## NEELY WILL BE IN NEXT PRODUCTION

### 'Penny Wise' To Be Given Here on April 21, 22 In Auditorium

Betty Neely has been cast in "Penny Wise," a smart comedy chosen for the spring presentation by the University Players April 21 and 22.

Prof. George D. Wilner, director, announced that the cast of seven includes some of the most talented actors on the campus in roles suited to their individual ability.

Opposite Miss Neely as her play-mate, Gordon, will be Stanley Diamond.

Lansdowne, Reser Cast  
Ladies out of his past are Tina, played by Katherine Lansdowne, and Martha, played by Mary Elmer, who played the title role in "Elizabeth the Queen."

Virginia Marsh will play the part of the girl who is the threat to Penny's happiness. Katherine, George Batka as Jeff and Stanley Schuler as Commissioner Dunn complete the cast.

Written by Jean Ferguson Black, "Penny Wise" was presented last spring in New York, where it was an annual liked by Mr. Wilner.

Comedy Is Popular  
"It was a popular comedy during the war," he said, "and should prove equally entertaining to the University audience."

It is this play that will be presented at the University of Kansas next week following its production at the K. U. Players will present their production of "Winterest" by Maxwell Anderson as their part in exchange on April 2.

## U. K. U. DEBATE HELLS AUDITORIUM FOR CONVOCATION

### Defies Moorehead, Maloney

When the gentlemen from K. U. and the ladies from W. U. last Friday for the annual convocation, the fur flew and the atmosphere roared.

Resolved: That college men and women should not marry before the age of 25 if the man is not earning \$1000 a year, was the question for which students packed the auditorium.

Although the spirit of debate shone and the spirit of argument was strong enough to capture the largest convocation audience of the year.

Senior Dean Moorehead and graduate student Martin Maloney presided at the convocation and the bankbook and birth certificate as criteria for marriage.

Phonograph records, Margaret Craig and Norman Albert Zimmerman upheld woman's right to be supported in the manner to which she is accustomed.

While logic and sound refutation were given, the spirit of argument was strong enough to capture the largest convocation audience of the year.

## History Professor Sees Austrian Coup As Logical Step in Europe's March

### Austria Was Restricted By Her Neighbors, Rydjord Says

To many persons, Germany's recent move into Austria may come as a shock but to the qualified observers of contemporary history the declaration announcing union with Germany comes as a natural step in the progress of European history.

Dr. John Rydjord, head of the history department of the University, in a recent interview said that this move would have happened much earlier but for restraint placed upon Austria by her neighboring nations.

"Following the World War," said the history professor, "only the German portion of Austria remained of the old Austro-Hungarian empire which had existed for so long solely because of the Hapsburg rulers."

Three Courses Open  
Austria had only three courses from which to choose her way, according to Dr. Rydjord. These included, first, joining with her for-

Dr. Rydjord, above, head of the University history department, has long been recognized as an authority in his field. His remarks on the current European situation are of universal interest.

### France Applied Pressure To Foes in Treaty Of Versailles

particularly from France, for existence. "The first avenue was quickly dispelled because of an intense nationalistic feeling in Austria which would not permit her to join her enemies," he said. "They were prohibited from joining Germany in any kind of bond because of France's fear of a strong Germany. France accomplished this prohibition by the Treaty of St. Germaine and in part by the Treaty of Versailles."

Big Loans Granted  
"The third course of action was therefore adopted and France with the Allies granted loans to Austria almost equivalent to subsidies to keep them independent."

In the opinion of the history professor, Mussolini and Italy also were instrumental in preventing the joining of Austria and Germany because of a strong alliance between Austria, Hungary and Italy. "Today," said the professor, "with an overwhelming majority of Germans within Austrian borders, the recent move fits in with Hitler's selected program which carries one main objective—'Unite all Germans under one flag.'"

## PALMER WRITES ONE CHAPTER OF RECENT VOLUME

### Speech Correction He and Gets Many Articles Published

In a recently published volume, "Surgical Diseases of the Mouth and Jaw," which is the work of Dr. Earl C. Padgett, professor of clinical surgery at the University of Kansas School of Medicine, the chapter entitled "Re-training of Cleft Palates" was written by Dr. Martin Palmer, head of the speech science department at the University of Wichita.

Dr. Palmer became interested in Dr. Padgett's work at the University when several cleft palate cases were sent to him from the speech correction laboratory here.

Thesis Is Published  
"The latest annual edition of 'Speech Monographs,' published by the National Association of Teachers of Speech, contained another article by Dr. Palmer entitled 'The Cardiac Cycle as a Determinant of Energy Distributions in Speech.'"

This was Dr. Palmer's doctoral thesis on which he obtained his degree summa cum laude at the University of Michigan.

Writes on Stutterers  
Accepted for publication in the Journal of Speech Disorders is the article, "Sex Differences in the Cardiac Rhythm of Stutterers," which contains material from two years of research work done by Dr. Palmer and Anna Mac Gillett.

The article makes a comparison of heart rates and regularity of heart beats of stutterers with those of normal speakers. It is taken from a study of stutterers who were being re-trained in the Flo Brown Memorial Laboratory.

Wants Broader Scope  
With the series of eight discussions led by nationally recognized authorities in their fields behind it, the Student Forum now wants a broader scope of activity and influence. They are seeking aid in the form of an appropriation from the student activity fee.

Findings of a committee, composed of representatives of the nine Greek organizations and the Barbs, were that each of these organizations as well as the Student Council itself favors the proposed addition to the student activity fee.

Support Needed  
Under Stanley Diamond, chairman, Jeanne Carr, Ruth Williams, Henry Amaden, Sidney Martin, Alexander, Margaret Craig, Gail Frank and Hubert Steele compose the committee.

This universal student support, if put in effect next year, will enable the organization to obtain the best available speakers, it was said. Putting the Student Forum on a budget basis will eliminate also the possibility of running expenses beyond the actual income from the erratic attendance experienced this term. It was believed.

University of Nebraska Has Odd-Working Students There  
Thirty-two students at the University of Nebraska are working their way through school by scraping bones of prehistoric animals for the university museum.

## SCHOOL PURCHASES GOLD MINE—IS NOT A FOOTBALL PLAYER

### SANTA ROSA, CALIF.—(ACP)—The Santa Rosa Junior College believes it is the only college in the world that owns a gold mine.

It was bought for the college recently at a tax sale for \$2.85 by Jesse Peter, the institution's geological curator, and will be "worked" by students studying mining.

There's no gold in the mine, so students will have no get-rich-quick incentive to study.

