to stop Tulsa forward Bill Kusleika. The 6-foot-3 senior from Duquesne, Pa., is currently leading the Hurricane in both scoring and rebounding. Kusleika has scored at a 23.4 points per game clip while averaging nine rebounds per contest.

Another TU mainstay is junior guard Rich Park. A former All-America performer at Independence Junior College, Park ranks in the top ten nationally in both field goal percentage and free throw shooting.

WU will carry a four game winning streak into tomorrow night's game and the Shockers hope to put an end to recent losses in Tulsa's Fairgrounds Pavilion. The Hurricane have defeated Wichita in three of the last four meetings between

the two squads on the Tulsa court. Not counting last night's North Texas contest, TU has won 17 of its last 18 home games and its last 10 in a row.

Wichita will pin its hopes on a balanced attack and a sticky defense. This combination has paid off in the 10 victories posted by the Shockers thus far. "Diamond" Dave Stallworth leads the WU offense with a 27.7 scoring average while senior guard Leonard Kelley and junior center Nate Bowman sport averages of 12.5 and 11.7 respectively.

On Monday, WU will journey to St. Louis to battle the league leading Billikens. After a return trip home to play the Peru Champions on Jan. 15, the Shockers will meet North Texas at Denton, Tex. and then play defending NCAA champion Loyola of Chicago.

Pick-up dates for tickets to the Peru game are Jan. 13 and 14.

Sporting Noise

By TED RINEBARGER, Sports Editor

This season's Missouri Valley Conference race is shaping up to be even more tight than so called "experts" have been predicting.

The tall and dangerous St. Louis University Billikens have jumped in front on the basis of victories over Tulsa and North Texas State at home and Bradley on the road.

The victory at Bradley gives St. Louis quite an advantage over Wichita as the Shockers have never won a basketball game in Peoria. They have a tough enough time winning at Tulsa.

The St. Louis-Cincinnati contest at Cincinnati tomorrow night could provide a key as to just how strong this Billiken squad is. Although the Bearcats have dropped three games this season, they are still regarded by many as the team to beat in this league. They should get by St. Louis tomorrow.

If the Shockers can handle Tulsa tomorrow night and get past St. Louis on Monday, their chances for the league title would seem bright indeed.

WU has the best in the conference! They have the best individual player, the best defense (Cincinnati followers

would disagree), the best sophomore, and the league's most unpredictable team.

Wichita makes liars out of those who predict the outcome of college basketball games. But this season, the "giant killers" have turned into giants!

Oh yes. This is the last appearance for this column as this reporter is among the graduating class of Jan., 1964. Its been a good four and a half years.

1964: YEAR OF DECISION

Well sir, here we go into 1964, which shows every sign of being quite a distinguished year. First off, it is the only year since 1954 which ends with the Figure 4. Of course, when it comes to Figure 4's, 1964, though distinguished, can hardly compare with 1444 which, most people agree, had not just one, not just two, but three Figure 4's! This, I'll wager, is a record that will stand for at least a thousand years!

1444 was, incidentally, notable for many other things. It was, for example, the year in which the New York Giants played the Philadelphia Athletics in the World Series. As we all know, the New York Giants have since moved to San Francisco and the Philadelphia Athletics to Kansas City. There is a movement afoot at present to move Chicago to Phoenix—the city, not the baseball team. Phoenix, in turn, would of course move to Chicago. It is felt that the change would be broadening for residents of both cities. Many Chicago folks, for example, have never seen an iguana. Many Phoenix folks, on the other hand, have never seen a frostbite.

This would not help make you NATO-minded!

There are, of course, certain difficulties connected with a municipal shift of this size. For instance, to move Chicago you also have to move Lake Michigan. This, in itself, presents no great problem, what with modern scientific advances like electronics and the French cuff. But if you will look at your map, you will find Lake Michigan is attached to all the other Great Lakes, which in turn are attached to the St. Lawrence Seaway, which in turn is attached to the Atlantic Ocean. You start dragging Lake Michigan to Phoenix and, willy-nilly, you'll be dragging all that other stuff too. This would make our British allies terribly cross, and I can't say as I blame them. Put yourself in their place. What if, for example, you were a British costermonger who had been saving and scrimping all year for a summer holiday at Brighton Beach, and then when you got to Brighton Beach there wasn't any ocean? There you'd be with your inner tube and snorkel and nothing to do all day but dance the Lambeth Walk. This, you must agree, would not help make you NATO-minded!

