SOAR: Shocker Open Access Repository

Additional information: The University's institutional repository SOAR is in production from 2007. Its current holding includes 13,400 titles of the university student and faculty scholarly works accessible worldwide. Annually, over a million users view and download SOAR contents. See more information at: <https://soar.wichita.edu>

Welcome to SOAR: Shocker Open Access Repository!

SOAR is the institutional repository of Wichita State University. The purpose of SOAR is to make the University's digital scholarship available to global audience and to serve as a reliable digital storage. SOAR has a dual function of a publication platform and a digital archive. University faculty and staff are invited to publish research works, data, or documents in SOAR. For more information contact: soar@wichita.edu.

instructors

Jardina, Jo Rain; Chaparro, Barbara S.; Abdinnour, Sue (IGI Global, 2021)

Companies produce increasing numbers of textbooks in electronic format (e-textbooks) for use by students and instructors. One would be remiss, however, to think that university bookstores are not filled with hard copies ...

Forward Together: A montly newsletter, April 2021

Muma, Richard D. (Office of the President, 2021-04)

Can video games help prevent violence? An evaluation of games promoting bystander intervention to combat sexual violence on college campuses.

Potter, Sharyn J.; Demers, Jennifer M.; Flanagan, Mary; Seidman, Max; Moschella, Elizabeth A. (American Psychological Association, 2021)

Objective: Several studies have documented sustained changes in knowledge, attitudes, and bystander behaviors following participation in bystander intervention programs to prevent sexual violence on college campuses. ...

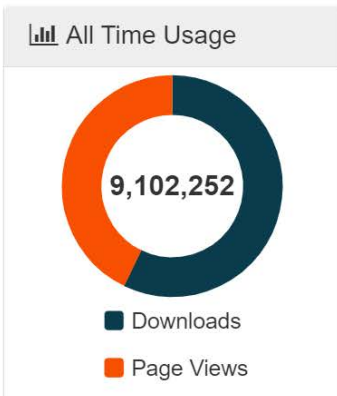

Studying execution time and memory transfer time of image processing using GPU cards

Asaduzzaman, Abu; Jojigiri, Srinivas; Sabu, Thushar; Tailam, Sanath (IEEE, 2021)

With advancements in technology, the size and quantity of captured images to be analyzed are rapidly increasing. As the number of pixels in an image increases (more than 20 megapixels), additional processing power is ...