## AHLBERG IS NEW SECRETARY FOR STUDENT FORUM

### Campus Group Wanting Broader Scope Of Activities

Taking over the Student Forum group leadership for next year will be Clark Ahlberg, executive secretary, Sidney Martin, treasurer, and Henry Amaden, recording secretary.

Elected by students attending the final discussion meeting last week these officers succeed Thornton Steele, Stanley Schuler, and Ray Snodgrass.

## COUNCIL TO PULL FRESHMEN FROM \$35 DANCE DEBT

### Last Week's Party Goes Into 'Hole'; Appeal Gets Results

Student Council members tendered a helping hand this week to the freshman class upon its appeal for funds following failure to make a financial success out of its party held last Saturday night.

In President Al Sullivan's report on the freshman party to the council, a deficit of \$35 was revealed. There was immediate necessity for paying the orchestra, it was said.

Upon a move by Clark Ahlberg, the council seconded and passed a resolution to lend the underclassmen \$30 with the stipulation that they do "everything in their power to pay it back before the end of the school year."

New Council Policy?  
No absolute provision was made, however, requiring that the class loan be repaid.

Blue Key was previously refused financial assistance in January when its off-campus Finality Dance failed to completely make expenses. In this case, however, a special assessment was made by all Blue Key members, and the debt was abolished.

No definite mention was understood to have been made this week whether or not the council would continue in the loan business.

Council Meets Today  
At the council meeting Tuesday noon, Friday night's varsity was ruled out.

Also, the council approved the Political Science Club's move to affiliate with the national Phi Sigma Alpha organization.

Another council meeting is scheduled for today noon.

## Proposed 'Diagonal' May Make Population Problem

### Negro People May Migrate Toward Hill Section; Road Would Cost About \$200,000

RESIDENTS concerned with a foreseen migration of Negro population toward the northern College Hill district with the construction of a proposed diagonal road to the University of Wichita, are assured the aid of the Wichita Real Estate Board in any action for the general good of the section.

"The Wichita Real Estate Board will be glad to cooperate in any movement for the general good of the area involved," declared Charles M. Allen of the Southwest Building and Loan Company and president of the board.

Although the real estate group had not discussed the matter in formal meeting, the statement is seen as representing the attitude of the body.

## HIPPODROME DATA GIVEN BY LEADERS

### Annual Carnival Will Be Held on April Fool's Day on Campus

Campus enthusiasm mounts steadily as plans get underway for the annual Hippodrome to be staged Friday, April 1, from 7:30 p. m. until midnight in Henrion Gymnasium and the University Auditorium.

The Hippodrome, named from ancient Greek celebrations comparable to our modern circus, has come to be traditional on the campus here and is made possible through the combined efforts of the local "Y" groups. It is said to be the only University social function combining all campus organizations in a cooperative project.

Four to Give Skits  
Four organizations have expressed desire to present skits and to operate booths, concession stands or raffles, according to General Co-Chairmen Margaret Branson and Catherine Dedrick of the Y. W. C. A.

Entertainment will begin with a 90-minute program in the Auditorium comprised of skits by two sororities, Sorosis and Epsilon Kappa Rho, and two fraternities, Alpha Gamma Gamma and Webster.

Neely, Milbourn Preside  
Betty Neely, president of Alpha Tau Sigma, and Max Milbourn, Alpha Gamma Gamma and managing editor of The Sunflower, will play prominent parts in the program as mistress and master of ceremonies and will fill in between acts with entertaining and unique antics and bits of campus gossip.

A 12-minute time limit will be placed on all skits, and order of presentation will be determined on the basis of scenery used and will be announced at a later date. Miss Branson, director of arrangements for skits, said this week.

Judges Kept Secret  
Considering originality, smoothness of presentation, and cleverness of setting, three unannounced judges will select the winning skit in both the sorority group and the fraternity group, and an officer of each of these groups will be awarded a \$5 cash prize for the organization.

At 7 p. m. the celebration will be transferred to a festively decorated carnival setting in the gymnasium. Booths and dancing will be major attractions.

This year more organizations have applied for booths than at any other time in the history of the school. Miss Dedrick reported.

15 to Have Booths  
Organizations that will feature this type of entertainment are Phi Upsilon Sigma, Pi Kappa Phi, Delta Omega, Pi Alpha Pi, Alpha Tau Sigma, Alpha Phi Omega, Blue Key, Barbs, Y. W. C. A., Y. M. C. A., Women's Federation of Sports and Recreational Activities, French Club, Art Club, and the freshman class.

With judging based on originality, artistic beauty, and obvious amount of time spent in preparation, the best decorated booth will be awarded a cash prize of \$2. Judges will not be revealed until the winner is announced.

(Continued on Page 4, Column 2)

## PROFESSORS O. K. USE OF 'PONIES'

### CHAPEL HILL, N. C.—(ACP)—"Ponies," used fictitiously by generations of school boys, have taken the mantle of respectability.

Interlinear translations of language texts is part of a new method of teaching language advanced by Dr. Mona Spahn, Iowa State University German professor. It is outlined in a book, "Interlinear German Reader" and has been approved by the board of governors of the University of North Carolina Press where it is being printed. Most of the board are faculty members.

The reader has printed below each line of German a literal translation.

## LOCAL POLITICAL SCIENCE CHAPTER SOUGHT BY BODY

### Six Men Send Petition to Headquarters of Pi Sigma Alpha

Through the efforts of six men the University of Wichita will be represented in national collegiate political science circles by virtue of their becoming charter members of a local chapter of Pi Sigma Alpha, national political science fraternity.

The group, including Elder Gunter, George Schuch, Stanley Schuler, Stanley Diamond, Hubert Steele and Warren Watkins, drafted a petition Friday asking a charter to establish a chapter of the fraternity here.

The group selected Mr. Gunter to serve as president. Other officers included Mr. Schuler vice president and Mr. Watkins secretary-treasurer.

The criteria to which present and future members are subjected, said Mr. Gunter, in order to become members include a "C" average in all college courses, a "B" average in political science courses and 10 hours of political science courses one course of which must be junior-senior hours.

Headquarters of the fraternity are at Louisville, Ky.

## ALLMAN SPEAKS TO CIVITAN CLUB

### Hitler's Move in Western Europe Is Analyzed

Four reasons why western powers do not stop Hitler were given by Prof. Leo W. Allman, head of the journalism department, in his speech to the Civitan Club Tuesday noon at the Allis Hotel.