I appeal most earnestly to the residents of Chicago and Phoenix to reconsider. I know it's no bowl of cherries going through life without ever seeing an iguana or a frostbite, but I ask you—Chicagoans, Phoenicians—is it too big a price to pay for preserving the unity of the free world?

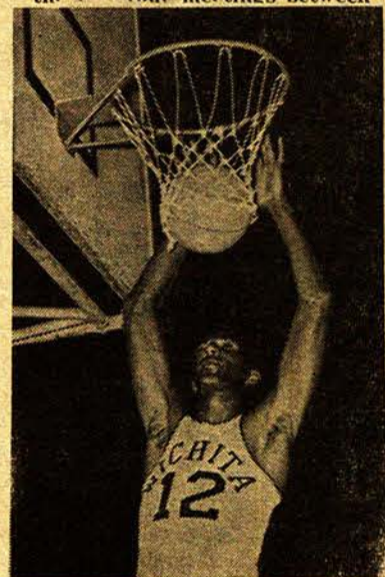

I feel sure that if you search your hearts, you will make the right decision, for all of us—whether we live in frostbitten Chicago, iguana-infested Phoenix, or narrow-lapelled New Haven—are first and foremost Americans!

But I digress. We were speaking of 1964, our new year. And new it is! There is, for one thing, new pleasure in Marlboro Cigarettes. How, you ask, can there be new pleasure in Marlboros when that fine flavorful blend of tobaccos, that clean efficient Selectrate filter, have not been altered? The answer is simple: each time you light a Marlboro, it is like the first time. The flavor is such that age cannot wither nor custom stale. Marlboro never palls, never jades, never dwindles into dull routine. Each puff, each cigarette, each pack, each carton, makes you glad all over again that you are a Marlboro smoker!

Therefore, Marlboros in hand, let us march confidently into 1964. May good fortune attend our ventures! May serenity reign! May Chicago and Phoenix soon recover from their disappointment and join our bright cavalcade into a brave tomorrow!

© 1964 Max Shulman

We, the makers of Marlboros, available in soft pack or flip-top box in all fifty states of the Union, wish to join Old Max in extending good wishes for a happy and peaceful 1964.

Ed-TV Programs to Feature 4 Interviews Music, International Students Set in January For Teachers

James Ceasar, "Tea and Conversation," and the "Enterprising Society" of Sweden will be featured on three University educational television programs Sunday.

"Ideas in Action" will present at noon Sunday on Channel 3 four foreign students and two American students with host Richard Meyer, director of educational television.

On this first television presentation of "Tea and Conversation" Meyer will explore the inner-most feelings of foreign students, and discuss the various experiences of these visitors from abroad.

Appearing on the program will be Australian graduate student Stephanie Pidgeon, Iranian students, Al Raisdana and Manoucher Amin-Madani, a Nigerian student, Mike Akpe, and Janet Caldemeyer and Shanda Lear, American students.

A surprise appearance will be made by "Wee Georgie" Wood, noted star of stage, screen, and the BBC.

The idea for "Tea and Conversation" came from the University International Club's weekly social gathering with American students.

"Music Time" will present James Ceasar, professor in violin, who will play solos composed by famous violinists of the 18th, 19th, and 20th centuries. The program includes "Variations" by Tartini,

Wieniowski's "Romance," and "Polanise in A Major" and "Vieneze Caprice" by Kreisler.

The show will be aired at 12:30 p.m. Sunday on Channel 3.