"First western powers are unprepared for war," said Professor Allman, and interference might conceivably lead to war; secondly, England and France have been paralyzed by a bad conscience which grew out of their knowledge that the post-war treaties were at least in part unfair and indefensible.

In the third place, class politics has kept England aloof, and that has been quite evident in her attitude toward the Spanish situation, he added. And lastly, England has money and worldly wisdom. She prefers to sit back and let the barbarians fight it out.

Professor Allman will discuss a group of elementary school principals next Monday evening, March 21, at Wichita High School East.

## POLITICAL STUDENTS TO FORM NEW PARTY

### WASHINGTON—(ACP)—Students members of Pi Sigma Alpha, honorary political science fraternity at Washington and Jefferson College, not satisfied with present governmental and political conditions have laid the ground work for a third party.

The fraternity has branded capital gains and surplus profits taxes as discriminatory and not progressive, and advocates their abolition.

They also advocate the extension of Civil Service "within reason." Compulsory arbitration of labor disputes is scored for its "Fascistic tone," and other "undesirable characteristics."

## PLAY CONTEST FOR CAMPUS GROUPS TO OPEN HERE TONIGHT

### Six Fraternities and Sororities To Give One-Act Dramas in Competition To Win Plaques

Strictly amateur competition is the keynote for the five one-act plays to be presented today and tomorrow at 7:30 p. m. in the Auditorium under the sponsorship of Omega Upsilon, national honorary dramatics sorority.

Just as the pairings were decided by lot so was the order of presentation. This evening, Sorosis-Pi Upsilon Sigma, Alpha Tau Sigma-Webster, and Pi Kappa Psi-Pi Upsilon Sigma will present plays in the stated order.

Tomorrow Delta Omega-Alpha Gamma Gamma and Epsilon Kappa Rho-Pi Alpha Pi will present their plays after which the judges will announce the best play and present the Omega Upsilon plaque to the winning combination.

Full Program Tonight  
"The Blue Teapot," by Jean Lee Latham directed by Virginia Marsh, will be the Sorosis-Pi Upsilon Sigma production with Jeanne Carr, Jean Watson, Danny Toniz and Noble Whiting in the cast. "Goodnight Please," a comedy (Continued on Page 4, Column 2)

## DUMESNIL TO BE HEARD ON FORUM MUSIC PROGRAM

### April 5 Is Date Set For Concert by School Music Groups

To appear in an elaborate program which Dean Thurlow Luceance will conduct at the Forum, April 5 Maurice Dumesnil, French pianist, will be in Wichita and available to students of the University during the concert week.

Mr. Dumesnil, who has specialized in the interpretation of the works of modern composers such as Debussy, Ravel, and Granados, has been heard in concerts and lectures over the NBC network.

Each spring Dean Luceance presents the Minnis chorus and orchestra in a formal concert.

This year the program being arranged will include in addition to the appearance of the entire Minnis company, performances by Mr. Dumesnil, Mrs. Clara Sepmeyer, dancer, and the ballet, the Cavalier Cadets and the R. O. T. C. Band.

## PUBLISHER TELLS OF SALES TRICKS

### Jones Speaks to Allman's Advertising Class

Psychological tricks in the art of salesmanship were discussed by Charles Jones, publisher of Downtown Wichita, in Prof. Leo W. Allman's survey of advertising class last Monday at 9 p. m.

"No matter what occupation or profession one follows, he should be acquainted with all the little psychological peculiarities common to our American people," he explained.

Salesmanship is but a battle of wits and the man best qualified to match those wits is the one who is destined to win, Mr. Jones said.

"Always we are selling something," he said, "even if it be but our own personality."

Carrying a sale through its four stages—attention, desire, conviction and action—as he learned them while working for the Chicago Photography Company, which is said to be the training school for more advertising men than any place in the country, Mr. Jones continued by saying that the principal reason for failure of college students or other young and unexperienced men starting as salesmen is their inability to attract attention.

## EXCESS 'LIBERTY' IS SEEN IN ARTS

### St. John's Prexy Believes Drinking Is Next

You can learn to be anything from a policeman to a homemaker if you look through the vocational display now exhibited in the main lobby of Morrison Library and under the direction of Downing P. O'Harra, librarian.

The vocational files have been opened for the display and all occupational books have been put in one place instead of being filed by departments. The display will be kept as a regular part of the library from now on, Mr. O'Harra said Tuesday.

Books Purchased  
New books are being purchased with regularity.

Some are bought from the general library fund, while others are purchased with department funds.

Mr. O'Harra is keeping a record of all books checked out from the exhibit.

He said that although the display has been up only a short time, there is an increase in the number that are being checked out.

Have Three Types  
The books are of three types; those which deal with many vocations in one volume; those books which discuss related vocations; and those which contain one particular vocation. There are pamphlets, magazines, and indices, as well as books, in the display.

The indices will serve as a "buying guide," as well as reference material," according to Mr. O'Harra.

Phi Beta Kappa Chapter Was Founded at Capital College  
The first District of Columbia chapter of Phi Beta Kappa was installed last week at George Washington University.

## Mildred Hall, Sorosis Choice, Succeeds Dorothy Shawver as University Transportation Queen

### Candidates Feted at Luncheon; Leaders of City Attend

Mildred Hall, Sorosis, was chosen Transportation Queen at a luncheon meeting held yesterday in the Spanish Room of the Hotel Wagon.

In a radio broadcast from 12:30 p. m. until 1 p. m. short speeches by the judges and the selection of the queen were heard from the setting.

Miss Hall, told of her selection as the "mild" was, at the same time, presented with a beautiful bouquet, a silver loving cup, and a book of 100 complimentary bus passes. Among the telegrams which were read during the presentation, was one from an artist who declared she would be glad to do a portrait of Mildred.

Miss Hall will be hung in the sorority house. The shirt and tie she will wear have her name added to and will be hung in the sorority house for at least one year.

This is the third year in which the Transportation Company of Wichita has sponsored the choosing

of a queen from representatives elected by the sororities of the University. Kathryn Emery received

the honor in 1936, and Dorothy Shawver was named queen in 1937.

The young women who represented the other Greek organizations of the campus were Peggy Coates, Delta Omega, Katherine Is-

rael, Alpha Tau Sigma, Dortha Kane, Pi Kappa Psi, and Frances Radcliff, Epsilon Kappa Rho.

Judges of the contest were Harry Blazier, W. J. Van Wormer, Jr., G. M. Wallingford, Mrs. Schuyler Crawford, Paul White, and Rene Gaudin, Arch Booth, War-

James T. Lee.

# FOLK READY FOR BOATLES ON FACULTY

## Rigg Vacates Place To Take Position With Oil Company

Arriving in Wichita by plane last Friday morning, Stewart H. Folk, new geology and mathematics instructor at the University, immediately took over all the classes of Robert M. Rigg, formerly "flying prof" of the school here, and also part of Dr. Walter A. Ver Wiebe's, who is in New Orleans this week.

The new professor, who obtained his bachelor's degree from Baylor University, Waco, Texas, in 1936, and his master's from the University of Iowa last January, was working as laboratory assistant in the Iowa school when he accepted this new position.

He also has temporarily stopped work toward his Ph.D. Last year he won the Frank Lowden prize, an honor awarded the outstanding first-year graduate student in geology.

While in Baylor, Mr. Folk worked on the ground water studies for the United States Department of Agriculture.

He has also done special field research for himself.

In the University of Iowa he was a classmate of Dr. Byron N. Cooper, also of the University geology department, and Dr. Lawrence Rarick, head of the physical education department.

Mr. Rigg, who last week accepted a position for three years in Egypt with an oil company, left Wichita Saturday night.

Sailing from New York within the next week, he will go to Hamburg, Germany, then on to Paris. From there he will fly to Alexandria, Egypt, to begin his work.

## Ver Wiebe Attends Louisiana Meet

Dr. Walter A. Ver Wiebe, head of the geology department of the University, is now attending the annual convention of the American Association of Petroleum Geologists in New Orleans.

The meet, three days of which will be devoted to the reading and discussion of special scientific papers, also will include numerous and interesting field trips and entertainments, according to Dr. Ver Wiebe.

One of the trips will be to the salt and sulphur domes of Louisiana and Texas. Another will be the inspection of oil drilling in the Gulf, a mile from shore. The longest of the field trips will be a two-week tour, for those who desire to go, to investigate certain oil fields of Cuba. An airplane trip over the Mississippi delta is also planned.

Long a member of the association which was organized in Oklahoma in 1917, Dr. Ver Wiebe has been, for the past year, editor of its monthly Bulletin, looked upon as one of the foremost scientific magazines in the country.

## the Last Add

By Kathleen Hill

REPORTS from the various campus organizations last week were to the effect that the enlargement of the activity ticket, is meeting favor with at least part of the student body. The reason for the increase was stated two weeks ago as being for the use of the dramatics department, the debate team, and the Student Forum.

The first two mentioned are departments of the University and should get enough money to do their jobs properly. The dramatics division is a new addition to the campus. It does not do anything but excellent productions here—yet it is granted but one trip per annum. The debate team goes all over the state, and yet it gives very few debates here for student and faculty consumption. Student Forum is a newcomer to campus organizations. It does not do anything but the school—that is, to the part of the school which is interested in current affairs. The question that arises is, should it be treated as any other campus organization, or should it be given a position of its own, money that is contributed by many students who have no interest in the group? These points, I think should be considered and put to a student vote before action proceeds further.

To whom it may concern: "Dean" get excited over the steaming and sputtering of the shallow pot; its capacity is small and it boils dry quickly. I find that somewhere once and in view of recent personal quibbling, it seemed more than applicable.

THE RESULTS of the plague contest which was sponsored recently by the management of the Commons fountain room are up for approval. Charles Dunn, who designed and made the crest, is to be lauded to the end. There are some feelings among some students, though that the idea behind the whole thing or that which will inevitably grow out of it, is distinctly unwholesome and inhumane. The fact that the building itself is for ALL students of the University, has been evident for the past year, and justly so. Why, then, should booths be reserved for members of various Greek organizations and what's left can go to the Barbs? Maybe some think that such would not be the case. But it seems so. The idea of displaying crests and banners in the fountain room is an excellent one. It will make the place more decorative and definitely more collegiate. Those organizations which have already won the right to display their crests over booths would do well to start off by not monopolizing them and to exclude no one from their private property.

Colleagues of Dr. I review books for ladies' clubs; Davis are making much over the professor's ability to get stuck in a city to the northeast. All signs point to a bad case of St. Louis Blues. Make what you will of it.

## SPRING WEATHER FAVORS DISEASE

Infantile Paralysis Aided By Mild Climate

Mild temperatures and frequent rainfall of the early spring of 1938 are, according to a local orthopedic surgeon, greatly conducive to the development and spread of poliomyelitis, or infantile paralysis.

The disease, with its consequent deaths, crooked backs, and distorted arms and legs is much dreaded by members of the medical profession.

A recent measure in the fight for the prevention of poliomyelitis is a nasal spray developed by Dr. Charles Armstrong and W. T. Harrison of the United States Public Health Service.

The spray, piperic acid, sodium alum is obtainable at any pharmacy. Experiments have shown, however, that the formula of the originators of the product should be followed for the most effective results.

Vaccines for the treatment of infantile paralysis are still in the experimental stage. The American Medical Association advocates more intensive study of the products before their widespread use is endorsed.

Apprentices in local government services have been established by the University of Pennsylvania.

# BOARD OF DEANS ANNOUNCES HIGH RATING STUDENTS

## All Colleges Pick Upper 10 Per Cent; 97 Is Best Average

Continuing a policy inaugurated in 1935, the University Board of Deans yesterday announced the names of students ranking scholastically in the upper 10 per cent of each college and class for last semester.

The highest grade made during the term was 97, and the lowest of the ranking 10 per cent was 88. In 1937, the first year the grades were announced, according to the registrar's records, the highest grade was 94.

The names in alphabetical order, but not according to grade, are:

- COLLEGE OF LIBERAL ARTS AND SCIENCES—Freshmen**
- Bridgman, Ida
  - Christman, Alice
  - Dyer, Marjorie
  - Pringle, Virginia
  - Pink, Martha
  - Fulton, Robert
  - Hart, Jerome
  - Johnson, Joseph
  - Hill, George
  - Lawman, William
- Sophomores**
- Archer, Betty
  - Becker, Robert
  - Brown, Mary
  - Carroll, John

## CONTRACTS WILL BE LET MAR. 25

Student-life and Pictures Are in Catalogue

Completing plans for the new university catalogue, contracts are expected to be let for the printing of it either March 25 or April 1, according to Roy W. Elliott, controller.

The catalogue of which 1,500 will be published and which will be used for the next two years, will be smaller in size and more compact than the last issue. Following a new trend in this, it is expected to be more attractive and more modern looking. Also it will be more readable and more interesting to the newcomer to the school.

In supplement to it, a photo bulletin is being arranged although plans for it are not definitely completed. It will picture the various departmental activities and student life on the campus.