"The Enterprising Society" is the topic of the "Face of Sweden" presentation at 10 a.m. Sunday. To show the structure of Swedish economy and to give a picture of modern industry in Sweden, this program follows four men through a work day. Since Sweden's population is too small to support a mass market, the narrator points out, her industry must sell in foreign markets with emphasis on quality not quantity.

Representatives from four school systems will be on campus to interview future teachers during January the director of Teacher Placement announced today.

Today, a representative from the Lawrence, Kans., school system will interview teachers for openings at the elementary level; junior high school, common learnings (core curriculum trained, speech and English); and senior high school, French, Boys' P. E., and social studies.

Jan. 13, Garden Grove, Calif., grades 9 to 12; Jan. 14, Racine, Wis. and Jan. 29, Wichita Public Schools.

Interested future teachers should make appointments with the Teacher Placement Bureau, Rm. 223, CAC.

Psychology Students Honored

The top ten students in both Psychology 111 classes were designated for awards recently by their professor, Dr. N. H. Pronko, head of the psychology department.

In selecting the top ten scholars from his classes, Dr. Pronko compiled total points from his three exams and chose the first ten of 450 students.

Receiving the awards were Phyllis Rowland, Emogene Lewis, Teresa Deeds, Sandra Isenberg, Stanley Shuuts, Kendra McKibbin, Cheryl Olson, Robert Irwin, John Smith's, Orr's Inc. and Buck's. Shaw and Katherine Brown.

Tonight's Flick To Be Comedy

"Gentlemen Prefer Blonds" starring Marilyn Monroe, Jane Russell, Charles Coburn and Elliot Reed will be the two-bit flick at 8 tonight in the FAC Auditorium, according to Marshall Williams, assistant director of the CAC.

Two show girls, a blond and brunette, embark for France on the luxurious "Ile de France" seeking rich husbands, or at any rate the diamonds which are "a girl's best friend." The pursuit of millionaires and rocks takes them into a Parisian police court, but the two sirens' resources are ample for any occasion.

There will be no two-bit flick Jan. 17, because of finals. Friday, Jan. 24 the flick will be "When Comedy Was King;" Friday, Jan. 31 it will be "Stalag 17;" Friday, Feb. 7 it will be "All the Fine Young Cannibals."

CAC Chess Club To Sponsor Meet

The chess tournament "Chess For Fun" will be sponsored by the CAC Chess Club at 7 p.m. tomorrow in the CAC, according to Leo F. Edgington, president of the club.

Unlike the traditional chess tournament, contestants will not be required to record each move and no game may take more than one hour. There will be an entrance fee of \$1.25.

The winner will receive a one year membership in the United States Chess Federation, including a subscription to its magazine, Chess Life.

**THERE
WILL BE
AN EAGLE
ON THE
MOON**

Our world-recognized trademark—"the P&WA eagle"—has been identified with progress in flight propulsion for almost four decades, spanning the evolution of power from yesterday's reciprocating engines to today's rockets. Tomorrow will find that same Pratt & Whitney Aircraft eagle carrying men and equipment to the moon and to even more distant reaches of outer space.

Engineering achievement of this magnitude is directly traceable to our conviction that basic and applied research is essential to healthy progress. Today's engineers at Pratt & Whitney Aircraft accept no limiting criteria. They are moving ahead in many directions to advance our programs in energy conversion for every environment.

Our progress on current programs is exciting, for it anticipates the challenges of tomorrow. We are working, for example, in such areas as advanced gas turbines... rocket engines... fuel cells... nuclear power—all opening up new avenues of exploration in every field of aerospace, marine and industrial power application.

The breadth of Pratt & Whitney Aircraft programs requires virtually every technical talent... requires ambitious young engineers and scientists who can contribute to our advances of the state of the art. Your degree? It can be a B.S., M.S. or Ph.D. in:

- MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL and NUCLEAR ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE or APPLIED MECHANICS.

Career boundaries with us can be further extended through a corporation-financed Graduate Education Program. For further information regarding opportunities at Pratt & Whitney Aircraft, consult your college placement officer—or—write to Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Connecticut.

SPECIALISTS IN POWER... POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.