The publication will be less formal than the other catalogue, and is intended to follow a magazine style. All the departments will help with the journalism department and with the president in assembling the information.

Dean Frank A. Neff heads the committee which has charge of the catalogues. Other members include Dr. Earl K. Hillbrand, Dr. Earle R. Davis, Dr. L. Hekhuis, Dean Leslie B. Sipple, and Dr. Worth A. Fletcher.

## UNIVERSITY BULLETIN

Notices for publication in the University Bulletin should be presented at the editing desk not later than 3 p. m. on the day before publication.

## NO VARSITY

There will be no varsity Friday evening, March 25 as previously scheduled.—Charles Kinsey, council president.

## RULE LOST

Lost: A Japanese slide-rule in a black case somewhere on or near the University campus. Name is on the back of the rule. Finder, please return the rule and case or call 2-1134.—Bob Christian.

## COLOPHON

A meeting for Colophon is called for Friday at 8:30 a. m. in the Pine Room.—Jim Armour, president.

## LOST

A half-pearl Sorosis pin belonging to Gloria Cummings. Finder please call 4-780 or the Brig.—Gloria Cummings.

## FOUND

A Saeffer Jr. fountain pen. Owner may have same by calling at the Brig and identifying.—Max Milburn.

## DEMOCRATS

Members of the Young Democrats Club will meet for luncheon at noon Wednesday, March 23, in the Pine Room annex.—Stanley Schooler, president.

## 4-H CLUB

The Collegiate 4-H Club will meet in the Y.M.C.A. room today at 7:30 p. m.—Graham Almond, president.

# Shocker Shots by Marts

Should bear skins be tolerated on the American college campus?

## Fairmount Grad in India To Return to U. S. Soon

Dr. Hekhuis and Dean Wilkie Recall Former Student and Coach of Old Fairmount

MISS GRACE WILKIE, Dean of Women, has recently received a letter from Mrs. Marie Dixon Buck, 1916, of India. Mrs. Buck and her husband planned to sail from Bombay, India, Feb. 12, and to arrive in New York about March 2.

Mrs. Buck's home in Kansas is located at Derby, Kansas. She married Mr. H. C. Buck, former coach at High School and at Fairmount College. They have been in India for about fifteen years and Mr. Buck became interested in the Y. M. C. A. at Madras.

## Training School Established

By 1923 a Y. M. C. A. Training School of Physical Education had been developed with government help. Many of the governmental officials became interested in the venture and Mr. Buck was finally able to locate the school, now a Y. M. C. A. College at Saidapet. He is at present the head of the college.

Is Accomplished Woman  
"Mrs. Buck" says Dr. L. Hekhuis is a dynamic, vivacious bundle of energy with a very attractive personality. She possesses the rare gift of a sympathetic understanding of other people and she has an accomplishment of fact.

Through all her work Dr. Hekhuis further stated, Mrs. Buck has always possessed that touch of human kindness that makes her one of God's gentlewomen.

Was Campus Leader  
She was one of the foremost women on the campus in her day.

## WRIGHT RECOVERS FROM CAR CRASH

Professor's Car Damages Are Set at \$250

Prof. S. W. Wright is apparently little the worse for an automobile accident last week which damaged his car to the extent of \$250.

Bruises and shock seem to be the only injuries sustained by the economics professor when the car driven by G. Irick collided with his car at the corner of Murdock and Market streets last week.

Police absolved Mr. Wright from blame and charged the driver of the other car with speeding through an intersection.

## DEAN IS ON PROGRAM HONORING PRESIDENT

Dean Earl K. Hillbrand, head of the University Extension Division, will deliver the main address at a dinner Friday night, March 18, which is a part of the celebration commemorating the 25th anniversary of Dr. W. A. Brandenburg as president of Kansas State Teachers College at Pittsburg.

He also will act as representative of the University, and has been delegated to extend greetings from the school here.

Dean Hillbrand Will Speak At Rural Relations Dinner  
Tuesday evening, March 22, Earl K. Hillbrand, dean of the extension division, will address the members of the West Side Business Men's Council at their Rural Relations dinner. Each member of the council will attend and have a rural acquaintance as his guest.

The subject of the dean's speech will be "Our City."

California Students Go To College Daily in 4,654 Cars  
At the University of California at Los Angeles, 7,846 students drive to college daily in 4,654 cars.

# NELSON IS ASKED FOR ADDRESS BY LANGUAGE GROUP

## School Is Honored; Prof Gets First Invitation in Recent Years

Indirectly bringing nationwide attention to the University, Dr. Frank O. Nelson, assistant professor in the English department, will present a paper before the Modern Language Association at their 1938 annual meeting to be held in New York City.

The English professor was notified of the honor by Prof. Axel J. Uppvall of the University of Pennsylvania.

It is believed that Dr. Nelson has the distinction of being the only person from the University to appear before that group in recent years. This group is composed of scholars in the fields of English and post-classical European language and literature.

The title of the paper which the local professor will present before the group during the 1938 Christmas holidays is "The Trojanna Saga and the Dating of Romantic Influence in Iceland." The presentation will deal with the twelfth century Icelandic story of the Trojan war which was written from an extant and lost Latin source. The English professor while working on his doctor's degree at the University of California completed much research on such literature.

Dr. Kurt A. Sepmier, head of the German department, Dr. Earle R. Davis, head of the English department, and Dr. Nelson, attended last year's meeting which was held in Chicago.

## TWO RECEIVE GIFTS FROM ORGANIZATION

Mary Evelyn Brinefield junior, and Esther Mullikin, junior, each received a \$12.50 gift yesterday from the Colonial Dames of Kansas.

Mrs. Brinefield is a member of the Board of Student Publications, Matrix, honorary journalism sorority, the Y. W. C. A. cabinet, and is secretary of the Student Council.

Miss Mullikin is a member of the Commercial Club and Kappa Delta Pi. Both women, however, are engaged in additional University activities.

The award was made in recognition of outstanding scholarship and activity records.

## Speech Class Has Luncheon Series for Speech Practice

Experience in speaking combined with pleasure in the innovation classes of Prof. C. C. Harrison began today.

The eleven o'clock class will meet today for luncheon in the Pine Room, and will be conducted by toastmistress Hazel Bullock, who was elected by her classmates to preside. Other sections will follow this example of giving luncheon speeches in an appropriate setting next week.

## "Elephant Boy" Heads Double Bill at Civic

Rudyard Kipling's "Toomai of the Elephants," an interesting story of India is made into an amazing film production under the title "Elephant Boy," and is the main attraction at the Civic Theatre Sunday on a double bill program, with "Vogues of 1938." This film is quite out of the ordinary and is an outstanding and constructive animal picture with an unusual plot. Settings and scenery are most appealing. The magnetism of the big game hunt with its attendant hazards, adds greatly to the picture's fascination.

## THE SEVEN DWARFS

# Grad Gossip

Mahlin in Chicago—Boyd Mahlin, 29, is living in Chicago and for the past two years has been associated with the law firm of Scott, MacLeish and Volk. Mrs. Mahlin is the former Wanda Spray, former University student.

Several Alumni Located—Addresses of several of the University alumni were learned this week following receipt of their letter to Paul Henderson, treasurer of the alumni association. Alumni are E. Austin, Chicago; Earl B. Vore, Cedar Vale, Kan.; Barbara Clason, Benton, Kan.; Elizabeth Reese, Mashaska, Kan.; Frances Tucker, Wichita; and Warren Ed. McCre, Hastings, Neb.

California Alumni Meet—Far removed from the University of Wichita a group of alumni have banded together in Southern California and now ask information of any former University students that have taken up residence there. Walter W. H. Schwedler of Long Beach, Cal., writes:

The Southern California U. of W. alumni had a fine reunion at Linn Beebe's (Ruth Hersey) at San Marino, Calif., last October. May I we have another get-together with a breakfast and all-day meet and program down at Newport-Balboa beach. This year to be some event, and would like to see any old Fairmounters or others join us. Would appreciate the names and addresses of any recent arrivals on this land of opportunity. We plan to meet twice a year hereafter. We see to it that Miss Clough is with us, so you old-timers may know that we're something really worthwhile when we meet. Let's either naturally or show off our new cars and other achievements since we've had the old "Dump," the "Speechhold," and other historic meeting places of old Fairmount. Yeah, we'll see the Sunflower and hope that will not die either naturally or naturally. Them's the sentiments of all the gang.

Miller Transferred—Ed Miller, graduate of the College of Education, has written to Dean Earl Hillbrand of the Extension Division that he has been transferred to Kelly Field in San Antonio, Texas. He has been training in aeronautics at Randolph Field.

## Collegiate World

GET a picture of night life at college," barked the professor to his evening journalism class at Baldwin-Wallace college.

Results showed that the professor had reckoned without their canny knowledge of college night life.

More than one shot, said the professor, was hurriedly destroyed by the developer when the target became too apparent. One young man, wearing only a smile as he polished his teeth, nearly swallowed a toothbrush when the flash lamp blazed suddenly.

The assignment was designed to give students a realistic touch of newspaper life.

CHARLIE MCARTHY, the "2 by 4" "Great Lover" is a favorite of Hunter College seniors, who prefer tall, dark and handsome men according to a questionnaire answered by 100 seniors.

Other qualifications of the ideal man indicated by students were: A sense of humor, wealth and intelligence.

More than one-third of the class chose President Roosevelt as the greatest living man and Mrs. Eleanor Roosevelt as the greatest living woman. Prof. Albert Einstein took second place.

## THE SUNFLOWER

Vol. XLIII, No. 26 Thursday, March 17, 1938  
Published each Thursday morning during the school year by the students in the department of Journalism of the Municipal University of Wichita, Kansas, as second class matter, September 24, 1918, at the postoffice at Wichita, Kansas, under the act of March 3, 1879.

Member of the Associated Collegiate Press, publishers of the Collegiate Digest, and a member of the College News Service. The Sunflower is one of the oldest student publications in the State of Kansas, having been founded in 1898.

Subscription by mail in the United States is \$1.50 per school year. Advertising rates as furnished upon request. Address: The Sunflower, University of Wichita, Wichita, Kansas; or phone 3-8635.

BOXERS COMPETE IN SECOND NIGHT OF FAST TOURNEY

Second Round Bouts To Start at 8 p. m. in Gymnasium

Second round eliminations in the intramural boxing tournament begin today at 8 p. m. in the men's gym.

The first round was run off last night and the final championship bouts will be held Friday, March 18, at 8 p. m. in the gym.

About 30 men weighed in and submitted to physical examinations prior to the first matches held yesterday.

The bouts tonight and Friday will be three two-minute rounds each. Twelve bouts are to be held in the championship matches. Officials are Red Shadon, Ox Whitney, and Owen Hitchings. Professor Bieto will be time-keeper.

Several participants and runners-up of last year's tournament will take part in the matches again this spring. Elimination bouts will be fought with 10-ounce gloves and the final matches with 8-ounce gloves. Winners in each class will be awarded medals, according to Coach Marr.

Favorites in the tournament are Clay Cerdas, Danny Tontz, Harold Schlotthauer, Ted Wilson, Jimmy Farrow, and Dominick Perino.

VANDALS DEFEAT PI KAP TEAM IN TUESDAY'S GAME

Alpha Tau Wins First By Scoring Over Delta Omega

In a fast game of few fouls and "alaphappy" passing, the Vandals downed the Pi Kaps with the close score of 15-13 in an inter-society basketball game on Tuesday, March 15, at 8:30 p. m.

Maxine Woodman, flashy Vandal forward, took scoring honors with 13 points, Virginia Fair, Pi Kap forward, who sank four charity tosses, is now in the lead in the individual free throw points.

Alpha Tau clinched first place in inter-society basketball by knocking off a 24-17 win over the Delta Omegas in a game Wednesday, March 9, at 7:15 p. m. Doris DeLaMater and Martha Barrett, Alpha Tau forwards, shared scoring honors with ten points each. DeLaMater now leads the tourney in individual points for field goals with Bobbie Braley, Pi Kap, in second place, and Maxine Woodman, Vandal, in third.

The Vikings were defeated by the Vandals with the score of 17-13 in a game Wednesday, March 9, at 6:15 p. m. The Vandals who have tied one game and lost one are now in second place.

Games scheduled for Wednesday, March 16, are Alpha Tau vs. Kappa Rho at 8:15 p. m. and Delta Omega vs. Vikings at 7:15 p. m. When Sorosis and the Vandals clash next Tuesday, March 22, at 4 p. m., second place will be definitely decided. Third place is practically a foregone conclusion with Sorosis, Delta Omega, and Pi Kap in the competition.

Three Practices Left The last of the inter-society games will be played on Wednesday, March 23, with Delta Omega fighting it out with the Pi Kaps at 8:15 p. m. and the Vikings meeting the Kappa Rho's at 7:15 p. m.

There are only three more opportunities to get in practices for the required six to get credit for participation in a major sport. These will be tomorrow, Monday and Wednesday of next week at 3 p. m.

The other requirement for participation credit is playing in at least three-fourths of the tournament games.

Standings Announced Team standings at this point in the inter-society basketball tourney are as follows:

Table with columns: Team, W, L, T, Pts. Rows include Alpha Tau, Vandals, Sorosis, Pi Kap, Delta Omega, Vikings, Kappa Rho.

Roosevelt and Thomas Rate as Best Statesmen in Vote President Roosevelt and Norman Thomas were rated highest as American statesmen in a mock election held by a politics class at Reed College. The balloting was held to show the method of counting votes under proportional representation.

NOTICE! ICE HOCKEY FANS

During All Championship Play-Off Games We Will Observe the Following Slightly Increased Scale of Prices:

Rarick Is Successful In Conducting Program

Intramural Program to Be Extended Next Year; 250 Participate

HAVING successfully directed the physical education department this year, Dr. Lawrence Rarick, physical education director, is already making plans for the coming year.

"Next year I hope to have a better program than we had this year," he said. "I would like to add soccer, basketball, badminton, basketball, free throwing, and better facilities for handball. Of course yet this spring we will have a track meet, softball, horseshoes, tennis, golf, and I hope we can have an intramural swimming meet."

This is Dr. Rarick's first college position, having previously taught two years at Ransom High School, Ransom, Kansas, several years ago. Ransom is located about 50 miles southwest of Hays, Kansas.

His undergraduate work took him to three colleges, namely, the University of Kansas, University of Colorado and he graduated from Fort Hays State Teachers College after collecting three letters in basketball. After obtaining his Bachelor of Arts degree with a major in General Science and a minor in Physical Education, he taught his major in the Ransom school and coached the basketball team. He was quite successful with his two teams as he won the championship in the W. K. E. A. (Western Kansas) league one year and was runner-up in the league the other year.

In his second year there, he started football. In the first year of football in the school he won as many games as he lost.

"I received my master's degree at Fort Hays State and majored in Chemistry. At the University of Iowa, where I received my doctor's degree, I majored in physical education and minored in physiology and hygiene," he said. "You see

with my major of General Science for my bachelor's degree I have quite a varied college program behind me.

Season Is Success Dr. Rarick has had a most successful season in the intramural program here this year. Tennis, ping pong, touch football, handball, volleyball and basketball have all had their days in the program thus far.

Many boys have been attracted to the intramural program. I would estimate that around 75 boys participated in touch football, 60 in tennis, both singles and doubles, probably a hundred in volleyball and about 120 in basketball," Dr. Rarick said in regards to the number of men in the University had participated in intramural so far this year. "Of course they will overlap as some of the boys will go out for every sport.

Two Games Discarded "Then there are those who entered in the ping pong and handball tournaments which we had to discard. I would believe that nearly 400 boys have participated in intramurals this year."

Dr. Rarick said that trophies were to be given to the winners of each sport in the intramurals with individual medals to be given to the individual winners. The trophies will be held by the organization for one year and then given up to the next winner. A large all-sports trophy will be presented to the organization amassing the largest number of points during the whole intramural program.

HIPPODROME

(Continued from Page 1) announced Friday evening, Miss Dedrick said.

Plan Campus Movie Under the direction of Martha Barrett and Katherine Israel, a movie featuring an all-campus cast will be presented by the Y. W. C. A. Estes group.

"The plot has not yet been decided," said Miss Barrett, "but the movie will be completed sometime next week."

Bob Hollowell's 11-piece campus orchestra will furnish music for dancing and accompaniment for the sorority and fraternity skits.

Assisting Miss Branson and Miss Dedrick are June Ilgner, Mary Evelyn Brincefield, Ruth Williams, Marguerite McClell, Janet Tudhope, Marjorie Royer, Mary Jean Shaff, Doris DeLaMater of the Y. W. C. A. and John Boyle, Phil Pennington, Harold Jeffries, Gilbert Stout, and Lewis Crum representing the Y. M. C. A.

General admission for the entertainment will be 25 cents and five cents for the booths.

PLAY CONTEST

(Continued from Page 1) directed by Mary Elsie Reser and aided by Jack Chapman, will represent Alpha Tau Sigma and Men of Webster. Eleanor Woolley, Marie Weigand, Lisbeth Carney, Max Feldner, Dickie Brash, and Ernest Bloss compose the cast.

"It's Good Medicine," directed for Pi Kappa Psi and Phi Upsilon Sigma by Margaret Craig, will complete tonight's bill, with a cast including Dortha Kane, Martha Daniels, and Wallace Wilkins.

Own to Shrick Tomorrow evening Delta Omega and Alpha Gamma Gamma will make their bid for the prize for the third consecutive time as a team. They present a mystery, "The Shrieking Owl," directed by Stanley Dickson, maxine Setter, Bud Gould, Edmund Jacoby, Kent Waddell, Charles Dunn, and Don Small will take part.

Finally, Epsilon Kappa Rho will present a domestic comedy, "Tub Trouble," directed by Frances Radcliff and Jack Hammitt. Ramona Branson, Frances Johnson, Grace Kinsvater, Dorothy Tennant, Bill Pine, Bill Gentry, Bob Hegler, and Sidney Martin will play the roles.

Amateur Acting Tested Trying to break the charm of the election held by Delta Omega and Alpha Gamma Gamma is expected to spur every other combination to do its best to win the prize.

With a student director, amateur players, and one appropriate setting assembled from available stage equipment, each play will demonstrate the dramatics society's belief that amateur dramatics on the campus can be worthwhile.

The Sporting Thing

By Charles E. Poe THIS time of the year baseball seems to creep into the minds of men. It would be a cinch to work up a winning hardball team here on the campus, with such fellows as Dennison, Gawthrop, Chub Johnson, Brill, Blue, and Ogden, who played in the National Semi-pro Baseball tournament held at Lawrence stadium last year. A schedule could be arranged with any number of Universities and would create much interest.

This intramural boxing tourney, which Coach Marr has whipped up is really something. It has created much interest on and off the campus, with business men down town enjoying last night's matches very much. The admission to the thrilling to watch as the boys swing fast and furious, drawing a bit of blood now and then. I suggest that you spend Thursday and Friday watching them in Henrion gym for they are every bit as interesting as those staged at the Forum.

Spring football is once again under way. Many of the gridiron flashers are in suit and working hard. But only one thing bothers me and that is how several supposed stars expect to perform in top shape and continue to spend time in certain night clubs. I can't print names, but so help me—it's true.

Next Monday the faculty quintet will tangle with the Alpha Gamma five in the school championship game in basketball. It should be a good clean ball game with the faculty ending up on the long end of the stick.

Season Is Success Dr. Rarick has had a most successful season in the intramural program here this year. Tennis, ping pong, touch football, handball, volleyball and basketball have all had their days in the program thus far.

Many boys have been attracted to the intramural program. I would estimate that around 75 boys participated in touch football, 60 in tennis, both singles and doubles, probably a hundred in volleyball and about 120 in basketball," Dr. Rarick said in regards to the number of men in the University had participated in intramural so far this year. "Of course they will overlap as some of the boys will go out for every sport.

Two Games Discarded "Then there are those who entered in the ping pong and handball tournaments which we had to discard. I would believe that nearly 400 boys have participated in intramurals this year."

Dr. Rarick said that trophies were to be given to the winners of each sport in the intramurals with individual medals to be given to the individual winners. The trophies will be held by the organization for one year and then given up to the next winner. A large all-sports trophy will be presented to the organization amassing the largest number of points during the whole intramural program.

DIAGONAL ROAD

(Continued from Page 1) jokers Monday the fact was stressed that the movement already pronounced "he said, "the opening of a new highway would cause migration at an unprecedented rate, which intelligent citizens should take cognizance of. Race relations in Wichita are likely to remain very harmonious, because leaders are broad-minded in their views."

Highways Cause Change New arterial highways cause a redistribution of population, according to the University authority. It is stated further, however, that the city would never find land cheaper, and the road would serve as a good community tie.

In 25 years the increase in the value of property would pay for the cost of its construction," Dr. Croft added.

This was one point pressed by persons interested in the highway construction. Some believe this increase in value would automatically restrict the neighborhood while others believe the population is too firmly entrenched.

Approximately one-half mile in actual distance is saved by the proposed road from the Central Avenue and Hydraulic intersection to the University.

The project, estimated to cost about \$200,000, was said by some students here to be an unwise expenditure, inasmuch as an economic should be exercised at this time.

SMALLER PAPER

(Continued from Page 1) connected with the Sunflower from 1922 to 1925 as a columnist.

"I believe it's true that after so long a time we become used to a thing and anything contrary to it may seem wrong," said Mrs. Marcellus Lyman Harness, 25, who at one time wrote a column for the Sunflower.

James T. Lee, 37, last year's first semester editor-in-chief, voiced a hearty approval of the half-size issue.

Geraldine Hammond, 31, who was editor of the Parnassus in 1931 and often connected with the Sunflower, felt that the large size paper was to be preferred.

Jeanne Carr, junior, said, "The University is ready for a larger paper as far as contents is concerned and I believe that the tabloid size paper would allow a more gradual increase in size."

"Staff Did Well" The staff of the Sunflower is to be congratulated, for last week's edition was a swell piece of work—if you like tabloids," said Dr. Earle R. Davis, head of the English department. "A high standard which might be impaired by the change."

Important among the many comments were those made by M. Alice Linsley, reference librarian, who said, "At first glance I was very much pleased with the small size edition and my only objection would be from a librarian's viewpoint that the issue offers a difficulty in binding in as much as the other editions have been larger."

Miss Linsley has in her office a complete file of every Sunflower that has ever appeared since its founding.

"My only objection," said June Ilgner, junior, "is that the comparative size between the advertisements and the stories makes the news stories seem small."

Dr. Frank G. Nelson, professor in the English department, found that "the size of the last week's paper is preferable because of its ease in handling, and it seems the logical size for college newspapers."

Elder Gunter, senior, voiced his approval by saying, "Although tabloids to some may be objectionable, last week's Sunflower was entirely desirable."

Rockseller Visited Institution He Aided Only Twice in His Life John D. Rockseller, who gave the University of Chicago more than 24 millions, visited that institution only twice in his life.

TRACKMEN CHECK OUT EQUIPMENT AND BEGIN WORK

Hopes Run High as Good Speeds Are Shown in Time Trials

With chances looking better this year than they have for the past five years, Track Coach Harry Marr has his endermen hard at work each day preparing for the opening meet in the Sterling Relays, April 9.

While the varsity track team will be noticeably weak this season in the field events, they look exceptionally strong in the dashes, distance runs, and the relays.

Bob Christian, Jim Farrow, Harold Priddle, and Herbert Schlotthauer are the men Marr is counting on strongly to lead the pack down the home stretch this season.

Christian also has the responsibility of coming in first in the quarter-mile dash. Stanley Diamond and Phillips Kiser are Marr's hopes for wins in both the high and low hurdles. While it will be up to Henry Amaden to garner points in the 800-yard run.

Buck Jones and Malcolm Campbell are both experienced pole vaulters and will again this year be the Shocker entries in this event.

Since the days of Harold Manning (Olympic runner), the University has not had a track team that was a threat to anything or anyone. But not so this year, if pre-season potentialities materialize.

Schedule Is Good A schedule has been arranged this year that will probably include participation in some of the nationally known meets such as the K. U. Penn. and Drake Relays.

It is to these meets that the cream of America's collegiate track teams come.

Air officials of 20 states, at their recent convention, urged land grant colleges to give flying instruction.

GOLFERS TO MEET IN GYM AT NOON

Golfers planning to go out for the varsity golf team this spring are urged to meet in the boys' gym today at 12 o'clock sharp for a short but important meeting.

Captain Dick Price is anxious to get all new players lined up and commence practice at Crestview Country Club.

FOUR WICHITANS IN RIFLE MATCH

Stanton, Meyers, Voegeli, Bouray To Compete

Sunday, March 20, the Kansas state gallery championship rifle matches will be held on the Wichita National Guard rifle range. These matches are sponsored by the Wichita Station Pistol and Rifle Club of the Kansas National Guard.

Two championships will be awarded. One, the Kansas any-sight champion with the score being computed on the aggregate scores of 30 shots fired at 50 feet and 30 shots fired at 75 feet from standing, sitting, and prone positions.

Four University of Wichita students are entered in these matches. They are Maurice Stanton, Dale Myers, Francis Voegeli, and Winston Bouray.

ACTIVE PARTICIPATION IN DEMOCRACY URGED

CINCINNATI, O.—(AP)—College and university students should be given a broad training for active participation in a democracy, and not a special training for work in government agencies.

This was the conclusion reached by more than two-score college university presidents after a postsum on civic education at the University of Cincinnati conference.

Princeton University received \$1,066,695 in Gifts March 15. In the last six months Princeton University has received gifts totaling \$1,066,695.
